Location: Colwall Village Garden is located at Colwall Village Garden, Old Church Road, Colwall WR13 6HB. The grid reference is SO 747 426.

[what3words ///unique.coaster.forgotten](http://what3words.com/unique.coaster.forgotten)

Directions for Access: From Walwyn Road (the main road through Colwall village) turn west onto Old Church Road (to right if coming downhill from the Malvern direction, to left if going uphill from main village, the turning is one way only round a small triangular traffic island with a tree and bus shelter in the centre). Approx. ½ mile along Old Church Road, directly after the right hand turning for Orin Road, veer left up an un-metalled track into Colwall Village Garden (the turning is directly opposite a red house called Cherryfields, on the corner of Old Church and Orin Roads).

If you are coming to Colwall Village Garden from the west (along Old Church Road from Mill Lane) it is best to do a U turn in the turning for Orin Road and then turn left onto the site, as the right hand turning off Old Church Road is very tight.

The Village Garden is a 10 minute walk from the village centre/railway station walking along Stone Drive and Old Church Road or via footpaths CW28/24/24a, CW29 or CW 30/30a (depending on your start point).

Parking: the access track is un-metalled and parking is on grass, so there is limited vehicular access to the site if conditions are very wet. When dry, there is parking for 8-12 cars (depending on care of parking!). If there is no parking, there is a small public car park c. 300m away at the end of Orin Road.

Facilities

Shelter: There is a large Apple Packing Shed on site which serves as shelter in wet weather. We have seats and tables for the shed, as well as benches outside around the site.

Water: The site has mains water as well as rainwater collected in water tanks and butts on the site.

Toilets: There is a disabled access toilet next to the Apple Packing Shed. The toilet is supplied with antibacterial gel for hygiene purposes.

Power: There is mains electricity on site.

First aid: there is a First Aid kit inside the Apple Packing Shed and the Allotment tool shed.
