**THE LEADER IN
POOL LADDERS & STEPS**

A-FRAME LADDERS

Model 7200

Rollguard A-Frame Safety Ladder

Standard features of the Rollguard Ladder:

- Aesthetically pleasing contemporary design in beautiful warm gray color to complement today's brown or gray tone pools
- Large 5 inch x 18 inch wide Comfortreads
- Curved side rails designed with strength in mind
- Inner side rails include integrated side barriers to prevent entry behind the ladder
- Easy assembly with minimal hardware
- Adjusts to fit pools 48" to 54" tall
- Lockable Rollguard Barrier (lock included)
- Extra-large top platform
- Just fill side rails with water to prevent floating, no sand or bricks needed
- Fits pool top seats up to 14 inches wide
- Weight limit: 300 lbs.
- Five year warranty

Convertible to Inpool Ladder using #CK7200 Kit - sold separately.

Optional G7200 Rollguard Gate

- Attaches easily to our Rollguard Ladder to provide added security
- Self-closing and self-latching
- Meets current ISPSC 305.3 requirements
- Latch located well out of reach of small children
- Contoured design "hugs" ladder steps and restricts access
- Padlock included

Model 7100X

Evolution A-Frame Safety Ladder

- Warm gray color to complement today's brown or gray tone pools
- Economical yet full-featured A-Frame Ladder
- Adjustable to fit 48" to 54" high pools
- Each side adjusts independently
- Snap-lock treads for quicker, easier assembly
- Five treads on each side
- Swing-up outer treads for safety
- Outer treads can be padlocked (padlock included)
- Full 16" inside tread width
- Strong sturdy design
- Large top platform
- Minimal hardware
- No sand or bricks required; fills with water
- Meets current ISPSC 702.2.1 barrier requirements
- Five year warranty
- Weight limit: 300 lbs.

Convertible to Inpool Ladder using #CK7100X Kit - sold separately.

Model 7000X

POOL STEPS

Model PES-DBL-X

Pool Entry System

An excellent system for safety and convenience.

- Meets current ISPS 305.3 requirements
- Adjusts to fit **48" to 54"** pools and decks
- Adjusts to fit most uneven or dished-bottom pools
- Top step covers the pool top seat in most installations
- Easy assembly; no metal parts
- Does not attach to pool
- Excellent for elderly, slightly handicapped, or heavy swimmers
- Non-slip step surfaces
- Large, flat steps each with 270 square inches of surface
- Includes deck connector
- Fills with water to prevent floating; no sand needed
- Weight limit: **400 lbs.**
- Five year warranty
- Includes Gate with Automatic Gate Closer

Pool Entry System Specifications:

Projection into pool	36"
Width	31"
Step dimension	10" x 27"

Gate is self closing self latching
(all specifications are approximate)

Available in following configurations:

- Model #PES-1X - Individual Entry System for use off of a deck
Model #PES-DBLX - Two Entry Systems with gate for use on pools without a deck
Model #PES-G-X - Gate only

Step-1X

Confer Step

Designed for easy pool entry

- Inpool Step for **48" to 58"** pools and decks
- Easy, snap-together assembly
- Large, flat steps each with 270 square inches of surface area
- Compact packaging – can be shipped by UPS-FEDEX
- Includes mounting brackets to fasten to deck
- Weight limit: **400 lbs.**
- Five year warranty
- Requires 40 pounds of sand for installation

Note: The Confer-Step is designed for use in flat-bottom pools only. Our Pool Entry System can be adjusted to fit most dished-bottom pools.

"Safe and Secure" System

Model S.I.G.X

- Meets current ISPS 305.3 requirements
- Self-closing, self-latching gate restricts access to pool
- Gate includes self-closing mechanism (see inset photo) for a sure close everytime
- Gate includes padlock for complete security
- Inpool ladder takes up minimal space inside pool
- Steps and ladder can be separated and used individually if a deck is built
- Inpool ladder features anti-entrapment barrier

Now with Automatic Gate Closer!

ENCLOSURE SYSTEM

Model S.E.S.-X

Confer-Step Enclosure System

The Enclosure System provides security first, by enclosing the steps with pickets, and secondly, with its self-closing, self-latching gate. Meets current ISPSC 305.3 requirements.

Using the Step-Enc-X Kit allows two #Step-1X units to be joined together, enclosed, and gated to restrict access by small children. Kit consists of connecting step, connecting rails, enclosure pickets and rails, and a self-closing, self-latching gate.

Includes automatic gate closer

Note: For best results place outside step units on level patio blocks.

- Weight limit: 400 lbs.

To make the complete System you will need:

- (2) #Step-1X units (2 cartons)
- (1) #Step-ENC-X Kit w/gate (2 cartons)
- (total of 4 cartons)

Skim-It

- Increases skimmer efficiency
- Attaches easily to most skimmers without tools
- Low cost, easy to use
- Blade is easily removable when swimming

Important: Consult your local building department for installation of your pool and equipment. For safety, all of our products should be used with competent supervision.
