

Case number: **76396**

## **Witness statement**

“I wasn’t anywhere near The Anchor that night. Or Silver Street Bridge. I was at home, I live on Selwyn Gardens. I had been studying and I invited some friends back to mine. They all got there at around 11:35pm. Damian Cotton, Regina Beck, and Sandy Watson all came to mine after the pub.

Damian mentioned he’d been with Scott and Scott had been hitting it hard, even for him. But I didn’t see Scott myself on the night of the 10th. I only heard about what happened after my friends started getting calls in my house.

When anything like this happens you think back about moments where you could have done better, reached out and helped, done something before it was too late. Suddenly a lot of times I had seen Scott seem distant or upset made horrible sense.”

*NB: Asked to account for her whereabouts on the night in question, Ms Doors provided access to a Facebook post uploaded that night, confirming her story. This post is archived in the police database.*
