Company is Capitalizing on the Junior Exploration Mining Sector-Upturn

An Upturn in the Junior Mining-Sector Now Gaining Momentum

ABOUT THE COMPANY

AsiaBaseMetals Inc. (**TSX.V**: ABZ) (the "**Company**"), a Futura Capital Group company, is a mineral exploration and development company advancing its highly prospective Jervis Project (copper zinc silver and gold volcanogenic massive sulphide - VMS-Style) and the Gnome Project (zinc/cobalt) in British Columbia, Canada. The Company's proven team (the "Team") is also targeting stable jurisdictions across the Americas for additional acquisitions.

Team comprises Management, Board of Directors and Advisory Board

MARKET OUTLOOK

Why Copper – Why Now

Copper demand is being driven by population and middle-class growth led by India and China, electrification and AI-driven power demand, the need to replace aging infrastructure in developed economies, and trade and tariff pressures on the movement of metals. At the same time, supply is constrained by a long-running shortage of new discoveries and the multi-year lead times and permitting hurdles required to bring new mines online.

Scan or Click – Structural Copper Shortfall Video

DEMAND IS STRONG AND RISING

- Population and middle-class growth, led by India and China
- Electrification and AI-driven power demand
- Replacing aging infrastructure in developed economies
- Trade and tariff pressures on the movement of metals

SUPPLY IS DEPLETED AND CONSTRAINED

- A long-running shortage of new discoveries
- Multi-year lead times and permitting hurdles to bring new mines online

THE TEAM IS INVESTED AND COMMITTED TO SUCCESS

TEAM WITH TRACK-RECORD

Company's Team is Invested and Committed to Success

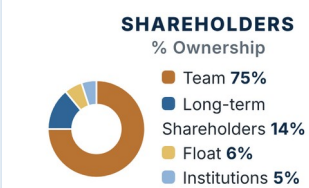

AsiaBaseMetals is led by an experienced, technical and business-oriented Team — guided by Rajinder Chowdhry ("**Raj**"), CEO and Chairman. The Team brings proven experience across the full mining lifecycle: discovery, capital raising, permitting, mine development, mine operations and value creation. Team members are significant shareholders, aligning their interests directly with shareholders.

OUR TEAM'S ACCOMPLISHMENTS

World-Class Discoveries

Discovery	Type	Location	Company	Market cap high
Smucker & Sun	VMS-style	Alaska, U.S.A.	Valhalla Metals Inc.	**$181 million (2026)**
Black Butte	Copper	Montana, U.S.A.	Sandfire Resources America Inc.	**$320 million (2021)**
Gahcho Kué	Diamonds	NWT, Canada	Mountain Province Diamonds Inc.	**$550 million (2011)**
Kolwezi	Copper	Congo, DRC	America Mineral Fields Inc.	**$500 million (1997)**

Rajinder Chowdhry (**Raj**), **CEO and Chairman is now focused solely on AsiaBaseMetals**, having completed his guidance of both companies he co-founded alongside Rick Van Nieuwenhuyse (Sandfire Resources America Inc. – formerly Tintina Resources Inc. and Valhalla Metals Inc.)

Jervis the Next "World-Class Discovery" – Another Britannia?

It's Time to Find Out – Our Proven Team will Explore

JERVIS PROJECT

JERVIS PROJECT

High Potential VMS-Style Project

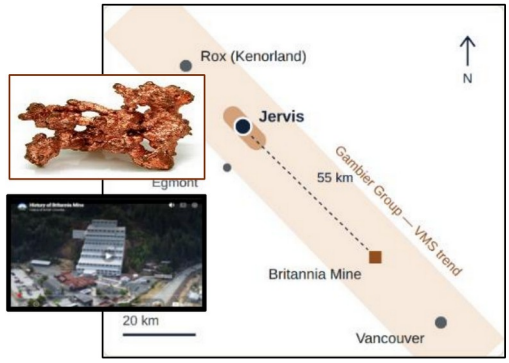

VMS-style	100%	1,000 ha	2 km anomaly
Cu · Zn · Ag · Au	owned	two mineral claims	identified anomaly

Jervis Project **(100% owned – VMS-Style)** sits 55 km northwest of, and on trend with, the Britannia Mine, within the VMS-prospective geological trend of the Gambier Group rocks. The same trend hosts the Rox project, 20 km northwest of Jervis Project, held presently by project generator Kenorland Minerals Ltd. (TSX.V: KLD).

The project is about 80 km northwest of Vancouver , B.C., Canada, and 11 km north of Egmont on the Sunshine Coast, within the traditional territory of the Shíshálh First Nation.

