Mr. Voss,

As I told you in the voicemail, our Records Maintenance Unit is the proper avenue to obtain case information and reports. The case is closed and I cannot give you any other information than what Records releases to you.

I am requesting an update in this investigation.

To recap, On July 20, 2024, officers and deputies responded to a medical facility reference a female victim of domestic violence/ aggravated assault. The victim had suffered several injuries and the treatment included approximately 50 stitches. This incident was documented under PCSO case number 2407200147 and Tucson PD case number 2407200097.

In the PCSO report, Detective Duarte #7653 stated he applied for a search warrant for the personal cell phone and Tucson PD issued cell phone for the suspect, Alisa Cunningham. The camera footage for the Ring Doorbell was also included in this search warrant (24SW1626).

I received the PCSO report through a public record request. I noticed that the results of the search warrant were not in any reports or supplements. I waited a few months and then called PCSO records for an update. I was advised that there were no updates to this investigation. It is now been 9 months and I have not been advised of the results of the search warrant.

I think you would agree that the results of this search warrant could be exculpatory in nature. As a resident of Tucson and Pima County, a registered voter, and a tax payer, I would like to know the results of this search warrant.

Please let me know how I can get these results.

I thank you for your attention to this matter.

James Voss
