WE FIND/ACQUIRE AND ADVANCE/DEVELOP WORLD-CLASS CRITICAL MINERAL PROJECTS

Exploration To Production

AsiaBaseMetals Inc. (TSX.V: ABZ - the "Company") is a publicly listed Canadian resource company focused on acquiring and developing mineral assets in stable jurisdictions across the Americas. (Focus: Canada, U.S.A., Mexico, Argentina, and Chile)

Award Winning Team

The Company is anchored by an award-winning team — combining [management](#), [board of directors](#), and [advisory board](#) collectively the "[Team](#)" — with a proven track record of discoveries, development, production, and value creation.

Awards Granted to Team

The [Team](#) includes a member recognized with the [2009 Thayer Lindsley Award](#) and the [2015 Colin Spence Award](#), both for International Discovery, for contributions to Alaska's giant [Donlin Gold](#) deposit and high-grade [Bornite Copper](#) deposit.

WE ARE COMPANY CAPITALIZING ON THE JUNIOR EXPLORATION MINING SECTOR UPTURN

Upturn In Mining Sector Now Gaining Momentum – Especially the Junior Mining Sector

Chairman & CEO

Corporate Presentation - Video

Video Highlighted from Website

Following a decade-long downturn during which the Company minimized expenditures and shareholder dilution, the Company is now positioned to benefit as the broader market upturn (which began in 2025) has now commenced its extension into the junior-exploration sector in 2026.

Since May 2025, this [Team](#) has driven a focused acquisition strategy targeting VMS-style assets (copper, gold, silver, and zinc), having anticipated the mining-sector downturn's end by late 2025.

FOCUSED STRATEGY - IMPLEMENTATION RESULTS

Acquisition - [Jervis Project](#) (December 5, 2025)

Additional Advanced Projects Under Review for Acquisitions

The [Jervis Project](#) acquisition is a key growth milestone positioning ABZ to capitalize on strengthening metals markets. The [Team](#) looks forward to making further acquisitions and building another successful mining company, as previously done, having the power of discovery for the projects of tomorrow.

WE HAVE POWER OF DISCOVERY FOR THE PROJECTS OF TOMORROW

WHY COPPER

WHY NOW

Copper demand is being driven by population and middle-class growth led by India and China, electrification and AI-driven power demand, the need to replace aging infrastructure in developed economies, and trade and tariff pressures on the movement of metals. At the same time, supply is constrained by a long-running shortage of new discoveries and the multi-year lead times and permitting hurdles required to bring new mines online. Industry leaders including [Robert Friedland](#), [Rob McEwen](#), and [Mike Henry](#) (BHP) have publicly pointed to a structural copper shortfall over the coming decade.

COMPANY HAS AN AWARD-WINNING TEAM WITH TRACK-RECORD

Company's Team is Invested And Committed to Success

AsiaBaseMetals is led by an experienced and technical team — [management](#), [board of directors](#) and [advisory board](#) (Jointly the “[Team](#)”), and consultants — guided by Rajinder Chowdhry (“[Raj](#)”), CEO and Chairman. The Team brings proven experience across the full mining lifecycle: discovery, capital raising, permitting, mine development, mine operations, and value creation. Team members are significant shareholders aligning their interests directly with shareholders.

COMPANY'S AWARD-WINNING TEAM IS INVESTED & COMMITTED TO SUCCESS

Team Members with a Proven Track-Record are Significant Shareholders (75% of Issued Stock)

[Rajinder Chowdhry](#) ([Raj](#)), CEO and Chairman is now focused solely on AsiaBaseMetals., having completed his guidance of both companies he co-founded alongside Rick Van Nieuwenhuyse ([Sandfire Resources America Inc.](#) – formerly Tintina Resources Inc. and [Valhalla Metals Inc.](#))

JERVIS PROJECT

Jervis Project - Featured Project - VMS-style — Cu, Zn, Ag, Au — 100% owned, 1,000 hectares, British Columbia, Canada. The Project having a 2 Km identified anomaly sits 55 Km northwest on trend of the [Britannia Mine](#) (once the largest copper producer in the British Commonwealth) within the VMS-prospective [geological trend of the Gambier Group rocks](#), which also hosts the [Rox project](#) (20 Km northwest of Jervis) held by Kenorland Minerals Ltd., a successful project generator (TSX.V: KLD). Jervis Project is located approximately 80 km northwest of Vancouver, BC, and 11 km north of the community of Egmont on the Sunshine Coast; within the traditional territory of the [Shíshálh First Nation](#). **Mineral Claims Consultation Framework completed (July 22, 2026)**

Note: With the [Mineral Claims Consultation Framework \(MCCF\)](#) completed, one claim was granted to the Company on December 5, 2025, and the second claim on July 22, 2026, completing the MCCF for the whole Project.

