Management Discussion and Analysis

For the three months ended December 31, 2023

Introduction

This Management Discussion and Analysis (“MD&A”) of AsiaBaseMetals Inc. (the “Company”) has been prepared by management as of February 21, 2024 and should be read in conjunction with the unaudited condensed interim financial statements and related notes thereto of the Company for the three months ended on December 31, 2023, which were prepared in accordance with International Financial Reporting Standards (“IFRS”), including IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). All dollar figures are expressed in Canadian dollars unless otherwise stated. These documents and additional information on the Corporation are available on the Company’s website at www.asiabasemetals.com or on SEDAR at www.sedar.com.

Forward-looking Statements

This MD&A contains “forward-looking information” within the meaning of applicable Canadian securities legislation and “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 (collectively, “forward-looking information”). In certain cases, forward-looking information can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes”, or variations or the negative of such words and phrases, or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved” or the negative of these terms or comparable terminology. By their very nature, forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. The Company disclaims any obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise.

Historical results of operations and trends that may be inferred from the following discussions and analysis may not necessarily indicate future results from operations.

Management Discussion and Analysis

For the three months ended December 31, 2023

1. Executive Summary

AsiaBaseMetals Inc. (the "**Company**") is a growth company focused on the exploration and development of metals, including precious metals such as gold and silver, base metals such as zinc and copper, and alkali metals such as cobalt and lithium. The Company has zinc/cobalt project in British Columbia, Canada and is reviewing additional advanced projects for acquisition.

Gnome Project:

The Gnome zinc project ("**Gnome Project**") has land claims that encompass 1,996 hectares and are located strategically in the heart of an area home to some of Canada's important zinc deposits and the focus of much past exploration. The Gnome project lies 70 km SE from the Cirque Zn-Pb-Ag deposit and 46 km SE along trend from the Akie Zn-Pb-Ag deposit, all of which are in the Kechika trough, a geological belt northeast of Williston Lake containing these and other sediment-hosted Zn-Pb-Ag prospects along trend. These deposits and prospects were discovered in the heyday of northern British Columbia Zn-Pb-Ag exploration during the late 1970's and early 1980's.

Work on the Gnome project to date includes mapping and sampling during the 1970's and exploration work by the Company. The Company conducted an exploration program during fiscal 2012, fiscal 2013, fiscal 2018 and fiscal 2019. This historical work has identified six target areas listed as Areas A-F on the Property. The 2019 exploration program included drilling of HQ size core hole down to a depth of 140m to test targets in Area C. Although the drill hole intersected favourable lithological unit of Gunsteel Formation comprising of grey and black carbonaceous shales with 1-3% sulphides, the assays indicated no anomalous values of target metals. The 2019 work also included prospecting, mapping and sampling work in areas D and G (a newly identified target area). Results of 16 soil and 4 rock sampling in new area G has shown favourable results. The results indicate Area G as new potential target for further exploration work.

Paisano Gold, Peru:

On June 7, 2022, the Company entered into an option agreement with Regency Silver Corp. ("**Regency Silver**") (TSXV: RSMX) and its Peruvian subsidiary, to acquire a 70% interest in the Paisano Gold Project in North-Central Peru (the "**Property**").

The Company may earn a 70% interest in the Property and to be in good standing, the Company must make the following:

- a) cash payments to keep the Property in good standing of approximately US\$3 per hectare over the next three years commencing in 2023 estimated as follows:
 - (i) \$11,000 on or before May 25, 2023;
 - (ii) \$11,000 on or before May 25, 2024; and
 - (iii) \$11,000 on or before May 25, 2025;

- b) issue Regency Silver a total of 250,000 common shares over three years as follows:
 - (i) 50,000 common shares on or before September 1, 2023;
 - (ii) 100,000 common shares on or before May 25, 2024; and
 - (iii) 100,000 common shares on or before May 25, 2025; and

ASIABASEMETALS INC.

For the three months ended December 31, 2023

1. Executive Summary (continued)

- c) incur at least \$1,000,000 in exploration expenditures on the Property by expending the sum of \$200,000 on or before May 25, 2024, and the additional sum of \$800,000 on or before May 25, 2025.

The Company may elect to issue common shares instead of expending money on exploration. Such shares will be priced at the greater of \$0.17 per share or the closing price of the Company's share on the TSX Venture Exchange, or such other exchange on which the common shares are then principally traded, on the trading date immediately preceding the date on which notice of such election is delivered. In the event the Option is exercised, the parties will enter in a joint venture with their respective interests.

The Company has terminated the option agreement with Regency Silver during the year ended September 30, 2023.

10. Financial Instruments and Other Instruments

The Company expects its current capital resources will be sufficient to carry its exploration plans and operations through its current operating year.

Financial Instruments and Fair Value Measurements

IFRS 13 – *Fair Value Measurement*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Assets measured at fair value on a recurring basis were presented on the Company's statement of financial position as at December 31, 2023 as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial assets				
Cash	\$ 8,820	\$ –	\$ –	\$ 8,820

Financial Risk

(i) Credit Risk

Credit risk arises from non-performance by counterparties of contractual financial obligations. The Company's maximum credit risk is primarily attributable to its cash. The Company limits its exposure to credit loss for cash by placing such instruments with financial institutions.

As at December 31, 2023, the Company's maximum exposure to credit risk is the carrying value of cash of \$8,820.

(ii) Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient financial resources to meet liabilities when due. As at December 31, 2023, the Company has a working capital deficit of \$471,897. The Company requires funds to be raised from financing activities to meet its current obligations. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

(iii) Interest Rate Risk

In management's opinion, the Company's interest rate risk is minimal as the Company does not have any bank indebtedness that bear interest at fixed or variable rates.

Management Discussion and Analysis
For the three months ended December 31, 2023

10. Financial Instruments and Other Instruments (continued)

(iv) Foreign Currency Risk

The Company is exposed to currency fluctuations in the acquisition of foreign currencies. The Company holds insignificant balance in cash in foreign currencies (US dollars) and is therefore not exposed to significant gains or losses on foreign exchange. A significant change in the currency exchange rate between the Canadian dollar relative to the US dollar would have an insignificant effect on the Company's results of operations, financial position and/or cash flows. The Company has not hedged its exposure to currency fluctuations.

As at December 31, 2023, a change of 10% +/- in US dollar would not result in a significant impact to the statements of loss and comprehensive loss.

(v) Commodity Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities.

11. Business Operations

The Company was incorporated on August 11, 2009 under the laws of British Columbia. The Company's principal business activities include the acquisition, exploration and development of resource property. The address of the Company's corporate office is 6153 Glendalough Pl., Vancouver, British Columbia, V6N 1S5, Canada.

At December 31, 2023, the Company had not yet determined whether its property contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production or proceeds from the disposition of the resource property.

12. Outstanding Share Data

Summary of Outstanding Share Data at February 21, 2024:

- i) Authorized:
Unlimited common shares without par value

- Issued and outstanding:
49,402,871 common shares

- ii) Stock options outstanding: 3,575,000

- iii) Warrants outstanding: 3,872,143

13. Disclosure Controls

Management has designed disclosure controls and procedures, or has caused them to be designed under its supervision to provide reasonable assurance that material information relating to the Company is made known to management, particularly during the period in which the annual filings are being prepared. Management has also designed such internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and preparation of the financial statements for the year ended September 30, 2023 in accordance with IFRS.

The Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of the Company's disclosure controls and procedures in place as at December 31, 2023. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer of the Company concluded that the design and operations of these controls and procedures were effective.

Additional information pertaining to the Company, including the management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com. The shareholders will be kept informed of any material changes.
