Parents have a very tough challenge as they go through their divorce proceedings

At **Successful Co-Parenting**, we understand the complexity and the painful reality of many parents and their children as divorce unfolds. It can easily become overwhelming. Sadly, it is even worse for our children.

Unless we acquire basic parenting and co-parenting skills that minimize the negative consequences of our divorce/separation to our children, we will unknowingly affect our children's development and well-being.

Parents that learn some essentials about **Collaborative Parenting** will better face the challenge that lies ahead: rebuilding their lives and advancing their children's resilience.

For more information please go to our website:
