PISTOLERO MOVING TARGET KIT

The Pistolero PistoLaser Practice & Training System from the Robert Louis Company provides pistol shooters the ability to practice their fundamental skills in a budget-friendly way by practicing with their own gun in their own home. The new Moving Target Kit allows users to incorporate a projected, speed-adjustable target for simulated real-world defense into that training as well. The system builds the muscle memory necessary for fast target acquisition through an easy-to-install laser-aiming device that attaches to a handgun's muzzle and trigger. The Pistolero comes with five, color-coded caliber inserts: .22, .357/9mm, .40, .44 and .45. (pistolaser.com)

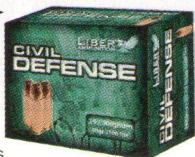

DEAD RINGER SIGHTS

Dead Ringer's Snake Eyes sights offer an easy-to-acquire point-and-shoot sighting platform for all lighting conditions. The Snake Eyes system was built with close-quarters defense in mind. The front and rear tritium glows continuously in low-light situations. The orange Lexan ring also enhances target acquisition in daylight environments. Dead Ringer sights are constructed of CNC-machined steel for durability and reliability. Snake Eye's are available for Glock, S&W, M&P Shield, Heckler & Koch, Sig Sauer, Springfield Armory and Ruger handguns, among many others. (deadringerhunting.com)

LIBERTY CIVIL DEFENSE .357 MAGNUM

Liberty Ammunition's new Civil Defense .357 Magnum load gives shooters a lead-free self-defense option with muzzle velocities nearly double that of standard .357 Magnum ammo. This makes it an excellent round for self-defense, target shooting or for hunting mid-sized game. Liberty's high-performance ammo features nickel-plated, solid copper projectiles and nickel-plated brass cases, which help deliver less recoil and considerably reduce the weight of loaded weapons. TARGET SHOOTING SOLUTIONS BULLET TRAPS

Easily and safely catch rounds with Target Shooting Solutions' (TSS) portable Bullet Traps. Perfect for indoor or outdoor use, TSS bullet traps are capable of stopping rounds from handguns and rifles up to .50 BMG at point-blank range. The company's patent-pending technology is approved by certified NRA instructors and can be customized to a user's unique requirements. Available in a variety of sizes, each TSS Bullet Trap is easy to set up and features rubber baffles to reduce gun discharge sounds. (targetshootingsolutions.com)

CROSSFIRE HOLSTER RIGS

Female shooters can find the perfect balance of utility, comfort and style with Crossfire Elite's Edge, Pulse and Rebel holster designs. These versatile, rugged, low profile rigs offer secure and attractive concealment and ready access for your everyday carry firearm. Available in colors such as turquoise, "silverdust" pink and iris, Crossfire also offers these ultra-tough holsters with intricate print patterns, like those on the Tango, Spark and Blush models. WILSON COMBAT PINNACLE 1911

Based on the Classic Supergrade Model, the Wilson Combat Pinnacle is a hand-fitted .45 ACP 1911 pistol with striking custom-grade features. Featuring a blued steel trigger, a spiral fluted guide rod and custom burl walnut grips, the Pinnacle 1911 is a masterful piece of pistolsmithing. The 36.6-ounce, 5-inch-barrelled pistol is finished off with hand engraving by renowned firearm engraver Wayne D'Angelo, giving the Pinnacle an unmistakable, "heirloom quality" appearance while maintaining Wilson Combat's tank-tough standards for 1911 construction.