A COHERENT 2 KM MINERALIZED ANOMALY IDENTIFIED/OUTLINED ON JERVIS PROJECT

Extending In a Broad Northwest–Southeast Trending Band

(1993 soil-sampling program)

Jervis Project — location and geological setting along the VMS-prospective Gambier Group trend.

AWARD-WINNING TEAM WILL ADVANCE/EXPLORE JERVIS PROJECT

Using Modern Technology Specifically Designed for Targeting VMS-Style Mineralization

JERVIS PROJECT SAMPLING HIGHS VS. BRITANNIA HISTORICAL PRODUCTION

	Metal	Jervis Project Sampling Highs	Britannia Mine Avg. Production Grade
	Copper (Cu)	1.92%	1.1%
	Zinc (Zn)	24.9%	0.65%
	Silver (Ag)	283 g/t (9.98 oz/t)	6.8 g/t
	Gold (Au)	N/A <i>No reliable data</i>	0.6 g/t

Britannia, in British Columbia, was once one of the world's largest copper mines and the largest in the British Commonwealth, producing 47.8 million tonnes over a ~70-year mine life (now a museum). Note: mineralization on adjacent or nearby properties is not necessarily indicative of mineralization on the Jervis Project.

Prior work — open cuts and adits dating to the 1920s, roughly 1,371 m of drilling in the late 1960s and early 1970s, and rock/soil sampling with magnetic and VLF surveys in 1989 and 1993.

NOTE: PRIOR WORK TARGETED LIMITED SURFACE SHOWINGS ONLY (NOT AS A VMS SYSTEM)

Prior Exploration Work Was Performed Without Applying Modern VMS Exploration Model

Future work — The Company's award-winning [Team](#) will advance Jervis Project using modern exploration technology designed specifically for VMS-style mineralization. **Drilling Planned Q4 – 2026 / Q1 2027**

GNOME PROJECT

Gnome Project - Zn / Co — 100% owned, ~1,800 hectares, British Columbia. Gnome is strategically located in the Kechika Trough of the regionally extensive Selwyn Basin, a district that hosts several significant deposits. It lies approximately 35 km southeast of the Cirque deposit (Teck / Korea Zinc joint venture, 50% each) and near ZincX Resources' Cardiac Creek deposit.

The Company plans to advance Gnome exploration prudently, guided by the permitting timeline for the granting of mining permits on the adjacent Cirque and Cardiac Creek projects.

COMPARING PROJECTS - IN GNOME PROJECT AREA (KECHIKA TROUGH)

Gnome Project claims (green) in the Kechika Trough, Selwyn Basin, British Columbia

Note: mineralization on adjacent or nearby properties is not necessarily indicative of mineralization on the Gnome Project

COMPANY CAPITAL STRUCTURE

Common shares (issued & outstanding)	49,402,871
Stock options outstanding	3,325,000
Warrants outstanding	3,872,143
Fully diluted shares (August 31, 2026)	56,600,024

Listed on [TSX.V](https://www.tsx.com) (symbol: [ABZ](https://www.tsx.com)). Regulatory filings on [SEDAR+](https://www.sedar.com)

UPCOMING FINANCING

PLANNED FINANCING - UP TO \$2,000,000 IN STAGES

(Q⁴ - 2026 Through – Q⁴ - 2027 - [Planned Financings](#))

OUR HISTORY

AsiaBaseMetals was established as a spin-out company (Spin-Co) through a plan of arrangement undertaken by [Sandfire Resources America Inc.](#) (name changed from Tintina Resources Inc. in 2018) during and under Raj Chowdhry's guidance, while serving as founding CEO and Co-Chairman alongside Rick Van Nieuwenhuysse.

OUR FUTURE

Lead by an award-winning [TEAM](#), AsiaBaseMetals Inc.'s growth strategy is matched only by the scale of the opportunities in front of us. **As Robert Friedland Stated “We Have to Mine the Same Amount of Copper in the Next 18 Years as We Have Mined in the Last 10,000 Years”.** The [Company](#) & [Team](#) agree; what an opportunity.

JOIN US & PARTICIPATE - WE HAVE COMMENCED TO CEASE THE IMMENSE OPPORTUNITY FOR SUCCESS
