

Scenario One - Day One (Largely Historic) and One A (Austrian Variable)

Austrian Hauptarmee Grand Tactical Staff - *Planning Table*

May 21, 1809

Start 12:00 - End 22:00

Historic Starting

Schenario One

Summary

The Austrian Staff planned the march route each column took to attack various locations on the battlefield
For Scenario One use the historical entry times and locations as shown in green, on this *Planning Table* .
The units shown here start in these positions for the largely historical scenario

Formation Description	Start	Notes
Hiller and Staff	12:00	Hirschstettin
Div. Nordmann	12:00	Hirschstettin - within 3 hexes
Div. Kottulinsky	12:00	Kagran - within 3 hexes
Schwarzenberg 2. Uhlans & Stip. 10.Hussars	12:00	Gross Enzersdorf - within 7 hexes
Rosen. 6. Chev. & 3. Ferdinand Hussars	12:00	Entry D - within 15 hexes
Blank. 6, Prim. & Neutraer Hussars	12:00	Entry C - within 15 hexes

Austrian Variable Starting

One A

Variable Entry

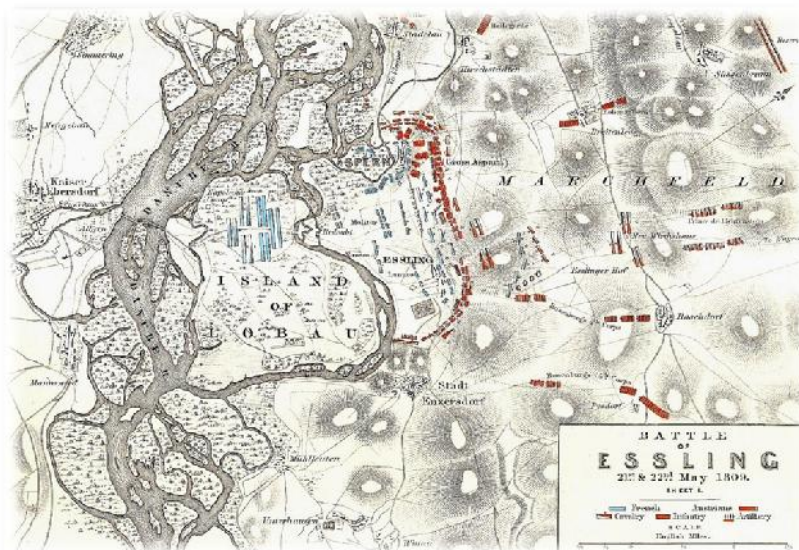

Using the entry time not in green allows you to enter the battlefield at different times and locations

This is calculated from the Korps original starting dates

Plan carefully. Putting too many troops at one entry will just add to delays.

Formation Description	Notes
Blank., Prim. & Neut. Hussars	12:00 Any Entry - within 15 hexes

The turn before a column enters the board, the light cavalry from that column, enters.

Planning Table

For Scenarion One A change the entry point and cross reference the Arrival Time

Entry Points	Grand Tactical Kolonne (Korps)						
	1 (VI)	2 (I)	3 (II)	4 (IV)	5 (IV)	RC	Gr.
A	12:00	14:00	17:00	19:00	NE	15:00	NE
B	12:40	13:20	16:20	18:40	NE	14:40	NE
C	13:40	14:20	15:20	18:00	19:40	14:00	NE
D	14:40	15:20	16:00	17:40	18:40	13:20	NE
E	15:40	16:00	16:40	17:00	18:00	14:00	NE
F	NE	17:40	18:00	18:20	17:20	14:40	NE

Key

NE	Nicht Erlabt
	Historic Entry Times (One)
19:20	Planned Arrival time (One A)
RC	Reserve Cavalry (minus Hussars)
Gr.	Grenadiers - d'Aspre and Lindenau
4.	Kolonne - Divs. Klenau and Dedovich
5.	Kolonne -Divs. Rohan and Riese

Entrance Definitions

A= Western Edge within 12 of Kagran
 B= Kagran
 C= Breitenlee
 D= North Edge by the '1809'
 E=Raasdorf
 F=East edge straight line to Gros Enzersdorf

Austrian Chain of Command - one die for each Column and apply the results to modify the historic entry times or what entry times you have chosen for variants (1A)
 Roll the turn before the formation (group) is scheduled to enter.

1	Arrive this turn
2,3	Arrive next turn
4,5	Arrive 50% next turn, 50% in two turns
6	Orders lost - roll again next turn

If Erzherzog Karl is with a column, subtract one from the die roll
 Once Karl enters, he stays on the map

If as a result of the planning and variable roll, two columns are arriving within the same hour at the same entry point, roll again for the later arrival adding 1 to the die roll.
