

SHOTGUN COMBO GAUGE

Now the average recreational shotgunner can measure his or her firearms the way custom gunsmiths do. Robert Louis Company of Newtown, Connecticut has come up with the Shotgun Combo Gauge, an accurate, easy-to-use tool that's affordable, so anyone with an interest in smoothbores can measure length of pull, drop at comb and heel, and angle of pitch. In case you have any doubt as to the Combo Gauge's precision measuring qualities, it's used by Connecticut Shotguns, Griffin & Howe, Holland & Holland, Beretta, Browning, Ruger and Orvis. The Combo Gauge is built of sturdy lightweight aircraft aluminum and comes with optional extensions for long-barreled guns. You'll find the handy tool for sale at Brownell's and Cabela's, among others. Call 800-979-9156 or visit www.shotguncombogauge.com.
