

combustion | heater, boiler, thermal oxidizer

Tulsa Heaters – API 560, direct fired heaters, waste heat recovery

Tulsa Heaters Midstream – hot oil systems, water bath, thermal oxidizers

Nationwide Boiler – packaged boilers, rental steam systems

cooling | cooling tower, air exchanger, WSAC

Cooling Tower Depot – new, repair, reconstruction

Tek-Fins - API-661 air cooled exchangers

Niagara Wet Surface Air Cooler – closed-loop cooling and condensing systems

exchangers | shell-tube, plate-frame, double pipe

Alfa Laval – industrial gasketed plate-frame, welded, spiral exchangers

Hughes Anderson – shell-tube exchangers, API 660, API 934-A/C/E, API 938-C

R.W. Holland – hairpin, double-pipe, tank heaters

fabrication | control panel, vessel, tower, specialty piping item

Pick Steam Injection – steam injection, desuperheaters, condensate mixers

Mack Iron Works – geometric strainers, blinds, and housings

Delta T Thermal Solutions – complete turnkey controls, panels, and fabricated systems

field service | heater revamp, burndown, rental boiler/exchanger

Fired Heater Repair/Upgrade – emergency or planned, engineering studies

Cooling Tower Repair – emergency or planned, spare parts and installation

Plate & Frame Repair – on-site or off-site cleaning and reconditioning
