

# PRO-TURN

## EV 60

### ALL-DAY ELECTRIC POWER. TRUE COMMERCIAL PERFORMANCE.

Introducing the Pro-Turn® EV — The first all-day electric commercial zero-turn. They run quieter while delivering the power and performance you expect from Gravelly. Powered by FusionCore - the industry's first swappable lithium-ion battery system. FusionCore QuikSwap batteries are designed with flexibility in mind, ensuring you and your crew have the ability to continue cutting all day and beyond. Once again, Gravelly is driving innovation and taking full charge of the new electric frontier.

**5YR**  
FIVE YEAR OR 1500 HOUR  
WARRANTY  
NO HOUR LIMIT FOR THE FIRST TWO YEARS

**X3 CONSTANT DRIVE SPINDLES** Our proprietary spindles are designed to prevent motor damage by absorbing blade impact, protecting the machine from those unavoidable, accidental run-ins with ordinary obstacles. Spindles are easily serviceable, allowing you to rebuild and not replace.

**COMMERCIAL GRADE CHASSIS** We've ripped a page from the book of automotive manufacturing and incorporated a tubular frame into the Pro-Turn EV. Its hearty structural integrity ensures you'll get the reliability and support you need.

**NEXT-GEN WHEEL DRIVES** Commercial durability and comfort reign supreme. Transaxles are driven with a brushless electric drive motor coupled with a planetary gearbox that increases torque. Your ride will feel the same as a gas-powered machine...minus the vibration, noise, and exhaust.

**FAILSAFE BRAKING** The failsafe braking design automatically applies the brake system when the operator is not present, or should a fault occur in the system. It's stopping power when you need it and even when you think you don't.

**GRAVELLY®**
