

# Introducing Our New ONLINE Courses for Primary School Staff

If there's one thing that the outbreak of Covid-19 has taught us, it's that we need to be more adaptable and flexible than we have been. We've also discovered that time and money are also key factors in making decisions.

We recognise that actually meeting colleagues from other situations and circumstances can be beneficial and allow you time to reflect away from the chaos of school, but we also recognise that for the foreseeable future there is a need to prioritise a whole host of new issues.

And so, we like many others have reviewed our practice and have decided to offer a number of our courses for online delivery. The advantages of delivering training like this are :

- reduced time commitment (no travel time, no need for long breaks)
- lower costs ( no travel costs, less time so less cover needed)
- lower course fees (no need to pay venues or include trainer travel costs)

We are offering three of our courses for online attendance. These are :

Course Title	Dates	Times	Course Fee	Notes
Improving Long Term Memory in Primary Pupils	Wed 23rd Sept 2020	9.30am to 12pm	£95*	Includes PDF Handouts & Handbook
Deep Dives In Reading	Fri 2nd Oct 2020	9.30am to 12pm	£95*	Includes PDF Handouts
Sex and Relationships Education in Primary Schools	Thurs 8th October	1.30pm to 4pm	£95*	Includes PDF Handouts & Handbook

(\*) VAT will be added to fees at current rate - fees are 65% lower than traditional courses.

## What You Need To Know ...

The courses will be delivered via an online 'classroom'. You can 'attend' the course via a laptop, desktop, tablet or smartphone, however we recommend not using a phone as some aspects will be limited. All the relevant handouts and materials will be issued electronically during the session via the software. Additionally, the session will be recorded so that schools can (where appropriate) use the session in their own setting. Details for the session will be sent out to those registered to attend approximately 48 hours before.
