

Periodontics & General Dental Care

 The image shows the retail packaging for Ci Endcleaner toothbrushes. The packaging is a blue blister pack with a white header. The brand name 'Ci' is in the top left, and 'Endcleaner' is written in the center. Below the name, there is a stylized 'end' logo. Two toothbrushes are visible: one is blue and the other is white. The packaging also contains some Japanese text and a small circular logo at the bottom left.	<p>Ci Endcleaner</p> <ul style="list-style-type: none">● Ideal for distal-end cleaning● Maxillary and mandibular teeth● Brush adapts to the contour of the tooth
 The image shows two ProHealth Disposable Mirrors. They have a long, thin, cream-colored handle and a circular mirror head. The mirrors are positioned diagonally, with one in front of the other, against a plain white background.	<p>ProHealth Disposable Mirror Helps in viewing intraorally.</p>
 The image shows a TePe GOOD Tongue Cleaner. It is a green, Y-shaped device with a long handle and three curved blades at the top. The blades are designed to clean the tongue. The handle has a small circular logo near the base.	<p>TePe GOOD Tongue Cleaner</p> <p>The TePe GOOD™ Tongue Cleaner is part of the unique TePe GOOD™ range made from bio-based plastic – without compromising on product quality, efficiency or design.</p> <p>TePe GOOD™ Tongue Cleaner is designed to remove bacteria on the tongue to improve oral health and prevent bad breath. The design corresponds to the natural shape of the tongue, which reduces the gag reflex and makes it easier to reach far back in the mouth. The three, slightly raised cleaning blades give a triple-effect, meaning that bacteria is removed in one stroke. The tongue cleaner is dishwasher safe.</p>

TePe Extra Grip

TePe Extra Grip is developed to help those with reduced manual strength and dexterity make the most of their toothbrushing.

TePe Extra Grip provides a comfortable, stable grip yet weighs only 30 grams. It fits TePe Select™ and TePe GOOD™ toothbrushes and TePe special brushes. The grip can be cleaned in the dishwasher. The brush can be inserted from both ends, providing different shaft lengths. Remove the brush by tapping the end of the handle against e.g. a table.

- Toothbrush not included

TePe Dental Tape

Wide for efficient plaque removal

TePe Dental Tape is developed in close cooperation with dental expertise. The result is a strong and waxed dental tape that glides easily between the teeth without shredding. The tape has a fresh mint flavour.

It fits nicely in your pocket or handbag thanks to its convenient size

- 40m

TePe Bridge & Implant Floss

A spongy filament floss specially designed for easy and efficient cleaning of implants, bridges and orthodontic appliances. The floss is equipped with stiff plastic ends for easy insertion.

TePe PlaQSearch

PlaQSearch is a two-tone disclosing product to visualise plaque, colouring new plaque red and old plaque blue. PlaQSearch is used at the dental practice for patient instruction and as an educational tool. It is also convenient to use at home for self-assessed control.

TePe Toothbrush Cap

The practical cap suits most **TePe toothbrushes** and special brushes.

TePe Gingival Gel - Chlorhexidine (0.2%)

TePe Gingival Gel provides extra caries protection through the combination of chlorhexidine (0.2%) and fluoride (0.32% NaF). The gel is easy to apply and the fluoride prevents caries and protects sensitive root surfaces.

TePe Gingival Gel contains no abrasives, no alcohol and no colourants. The mint flavour and smooth formula enable pleasant and easy use with an interdental brush.

TePe EasyPick

Interdental cleaning made easy, suitable for many user groups. It is durable with a steady grip.

The silicone coating efficiently removes plaque and feels comfortable on the gums.

Recommended for daily use, alone or as a complement to other interdental cleaning products. Safe for use around orthodontic appliances, implants and bridges.

- 36pc, EasyPick travel case included

TePe Interdental Brush Travel Case

TePe Interdental Brush Travel Case is a compact design - fits in a pocket or handbag.

- Holds 6 TePe **original** Interdental brushes
- Interdental brushes not included

TePe Angle Interdental Brush 6pc/pk MIXED

What is an Interdental Brush?

An interdental brush is a small brush specially designed for cleaning between your teeth, where a regular toothbrush doesn't reach.

Using an interdental brush every day, as a complement to toothbrushing, is an easy and efficient method to keep your gums and teeth fresh and healthy. Cleaning with an interdental brush prevents gum inflammation, cavities and bad breath.

TePe's interdental brushes are available in several colour-coded sizes and models:

- Angled brush head, long handle, six sizes.
- Soft texture
- Pink to Green
- Wire dimension 0.4 mm to 0.8 mm
- Blister packaging

	<p><u>Plastic coated wire</u> All sizes and models of TePe's interdental brushes have plastic coating on the wire for safe and gentle cleaning. The interdental brushes can also be used for cleaning around implants or braces.</p> <p><u>Optimal access</u> TePe Angle has a pre-angled neck for extra good access between the back teeth and from the inside.</p> <p><u>User-friendly handle</u> All models have a flat, ergonomic handle for a steady and controlled grip. The handle is made from recyclable polypropylene.</p>

TePe Select

The Select toothbrush is a good-value, user-friendly toothbrush by TePe.

