About Me:

I am a men's groomer and an editorial beauty makeup artist that specializes in makeup for all skin types and tones. My work is soft-spoken, with subtle details that are capturing and effortless. I enjoy the simplicity of when makeup looks natural and almost skin like.

While these are the works I naturally gravitate towards, I am currently strengthening my makeup effects skills. For the longest time all I allowed myself to do were trauma/blood work. Now I am refining my skills in painting, prosthetics and squibs. My ultimate goal is to be well versed in both beauty and makeup effects.

Professional Experience:
