SOME OF THE COUNTRIES' INSTITUTIONS REPRESENTED BY CAREERS N' OPTIONS

Myth: Careers N' Options counsellor will solve all problems.

Fact: Our counsellor helps you think through your problems, provide insights, & help you to figure out how best to solve your problems for yourself.

Myth: Studying abroad costs too much money and I can't afford it.

Fact: Most people think it costs a small fortune to study abroad. Not so. The cost of International education depends on various countries, institutions, programs and professional categories. It is quite certain that quality education will require some amount of investment, which will later prove handsome returns. However, there are also institutions abroad that offer programs at a cost similar to that of the home country or even lesser. It is vital to research the monetary aspect with our experienced consultants so that you can get the best education at a reasonable cost.

Myth: I should choose a career which is the "BEST" & "In Demand".

Fact: Just because the outlook for an occupation is good, it doesn't mean that occupation is right for you.

Myth: Counsellor will decide for me what career to choose.

Fact: Counsellor can provide you with guidance in choosing a career & can help facilitate your decision.

Myth: If my friend, uncle or neighbour is happy in a particular field, I too will be!

Fact: Everyone is different & what works for one, may not work for another, even if you have a lot in common.

Myth: I will have to pay full fee

Fact: NO, some colleges / universities do allow fees payment in instalments or semester wise, keeping in mind the international student's welfare. Most Universities require the students to pay part of the tuition fees in advance in order to reserve a place for them in the university

Myth: Admission procedure is long and difficult

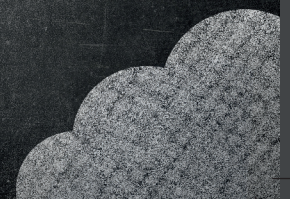

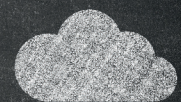

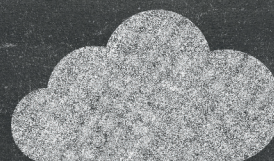

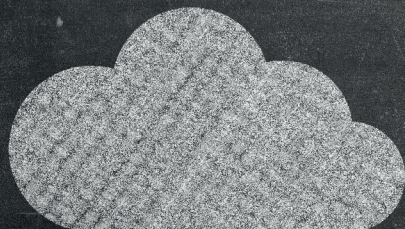

Fact: It differs for different colleges / universities. Approximate time period would be 1 to 6 weeks.

Myth: I cannot apply on my own

Fact: You can apply on your own however, the ever-changing immigration rules, regulations and procedures makes it rational to leave the important paper work of your life in expert hands. Any error due to ignorance of laws, may lead to a rejection of your visa. Each country has its own set of immigration rules, which may be revised from time to time. Universities & colleges in these countries will have their own set of processes as well. Moreover, applying through us saves a fair amount of your effort, time and money, as our entire student services has no charges. So why go through the hassle when we are here to help you for FREE.

- **Be a smart traveler** - Before you depart, check on government websites for the latest information on studying in the respective country.
- **Register** yourself at your own embassy upon arrival in foreign country.
- **Check your passport validity** - Make sure that your passport is valid for the entire time you are abroad. In case your passport is lost or stolen, you need to notify your university / college immediately and report to your embassy to replace it while in a foreign country.
- **Organize your money** - Organize a variety of ways to access your money overseas. Credit cards, travellers' cheques, cash cards and debit cards are used widely overseas. Money changers are also easily available. However, do check with your bank to make sure that your ATM card works overseas. Also check with your bank about the process or cost of transferring money between accounts in your country and destination country.
- **Make copies** - It is a good idea to make 2 or more copies of all important documents – passport, visas, tickets, credit card numbers, insurance policy, academic certificates, etc. before heading off. Leave one copy at home and take the others with you on your travel. However, it is advisable to keep the copies separate from the originals.
- **Insurance** - Take out comprehensive travel insurance to cover hospital treatment, medical evacuation, and any activities, like adventure sports, in which you plan to participate.
- **Medical Consultation** - Consult your doctor about recommended vaccinations and the necessary health precautions to take. It is also useful to obtain information about your medication (if any) as certain medicines are not allowed in some countries.
- **Know the Laws** - When you are abroad, local laws apply to you. These include penalties for drug related offences, including possession of even small amounts of any type of hallucinogenic drugs. Penalties are severe in some countries where drug offenders are subject to a mandatory death penalty.
- **Find out more about your HEI (HIGHER EDUCATION INSTITUTION)** - When you have received approval for admittance and will be enrolling into a HEI, do some research to keep yourself informed and know what to expect by finding out as much as you can about the HEI.
- **Useful numbers to know** - Prepare a list of useful numbers to know (with one or two numbers which are available after office hours) so that you will have a contact person upon arrival in destination country. The numbers may include a person at the HEI, your embassy in Abroad, or someone you actually know from your country.

HELPFUL TIPS

STUDENT TESTIMONIALS

“
Creating credibility through personalised attention.
”

Saurabh Gosavi, M.Sc Logistic

I've been to several counsellors within Mumbai, met several representatives. Careers N' Options is officially my favourite. They know what they are doing, have the friendliest approach and get you where you want to be. They strive to give you the best most continently and are extremely helpful.

Siddharth Wadhwa, Culinary Arts

They have been very helpful in finding the right college for me. Helping me to shape up my future. Thank you for giving my career a great kick start.

Emaan Hawa, Bachelor of Marketing & Management

Very good counseling, personalized attention. Excellent assistance by staff members for application and Visa took care of every single detail. I am feeling lucky to have such mentors and counsellors.

Rohan Pinto Lobo, Bachelors of Architecture

Excellent service, very friendly made my admission into university a personal goal and followed through effectively. A very good, comforting experience.

Satish Shetty, Broadcasting & Journalism

One of the most amazing thing happened to me is that I came in contact with these people. I am totally impressed by your work and services. Thank you for your guidance and outstanding service. Love you guys.

Haseeb Khan, Mechatronic Engineering

Your passion for what you do was evident in every call and email. I can say Careers N' Options assist students with human touch which is utterly important for any business or consultancy and one of the most important business acumen.

Thank you, Thank you, and Thank you! Better relationships, more students, more dreams come true.

Pooja Sharma, MBA

Amazing service with personalized attention. The team understands the requirement and caters to the need with adequate research. One stop shop for all the assistance required to build your career. Right from career counseling to departure assistance provided with at most zeal & care.
