Company is Capitalizing on the Junior Exploration Mining Sector-Upturn

An Upturn in the Junior Mining-Sector Now Gaining Momentum

ABOUT THE COMPANY

AsiaBaseMetals Inc. (TSX.V: ABZ) (the "**Company**"), a Futura Capital Group company, is a mineral exploration and development company advancing highly prospective Jervis Project (copper zinc silver and gold volcanogenic massive sulphide - VMS-Style) and the Gnome Project (zinc/cobalt) in British Columbia, Canada. The Company's proven team (the "Team") is also targeting stable jurisdictions across the Americas for additional acquisitions.

Team **comprises** Management, Board of Directors **and** Advisory Board

PROVEN TEAM

A Proven Track-Record of Discovery and Value Creation

AsiaBaseMetals is anchored by a Team with a proven track record of discoveries, development, production, and value creation. See Team's Accomplishments – World-Class Discoveries – Page 2

The Team includes a member recognized with the **2009** Thayer Lindsley Award and the **2015** Colin Spence Award, both for International Discovery, for contributions to Alaska's giant Donlin Gold deposit and high-grade Bornite Copper deposit.

MARKET OUTLOOK

Why Copper - Why Now

Demand is strong and rising.
- Population and middle-class growth, led by India and China
- Electrification and AI-driven power demand
- Replacing aging infrastructure in developed economies
- Trade and tariff pressures on the movement of metals

Supply is depleted and constrained.
- A long-running shortage of new discoveries
- Multi-year lead times and permitting hurdles to bring new mines online

UPTURN IN THE MINING SECTOR NOW GAINING MOMENTUM

Capitalizing On the Junior Exploration Market Upturn – Building Value

Through a decade-long mining sector downturn, the Company minimized expenditures and shareholder dilution. This ensured the Company's position to benefit from the broader market upturn that began in 2025, which has extended into the junior exploration sector and is now gaining momentum.

Since May 2025, the Team has driven a focused acquisition strategy targeting VMS-Style assets (copper, gold, silver and zinc), having correctly anticipated the timing of the mining sector's upturn.

POWER OF DISCOVERY FOR PROJECTS OF TOMORROW

STRATEGY — RESULTS

PROJECT ACQUIRED - COMPLETED JULY 22, 2026
Jervis Project
On Trend of the Britannia Mine
Britannia Mine - once the largest copper producer in the British Commonwealth
News release: December 5, 2025

PROJECTS UNDER REVIEW
Advanced Projects in Americas
For Additional Acquisitions

The Jervis Project acquisition is a key growth milestone that positions AsiaBaseMetals to capitalize on strengthening metals markets. The Team looks forward to further acquisitions and to building another successful mining company, as previously done consistently with prior companies & projects – having the **"Power of Discovery for the Projects of Tomorrow."**

THE TEAM IS INVESTED AND COMMITTED TO SUCCESS

A Proven Team with A Track Record

AsiaBaseMetals is led by an experienced, technical and business-oriented Team — guided by Rajinder Chowdhry ("**Raj**"), CEO and Chairman. The Team brings proven experience across the full mining lifecycle: discovery, capital raising, permitting, mine development, mine operations and value creation. Team members are significant shareholders, aligning their interests directly with shareholders.

FEATURED PROJECT · BRITISH COLUMBIA, CANADA

Jervis Project: The Next World-Class Discovery?

Another Britannia? Proven Team Will Find the Answer - Exceptional Opportunity

BRITANNIA MINE VIDEO JERVIS PROJECT VIDEO

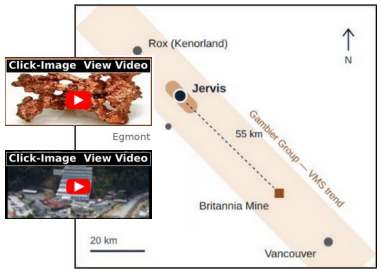

VMS-style	100%	1,000 ha	2 km anomaly
Cu · Zn · Ag · Au	owned	two mineral claims	identified anomaly

Jervis Project **(100% owned – VMS-Style)** sits 55 km northwest of, and on trend with, the Britannia Mine, within the VMS-prospective geological trend of the Gambier Group rocks. The same trend hosts the Rox project, 20 km northwest of Jervis Project, held presently by project generator Kenorland Minerals Ltd. (TSX.V: KLD).

The project is about 80 km northwest of Vancouver , B.C., Canada, and 11 km north of Egmont on the Sunshine Coast, within the traditional territory of the Shíshálh First Nation.