The Select toothbrush is available in three sizes and different filament textures.

The tapered brush head improves access and the end-rounded filaments ensure a gentle cleaning. The neck of TePe Select can be angled after heating in hot water.

TePe Select™

TePe Select™ Compact

TePe Mini™

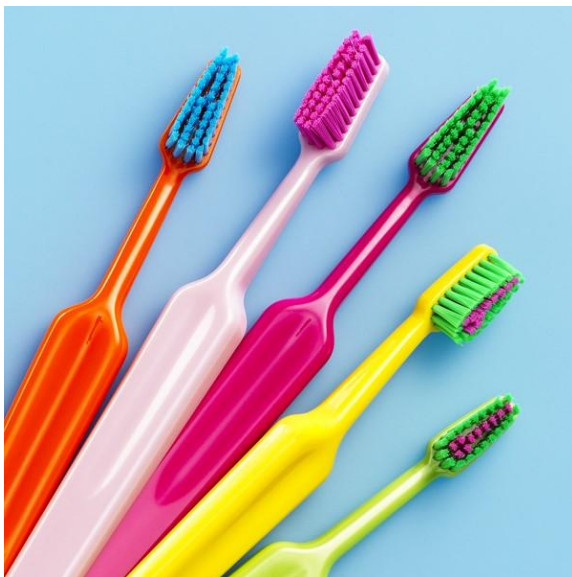

TePe Select Compact

The Select toothbrush is a good-value, user-friendly toothbrush by TePe.

The Select toothbrush is available in three sizes and different filament textures. The tapered brush head improves access and the end-rounded filaments ensure a gentle cleaning. The neck of TePe Select can be angled after heating in hot water.

TePe Select™ Compact is suitable for both children and adults who prefer a smaller brush head.

TePe Colour Compact

TePe Colour™ Compact toothbrush is a good-value, user-friendly toothbrush by TePe.

The tapered brush head improves access and the end rounded filaments ensure a gentle cleaning. The neck of TePe Colour™ Compact can be angled after heating in hot water.

TePe Colour™ Compact is suitable for both children and adults who prefer a smaller brush head. Our Compact brush is available in different colour combinations.

TePe Supreme Brush

The TePe Supreme™ toothbrush has a two-level filament design. The longer filaments clean further in between the teeth and along the gum line, while the shorter gently clean the rest of the tooth surfaces.

The Supreme toothbrush has a tapered brush head and a non-slip handle with thumb pad. The toothbrush neck can be angled without heating.

TePe Supreme Compact

The TePe Supreme™ Compact toothbrush has an innovative two-level filament design. The longer filaments clean further in between the teeth and along the gum line, while the shorter gently clean the rest of the tooth surfaces.

The Supreme Compact toothbrush is suitable for children or adults who prefer a smaller brush head. The toothbrush neck can be angled without heating.

TePe Kids

TePe Kids X-soft is a toothbrush for children from the age of 3 years. The toothbrush has a colourful print and a smaller, user-friendly handle.

The tapered brush head improves access and the end-rounded filaments ensure a gentle cleaning. TePe Kids is also available with soft filaments.

Also comes in 4pc/pk.

TePe Mini

The TePe Mini™ extra soft toothbrush is developed for use from the first tooth to the age of 3 years.

The tapered mini brush head has extra soft filaments for a gentle cleaning. The handle provides a stable grip for the adult brushing the child's teeth but fits just as well in the small hand.

TePe Interspace Brush + 12 Refills

TePe Interspace™ is a single tuft brush for cleaning areas such as the back of the last tooth, furcations, implants or around fixed braces.

The removable brush tip can be attached to either side of the neck to change the angle of the brush head, which gives optimal access to hard-to-reach areas. Two colour-coded softness choices; yellow: soft, blue: medium.

- 12 detachable refills
- Blister packaging

TePe Compact Tuft

TePe Compact Tuft™ is an angled brush with a small, dome-shaped tuft with tightly packed short filaments that give a firm feel.

The stable handle and dense, firm tuft make this brush ideal for precision cleaning of hard-to-reach areas.

The brush is suitable for cleaning implants, attachments for overdentures, fixed braces or along the gum line. It is also ideal for brushing children's erupting molars.

TePe Implant/Orthodontic Brush

TePe Implant Orthodontic Brush™ is a special toothbrush designed to clean along implants and fixed braces.

TePe Implant Orthodontic Brush™ has soft filaments in two rows, an extra narrow brush head and a long, thin neck, which facilitate access and cleaning close along implants and orthodontic wires. The neck of TePe Implant Orthodontic Brush™ can be angled in hot water for better access.

TePe Gentle Care

TePe Gentle Care™ is a super soft toothbrush recommended after oral surgery and for patients with sore or very delicate oral tissue, very sensitive root surfaces, extremely dry mouth, and after radiotherapy.