Mineral Claims Consultation Framework (MCCF) Complete
One claim was granted on December 5, 2025, and the second on July 22, 2026, completing the MCCF framework for the whole Project.

Coherent 2 km mineralized anomaly identified.
In a broad NW–SE band on trend with Britannia

Mineralization on adjacent or nearby properties is not necessarily indicative of mineralization on the Jervis Project.(See Cautionary Disclaimer on website)

Jervis Project 2 Km Anomaly - Identified

Click-Image View Video

Click-Image View Video

The historic Britannia mine — once one of the largest copper producers in the world & largest in the British Commonwealth (now a museum)

Prior work

Previous Owners - Open cuts and adits dating to the 1920s, roughly 1,371 m of drilling in the late 1960s and early 1970s, and rock and soil sampling with magnetic and VLF surveys in 1989 and 1993.

PREVIOUS OWNERS – EXPLORATION PROGRAMS

DID NOT APPLY MODERN VMS EXPLORATION MODEL AS REQUIRED

- Failed To Recognize and Test A VMS-System
- Prior Work Targeted Limited Surface Showing Only
- Failed to Test an Exceptional VMS-Style Opportunity

PRIOR WORK - DID NOT TARGET/TEST VMS-STYLE SYSTEM

Future work

AsiaBaseMetals - The Company's proven Team will advance Jervis Project using modern exploration technology designed specifically for VMS-style mineralization, as required.

ASIABASEMETALS – EXPLORATION PROGRAMS

APPLY MODERN VMS EXPLORATION MODEL AS APPROPRIATE

- Planned Work to Target VMS-System
- Phased Work – Surveys and Drilling Q1-Q2 2027
- Test an Exceptional VMS-Style Opportunity

PLANNED WORK – TARGET/ TEST VMS-STYLE SYSTEM

Rox Project context

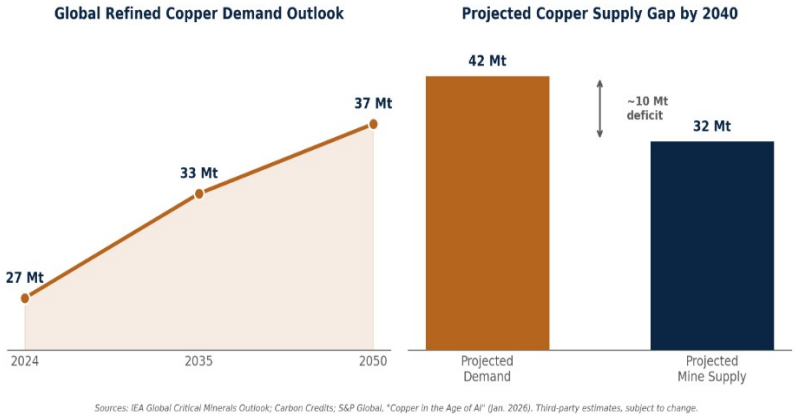

Rox Project is held by Kenorland Minerals, a successful project generator (TSX.V: KLD) whose notable shareholders include Sumitomo Metal Mining Co. Ltd. and John Tognetti, Chairman Emeritus of Haywood Securities.

GLOBAL COPPER MARKET

Quote – View Robert Friedland Ivanhoe Mines

"World Needs More Copper in Next 18 Years

More Than All Copper Mined in Last 10,000 Years"

GNOME PROJECT

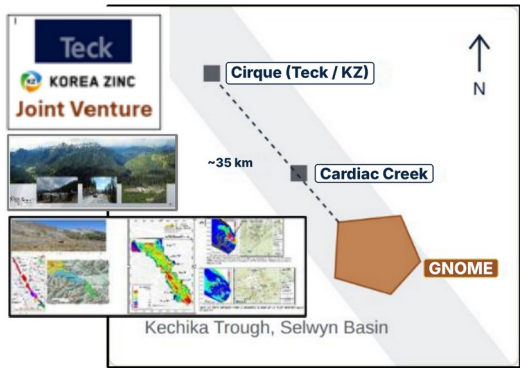

GNOME PROJECT

High potential Project in Kechika Trough

Gnome Project is strategically located in the Kechika Trough of the regionally extensive Selwyn Basin, a district that hosts several significant deposits. It lies about 35 km southeast of the Cirque deposit (a 50/50 Teck / Korea Zinc joint venture) and near ZincX Resources' Cardiac Creek deposit.

The Company plans to advance Gnome Project exploration prudently, guided by the permitting timeline for mining permits on the adjacent Cirque and Cardiac Creek projects.

