I THANK YOU AGAIN FOR CHOOSING US TO HELP YOU AND YOUR STUDENTS ACHIEVE ACADEMIC AND MENTAL CLARITY.

EDUCATION + MENTAL HEALTH = CLARITY

Greetings!

Thank you for choosing us to help your child achieve mental and academic clarity.

Psychological Based Tutoring, a unique framework for tutoring created by our founder, Dr. Maya Cobb, combines academic support with emotional and behavioral regulation. A licensed therapist is present in every session to help address coping skills, frustration tolerance, and academic meltdowns as they arise. In addition, we passionately believe that every child learns differently, as a result we cater each lesson to each individual child's learning preference and cognitive ability.

Intake Assessments

The intake assessment will be conducted by our Clinical Assessment and Academic Specialist or our Behavioral Learning Specialist. During the intake we ask that a parent-figure be present along with the student to provide insight on the child's academic, behavioral, and emotional history as well as current functioning. Following the intake assessment, our admin staff will match the student with their best-fit therapist and tutor based on areas of concentration, personality, and skillset. The intake assessment will take no longer than 60 minutes.

Intake assessments can be scheduled on our website. For families with two or more students, an hour intake is needed for each. Call our administrative team for scheduling (313-970-8254).

Progress Assessment

In the event you would like the Clinical Assessment and Academic Specialist to evaluate your student's academic progress, a progress assessment session can be scheduled. Progress Assessments take place at the tutoring center for all in-person students and must be scheduled at least two weeks in advance. Please reach out via telephone (313-970-8254) or email (completeclarity19@gmail.com) for scheduling. The cost is \$50 and sessions take approximately one hour.

Please be advised, your tutor is following goals outlined by the Clinical Assessment & Learning Specialist based on the Intake Assessment. They are available by appointment to communicate via telephone or email (free of charge) about concerns you may have about your student's progress.

Please allow two weeks (for sessions twice a week) or three weeks (for sessions once a week) before expecting to see any sign of progress. Remember, your therapist and tutor are strangers to your student, they need time to build their relationship. Lastly, it will take a few sessions for your assigned tutor to grasp your students' learning style. Your patience is appreciated.

ADDITIONAL DETAILS

Tutor Reassignment: While we prioritize building rapport between student and tutor, unfortunately there are circumstances in which tutors part ways with the company, have a change in availability, or pause sessions for a prolonged period of time. In the event that your tutor is no longer available to hold sessions with your student, they will be matched with another tutor in no longer than two weeks. Communication regarding will be granted to the parent/guardian.

Location of Sessions: All Psych-Based tutoring sessions will be held **in center** at 21700 Northwestern Hwy, Suite 680, Southfield MI 48075.

Homework: There is great value in students completing work independently and having extra practice. Depending on the frequency of sessions and need for additional practice, homework will be given to students. During the school year, homework is not as frequent or in-depth. To see the best academic results from your child, we encourage parents/guardians to have them complete the homework assignments. Please be advised: It is imperative that your tutor can see your child's independent academic performance. If homework is not completed, your assigned tutor will instruct your student to complete the homework during the tutoring session while taking a completely hands-off approach. We cannot move forward without the certainty that your student has grasped the current concepts and can demonstrate their understanding independently.

Supplies: We do not provide textbooks; however, basic workbooks and worksheets can be provided. There are a multitude of learning materials and resources for students to utilize in our tutoring center. Tutors often have multiple children working out of the same workbook, if the parent/guardian prefers that their child use specific materials they can be purchased at an additional cost. Calming fidgets are available to the child if needed.

ADDITIONAL DETAILS CONT'D

Cancellation Policy

We understand that things come up, life happens. However, sessions must be canceled 24 hours before they are scheduled. This allows our tutors time to schedule another student in that time slot or make other accommodations. Same day cancellations will result in a fee in the amount of the session canceled. In the case of an emergency, no late fee will be applied. The amount of emergency cancellations that are excused without fee is up to the discretion of Complete Clarity. Multiple emergencies within a short period of time will result in a \$10 cancellation fee.

Late Policy

There is a 15-minute grace period before the therapist and tutor marks the session as a no show. In the event of a no show, the parent/guardian will be charged the full price for the tutoring session which is due at the agreed upon time of payment. In certain instances, if requested a tutor will wait longer, however, a \$5 fee will be charged. In the event a tutor is late, after 10 minutes the parent/guardian can cancel with no fee applied.
