ABOUT THE COMPANY

AsiaBaseMetals Inc. (TSX.V: ABZ) (the "Company"), a [Futura Capital Group](#) company, is a mineral exploration and development company advancing highly prospective [Jervis Project](#) (copper zinc silver and gold volcanogenic massive sulphide - VMS-Style) and the [Gnome Project](#) (zinc/cobalt) in British Columbia, Canada. The Company's award-winning team (the "[Team](#)") is also targeting stable jurisdictions across the Americas for additional acquisitions. [Team](#) comprises [Management](#), [Board of Directors](#) and [Advisory Board](#)

AWARD-WINNING TEAM

A Proven Track-Record of Discovery and Value Creation

[AsiaBaseMetals](#) is anchored by a [Team](#) with a proven track record of discoveries, development, production, and value creation. [See Teams Accomplishments – World-Class Discoveries – Page 2](#)

The [Team](#) includes a member recognized with the **2009 Thayer Lindsley Award** and the **2015 Colin Spence Award**, both for International Discovery, for contributions to Alaska's giant [Donlin Gold](#) deposit and high-grade [Bornite Copper](#) deposit.

MARKET OUTLOOK

Why Copper - Why now

Demand is strong and rising.

- Population and middle-class growth, led by India and China
- Electrification and AI-driven power demand
- Replacing aging infrastructure in developed economies
- Trade and tariff pressures on the movement of metals

Supply is depleted and constrained.

- A long-running shortage of new discoveries
- Multi-year lead times and permitting hurdles to bring new mines online

Industry Leaders Publicly Point to [Structural Copper Shortfall](#) over Up-Coming Decade

UPTURN IN THE MINING SECTOR NOW GAINING MOMENTUM

Capitalizing On the Junior Exploration Market Upturn – Building Value

Through a decade-long mining sector downturn, the Company minimized expenditures and shareholder dilution. This ensured the Company’s position to benefit from the broader market upturn that began in 2025, which has extended into the junior exploration sector and is now gaining momentum.

Since May 2025, the [Team](#) has driven a focused acquisition strategy targeting VMS-Style assets (copper, gold, silver and zinc), having correctly anticipated the timing of the mining sector’s upturn.

POWER OF DISCOVERY FOR PROJECTS OF TOMORROW

The [Jervis Project](#) acquisition is a key growth milestone that positions [AsiaBaseMetals](#) to capitalize on strengthening metals markets. The [Team](#) looks forward to further acquisitions and to building another successful mining company, as previously done consistently with prior companies & projects – having the “Power of Discovery for the Projects of Tomorrow.”

THE TEAM IS INVESTED AND COMMITTED TO SUCCESS

An Award-Winning Team with A Track Record

[AsiaBaseMetals](#) is led by an experienced, technical and business-oriented [Team](#) — guided by Rajinder Chowdhry (“Raj”), CEO and Chairman. The [Team](#) brings proven experience across the full mining lifecycle: discovery, capital raising, permitting, mine development, mine operations and value creation. [Team](#) members are significant shareholders, aligning their interests directly with shareholders.

Jervis - Another Britannia? Team Will Correctly Explore VMS-System for the Answer

TEAM’S ACCOMPLISHMENTS — WORLD-CLASS DISCOVERIES				
Discovery	Type	Location	Company	Market Cap High
Smucker & Sun	VMS-style	Alaska, U.S.A.	Valhalla Metals Inc.	\$181 million (2026)
Black Butte	Copper	Montana, U.S.A.	Sandfire Resources America Inc.	\$320 million (2021)
Gahcho Kué	Diamonds	NWT, Canada	Mountain Province Diamonds Inc.	\$550 million (2011)
Kolwezii	Copper	Congo, DRC	America Mineral Fields Inc.	\$500 million (1997)

Raj Chowdhry, CEO and Chairman, stated “I am now focused on [AsiaBaseMetals](#), having completed my guidance of both companies co-founded alongside Rick Van Nieuwenhuysse: - [Sandfire Resources America Inc.](#) (formerly [Tintina Resources Inc.](#)) and [Valhalla Metals Inc.](#)”

Jervis Project: The Next World-Class Discovery?

Another Britannia? Award-Winning Team Will Find the Answer - Exceptional Opportunity

VMS-style Cu · Zn · Ag · Au	100% owned	1,000 ha two mineral claims	2 km anomaly identified anomaly
--------------------------------	---------------	--------------------------------	------------------------------------

Jervis Project (100% owned – VMS-Style) sits 55 km northwest of, and on trend with, the **Britannia Mine**, within the VMS-prospective **geological trend of the Gambier Group rocks**. The same trend hosts the Rox project, 20 km northwest of **Jervis Project**, held presently by project generator Kenorland Minerals Ltd. (TSX.V: KLD).

The project is about 80 km northwest of Vancouver , B.C., Canada, and 11 km north of Egmont on the Sunshine Coast, within the traditional territory of the **Shíshálh First Nation**.

Mineral Claims Consultation Framework (MCCF) Complete

One claim was granted on December 5, 2025, and the second on July 22, 2026, completing the MCCF framework for the whole Project.

Coherent 2 km mineralized anomaly identified.

In a broad NW–SE band on trend with Britannia

1993 Soil Sampling

Note: Schematic; positions approximate. Location and geological setting along the Gambier Group trend.

JERVIS PROJECT

Gambier Group Rocks Trend

BRITANNIA MINE

Jervis Project on Trend with Britannia Mine - Once One of The World’s Largest Copper Mines in the World

Britannia Mine - Largest Copper Mine in The British Commonwealth - 70-Year Mine-Life now a museum.

Project Name	Copper (Cu)	Zinc (Zn)	Silver (Ag)	Gold (Au)	
Jervis Sampling Highs	1.92%	24.9%	283 g/t	N/A	
Britannia Production Grade	1.1%	0.65%	6.8 g/t	0.6 g/t	

Mineralization on adjacent or nearby properties is not necessarily indicative of mineralization on the Jervis Project.(See **Cautionary Disclaimer on website**)

Prior work

Previous Owners - Open cuts and adits dating to the 1920s, roughly 1,371 m of drilling in the late 1960s and early 1970s, and rock and soil sampling with magnetic and VLF surveys in 1989 and 1993.

Future work

AsiaBaseMetals - The Company’s award-winning **Team** will advance **Jervis Project** using modern exploration technology designed specifically for VMS-style mineralization, as required.

PREVIOUS OWNERS – EXPLORATION PROGRAMS

DID NOT APPLY AS REQUIRED - MODERN VMS EXPLORATION MODEL

- Failed To Recognize and Test a VMS-System
- Prior Work Only Targeted Limited Surface Showings
- Failed to Test an Exceptional VMS-Style Opportunity

PRIOR WORK FAILED TO TARGET AND TEST VMS-SYSTEM

ASIABASEMETALS – EXPLORATION PROGRAMS

APPLY AS APPROPRIATE MODERN VMS EXPLORATION MODEL

- Planned Work - to Target VMS-System
- Phased Work Planned – Surveys and Drilling Q1-Q2 2027
- Test an Exceptional VMS-Style Opportunity

PLANNED WORK TO TARGET AND TEST VMS-STYLE SYSTEM

Gnome Project

Gnome Project is strategically located in the **Kechika Trough** of the regionally extensive **Selwyn Basin**, a district that hosts several significant deposits. It lies about 35 km southeast of the **Cirque deposit** (a 50/50 **Teck** / **Korea Zinc** joint venture) and near **ZincX Resources' Cardiac Creek** deposit.

The Company plans to advance **Gnome Project** exploration prudently, guided by the permitting timeline for mining permits on the adjacent **Cirque** and **Cardiac Creek** projects.

Note: ZincX completed a \$1,820,000 financing on September 10, 2026, and appointed Dr. Quinton Hennigh, San Cristobal CEO and a participant in the financing, as a director.

Note: Schematic; positions approximate. Mineralization on near properties is not necessarily indicative of mineralization on Gnome.

OUR HISTORY

AsiaBaseMetals Inc. was established in 2009 as a spin-out company ("**Spin-Co**" [NR-2009](#)) to become an independent publicly reporting company pursuant to the completion of a plan of arrangement ("**POA**") undertaken by Sandfire Resources America Inc. (TSX.V: SFR - prior to its name change from Tintina Resources Inc. effective February 2, 2018) under Raj Chowdhry's guidance while serving as founding CEO and Co-Chairman alongside Rick Van Nieuwenhuysse.

OUR FUTURE

The World Needs More Copper, and AsiaBaseMetals is Positioned for the Opportunity
Jervis Project Acquisition Is Only the Beginning – More Advanced Project Acquisitions in The Americas Will Follow Soon

We Have a Focused Growth Strategy – **Successful Pursuit of Copper** - One of the World's Most Critical Resources Today

"Most Critical Resource for the World of Tomorrow & the Upcoming New-Age Economy"

Robert Friedland *stated* **"We have to mine the same amount of copper in the next 18 years as we have mined in the last 10,000 years."**

Raj Chowdhry, CEO *stated* **"Copper supply is under immense pressure & demand is growing exponentially."**

The opportunity is here - it is time to re-build, the future of mining." The **Team** Agrees