Mineral Claims Consultation Framework (MCCF) Complete
One claim was granted on December 5, 2025, and the second on July 22, 2026, completing the MCCF framework for the whole Project.

Coherent 2 km mineralized anomaly identified.
In a broad NW–SE band on trend with Britannia

Britannia Mine - Largest Copper Mine in The British Commonwealth - 70-Year Mine-Life now a museum.

Project Name	Copper (Cu)	Zinc (Zn)	Silver (Ag)	Gold (Au)
Jervis Sampling Highs	1.92%	24.9%	283 g/t	N/A
Britannia Production Grade	1.1%	0.65%	6.8 g/t	0.6 g/t

Mineralization on adjacent or nearby properties is not necessarily indicative of mineralization on the Jervis Project.(See Cautionary Disclaimer on website)

Prior work

Previous Owners - Open cuts and adits dating to the 1920s, roughly 1,371 m of drilling in the late 1960s and early 1970s, and rock and soil sampling with magnetic and VLF surveys in 1989 and 1993.

PREVIOUS OWNERS – EXPLORATION PROGRAMS
DID NOT APPLY AS REQUIRED - MODERN VMS EXPLORATION MODEL
- Failed To Recognize and Test a VMS-System
- Prior Work Only Targeted Limited Surface Showings
- Failed to Test an Exceptional VMS-Style Opportunity

PRIOR WORK FAILED TO TARGET AND TEST VMS-SYSTEM

Future work

AsiaBaseMetals - The Company's proven Team will advance Jervis Project using modern exploration technology designed specifically for VMS-style mineralization, as required

ASIABASEMETALS – EXPLORATION PROGRAMS
APPLY AS APPROPRIATE MODERN VMS EXPLORATION MODEL
- Planned Work - to Target VMS-System
- Phased Work Planned – Surveys and Drilling Fiscal Q3–Q4 2027
- Test an Exceptional VMS-Style Opportunity

PLANNED WORK TO TARGET AND TEST VMS-STYLE SYSTEM

We Find, Acquire and Advance World-Class Critical Mineral Projects

Our Team Looks Forward to Additional Advanced-Stage Project Acquisitions in the Americas
As We Advance Our Current Highly Prospective Jervis and Gnome Projects Forward
Prudently Aligned with Market Conditions

Zinc(ZN) / Cobalt (Co)· 100% OWNED · ~1,800 HECTARES · BRITISH COLUMBIA

Gnome Project

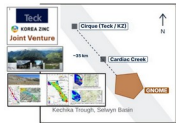

Another Cirque and Akie? Proven Team Will Find the Answer - Exceptional Opportunity

GNOME PROJECT

Gnome Project is strategically located in the Kechika Trough of the regionally extensive Selwyn Basin, a district that hosts several significant deposits. It lies about 35 km southeast of the Cirque deposit (a 50/50 Teck / Korea Zinc joint venture) and near ZincX Resources' Cardiac Creek deposit.

The Company plans to advance Gnome Project exploration prudently, guided by the permitting timeline for mining permits on the adjacent Cirque and Cardiac Creek projects.

Note: ZincX completed a $1,820,000 financing on September 10, 2026, and appointed Dr. Quinton Hennigh, San Cristobal CEO and a participant in the financing, as a director.

Note: Schematic; positions approximate. Mineralization on nearby properties is not necessarily indicative of mineralization on Gnome.

OUR HISTORY

AsiaBaseMetals Inc. was established in 2009 as a spin-out company ("**Spin-Co**" NR-2009) to become an independent publicly reporting company pursuant to the completion of a plan of arrangement ("**POA**") undertaken by Sandfire Resources America Inc. (TSX.V: SFR - prior to its name change from Tintina Resources Inc. effective February 2, 2018) under Raj Chowdhry's guidance while serving as founding CEO and Co-Chairman alongside Rick Van Nieuwenhuyse.

OUR FUTURE

The World Needs More Copper, and AsiaBaseMetals is Positioned for the Opportunity
Jervis Project Acquisition Is Only the Beginning – More Advanced Project Acquisitions in The Americas Will Follow Soon

We Have a Focused Growth Strategy – Successful Pursuit of Copper - One of the World's Most Critical Resources Today

"Most Critical Resource for the World of Tomorrow & the Upcoming New-Age Economy"

Robert Friedland *stated* — *"We have to mine the same amount of copper in the next 18 years as we have mined in the last 10,000 years."*

Raj Chowdhry, CEO *stated* — *"Copper supply is under immense pressure & demand is growing exponentially. The opportunity is here - it is time to re-build, the future of mining."* The Team Agrees