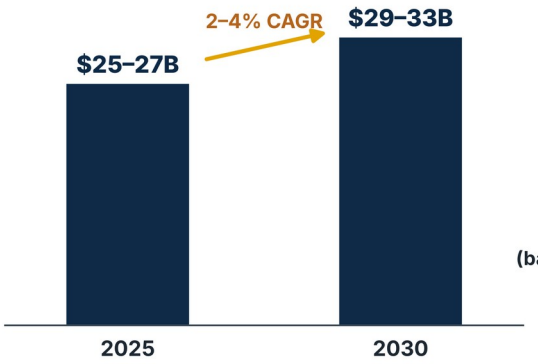

Note: ZincX completed a $1,820,000 financing on September 10, 2026, and appointed Dr. Quinton Hennigh, San Cristobal CEO and a participant in the financing, as a director. (News Release Sep 11, 2026)

Note: Schematic; positions approximate. Mineralization on nearby properties is not necessarily indicative of mineralization on Gnome.

OUR HISTORY

OUR HISTORY

Plan of Arrangement Creates Value

AsiaBaseMetals Created Through Plan of Arrangement by Sandfire Resources America

A second-generation company for shareholders

AsiaBaseMetals in Turn then Created Three more SpinCo's — Third Generation Companies

AsiaBaseMetals Inc. was established in 2009 as a spin-out company ("**Spin-Co**" NR-2009) to become an independent publicly reporting company pursuant to the completion of a plan of arrangement ("**POA**") undertaken by Sandfire Resources America Inc. (prior to its name change from Tintina Resources Inc. effective February 2, 2018) under Raj Chowdhry's guidance while he served as founding CEO and Co-Chairman alongside Rick Van Nieuwenhuyse.

AsiaBaseMetals' - Own Plan of Arrangement (2020)

AsiaBaseMetals completed its own court-approved statutory plan of arrangement under the Business Corporations Act (British Columbia), with the approval of the TSX Venture Exchange and the British Columbia courts in September 2020, creating three new independent publicly reporting companies for the benefit of all shareholders of record:

MANTRA EXPLORATION INC.
Value Driven Projects

Mantra Exploration Inc.
(MEI)

MANTRA 2 REAL ESTATE INC.
THE KEYSTONE OF WEALTH

Mantra 2 Real Estate Inc.
(M2R)

MANTRA PHARMA INC.
Better Health Worldwide

Mantra Pharma Inc.
(MPh)

Note: The three companies intend to seek a listing on a Stock Exchange (Likely CSE or TSX.V)

Shareholders of AsiaBaseMetals as of the record date received one common share in each of the three Mantra companies. Upon completion, each ceased to be a wholly owned subsidiary and became an independent publicly reporting company, with each seeking a stock-exchange listing.

OUR FUTURE

OUR FUTURE

Growth Strategy Matched Only by the Scale of Opportunities in Front of Us

Led by a proven TEAM, AsiaBaseMetals Inc.'s growth strategy is matched only by the scale of the opportunities in front of us. As Robert Friedland stated "We have to mine the same amount of Copper in the next 18 years as we have mined in the last 10,000 years".

The Team agrees. We are Seizing the "Superb Opportunity" Video.

Cautionary Disclaimer & Forward-Looking Statements

THIS IS A CONDENSED SUMMARY. THE COMPLETE LEGAL INFORMATION AND CAUTIONARY DISCLAIMER IS AVAILABLE IN THE COMPANY'S DOCUMENT LIBRARY AND ON ITS WEBSITE, AND FORMS PART OF THIS PROFILE – ABOUT US.

Forward-looking statements. This document contains forward-looking information within the meaning of Canadian securities laws — including statements about asset acquisitions, financing and use of proceeds, exploration and development plans, and potential mineralization. Such statements are not guarantees; actual results may differ materially due to risks including failure to obtain exchange or regulatory approvals, failure to raise funds on the proposed terms or at all, mineral-exploration risk, commodity-price and currency fluctuations, permitting and environmental requirements, and other factors. Readers should not place undue reliance on forward-looking statements. The Company disclaims any obligation to update them except as required by law.

Technical information. Mr. Helgi Sigurgeirson, a consultant to the Company, is a Qualified Person under National Instrument 43-101 and has reviewed and approved the scientific and technical information herein. Historical results referenced are non-compliant with NI 43-101; a qualified person has not done sufficient work to classify them as current mineral resources or reserves, and they are not treated as such. Information on adjacent or nearby properties is not necessarily indicative of mineralization on the Company's projects.

Notice. Neither the TSX Venture Exchange nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this material. This material does not represent an offer or recommendation to buy or sell securities and is not a solicitation for financing.
