

# Empowering Tomorrow's Engineers & Manufactures by Bridging the Gap Between High School and the Workforce.

## Our Mission

At the SF Foundation, our mission is to help guide the transition between education and industry for students pursuing careers in manufacturing and engineering. Through structured mentorship, diverse industry connections, and personalized support, we empower students with skills, knowledge, and confidence they need to excel in these competitive fields.

## Supporting Innovative Models

- The foundation supports models that empower students through comprehensive curricula, hands-on learning experiences, and industry-aligned education.
- Through strategic guidance and collaboration, we work to support the development and ongoing advancement of state-of-the-art facilities and access to cutting-edge equipment, ensuring students experience environments that reflect the latest in professional manufacturing settings.
- Our support extends to expert faculty members who bring real-world expertise into the classroom, providing valuable insights and mentorship to students as they pursue their academic and career goals.

### Deep Industry Experience

With a track record of success spanning over two decades, our supported models have produced numerous success stories, with alumni going on to pursue successful careers in engineering and manufacturing.

### Advocacy and Innovation

We advocate for increased awareness and support for manufacturing and engineering education at the local, state, and national levels, driving innovation and growth in the industry.

### How You Can Help

- Fund the Future: Support scholarships, mentorship programs, and workshops.
- Provide Opportunities: Offer internships, apprenticeships, or sponsor industry events.
- Empower with Resources: Contribute equipment, software, or other resources for student training.
- Be a Mentor: Share your expertise and career insights.
- Expand the Network: Connect the foundation to professionals and organizations who share our vision.

## Guidance

- Students benefit from mentorship from practicing industry professionals with extensive real-world experience.
- Our mentors provide valuable career insights, helping students navigate the workforce, not just in their first job, but throughout their entire careers.
- We ensure a diverse network of mentors, fostering personal connections tailored to each student's unique background and aspirations

## School/Career Preparation

- Workshops
  - Resume Building
  - Interview Skills, Job Search Strategies
  - College Applications
- Scholarship Opportunities

## Industry Connections

- Students gain access to an expansive network of manufacturing and engineering professionals.
- Through alumni and industry connections, we open doors to internships, apprenticeships, and job opportunities.
