About LIT

LIT is a specialised brand for laboratory reagents, solvents and allied products, developed and managed by Clairifilt (India). Our focus is to give laboratories reliable quality, clear documentation and sensible pricing without unnecessary complexity.

LIT follows a structured quality and release framework supported by approved manufacturing facilities operating under applicable regulatory licences. Products are supplied in accordance with defined specifications and are released only after verification against agreed quality parameters.

All catalogue items are supported by batch-wise CoA and MSDS, enabling laboratories to maintain reliable records and confidence in day-to-day usage.

What it means to us:

- Consistent quality suitable for routine QC, R&D and teaching laboratories
- CoA and MSDS that are easy to read, file and retrieve
- A mix of pack sizes designed for practical day-to-day use
- Strong commercial support through our distributor network

This catalogue brings all LIT items together in a single, easy-to-use reference – grouped alphabetically and aligned with the way chemists actually search for materials.

Our Focus, Values & Service

Our Focus

- Core portfolio of laboratory reagents, solvents and buffers used daily in QC and R&D
- Practical pack sizes – from 100 ml/g packs up to larger carboys and drums where feasible
- Documentation aligned with regulatory expectations in pharma, food and academia

Our Quality Approach

- Each product linked to a written specification and test method
- Material sourced from qualified partners with appropriate licences and QC facilities
- Every LIT batch is supported by CoA and MSDS; documents are shared digitally on request
- Periodic comparison with equivalent market brands to keep quality and pricing balanced

How We Work with You?

- Fast response on technical queries, documents and urgent requirements
- Support for vendor registrations, sample approvals and cross-references to other brands
- Transparent pricing with structured slabs for different customer segments
- Focus on long-term relationships rather than one-time orders

LIT Product Grades & Application Segments

LIT products are organized into practical working grades. The exact tests and limits vary by product, but the broad intent of each grade is summarized below.

Grade	Typical Use	Key Notes
AR / Analytical Reagent	Routine analysis, titrations and reference work	High purity with controlled limits on common impurities. Used where methods specify AR / ACS / GR-type reagents.
Extra Pure	General laboratory use, teaching and non-critical R&D	Good purity for day-to-day work where methods do not demand AR grade.
LR / For Synthesis	Preparative work, synthesis, cleaning and utility use	Balanced option for large-volume use where slightly higher impurity levels are acceptable.
HPLC / Spectroscopy Solvents	Chromatography and UV-visible work	Low residue, controlled UV cut-off and moisture; additional solvent-specific tests on each batch.
Biochemistry & Molecular Biology	Buffers, agarose, enzymes and related items	Additional controls on inhibitors and trace metals; application-oriented specifications agreed with partners.

Safety, Labelling & GHS Symbols

Chemical safety is shared between the manufacturer, distributor and end-user laboratory. Every LIT label and CoA carries the essential information required for safe handling – including product name, grade, CAS number, hazard statements and basic storage guidance.

Below is a quick reminder of the most common GHS symbols you will see on LIT labels. You can insert the actual pictogram artwork in the first column as per your design template.

Symbol	Hazard Type	Typical Examples / Precautions
 FLAMMABLE	Flammable liquids & solids	Solvents like acetone, acetonitrile, methanol. Keep away from ignition sources; work in well-ventilated areas.
 ACUTE TOXICITY	Acute toxicity	Highly toxic substances; require closed handling, PPE and trained staff.
	Irritation / specific target organ toxicity	Many everyday reagents. Avoid inhalation and skin contact; wash immediately if exposed.
	Corrosive to skin / metals	Strong acids and alkalis. Use eye protection, gloves and suitable storage shelves.
	Aquatic toxicity	Avoid release to drains. Collect waste separately for authorised disposal.

OUR PRODUCT PACKAGING

LIT provides a complete range of **laboratory and industrial packaging formats** designed to maintain the **quality, safety, compatibility and shelf-life** of chemicals. Each packaging type is chosen according to chemical stability, usage volume, and handling requirements.

Suitable for:

• Analytical reagents • Indicators & solutions • Routine laboratory chemicals

Features:

- HDPE and PET bottles in multiple sizes
- Amber glass for light-sensitive materials
- Leak-proof caps with inner plugs
- Clear labelling with GHS hazard icons
- High chemical resistance for solvents, acids, bases and salts

These packs are ideal for **daily laboratory use**, offering easy handling, accurate dispensing and consistent performance.

We also provide Bulk Packaging

High-capacity HDPE drums available from 25 L to 200 L (and 25–200 kg) for solvents, powders and bulk chemicals. Offered in open-top and tight-head designs, these drums provide safe, durable and compliant packaging for industrial-scale handling and transport.

LIT is a complete laboratory solutions brand offering the following product ranges:

Filter Papers & Filtration Products

LIT offers a comprehensive range of laboratory filtration products including qualitative and ashless quantitative filter papers, glass microfiber filters, membrane filters, syringe filters, and cellulose extraction thimbles. These products are designed to deliver consistent filtration performance, high purity, and reproducible results across routine, analytical, and research applications.

Laboratory Glassware

The LIT glassware range includes beakers, flasks, pipettes, burettes, measuring cylinders, funnels, and related laboratory assemblies, manufactured from high-quality borosilicate glass. Designed for thermal resistance, chemical durability, and dimensional accuracy, LIT glassware supports safe and precise laboratory operations.

Certifications & Brand Information

ISO: 9001:2015

Trade Mark No. 331837

LIT is a registered trademark of Clairofilt India

Clairofilt India follows an ISO-aligned quality management system for documentation, vendor evaluation and process control

***Relevant certificates and registrations are available on request.**

Commercial Terms – LIT Branded Products

Scope of use: **LIT products are supplied strictly for laboratory and industrial use only.** They are not intended for direct human or veterinary consumption, household use or formulation into drug products unless specifically agreed in writing.

Prices: Prices in this catalogue are indicative and may change without prior notice based on raw-material costs, taxes and logistics. The final price applicable will be the one shown on the proforma invoice or tax invoice at the time of dispatch.

Taxes: Goods & Services Tax (GST) and any other applicable government levies will be charged extra at the rate in force on the date of billing.

Packing & Freight: Standard packs are as mentioned in the price list. Freight will be on a freight-to-pay or actuals basis unless otherwise agreed. Certain hazardous products may move only by road or by specific transporters as per regulations.

Delivery: Dispatch dates are planned in good faith but are always subject to stock position, transport constraints and force-majeure situations. No claim will be entertained for indirect or consequential loss due to delayed supply.

Returns: Material once sold will not be taken back without prior written consent. In case of any quality concern, customers are requested to share details within 7 working days of receipt so that we can investigate with our manufacturing partner.

Documentation: Batch CoA and MSDS are available for all catalogue items. Soft copies can be emailed on request and should be treated as part of the supply records.

Jurisdiction: Unless otherwise mentioned in writing, any dispute arising out of commercial transactions will be subject to the appropriate courts in Maharashtra, India.
