

DECIDUOUS FLOWERING SHRUBS

What would your garden be like without flowers? Flowering shrubs beautify and add color to the yard. Shrubs help form the basic framework of your gardens, around which you can design flower gardens. Annual flowers come and go with the seasons, but flowering shrubs are permanent fixtures in the flower gardens. After their blooming season (which may vary from spring to summer to fall) flowering shrubs, and their leaves, continue to give the garden fullness, beauty, and character for the rest of the year.

MENTOR BARBERRY - *Berberis mentorensis* - Medium growing rounded shrub. Grows to a height of 5 to 7 feet and a spread of 5 to 7 feet. Sun or partial shade. Blooms yellow flowers in the spring, and dull, dark berries in late summer. Drought resistant. Its' small thorns make an excellent barrier. Does well as a hedge plant.

RED JAPANESE BARBERRY - *Berberis thunbergii 'Atropurpurea'* - Medium growing rounded shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Has good fall colors; its' yellow spring flowers turn reddish-orange in the fall. Rugged plant. Requires sun for red leaves. Its' small thorns make an excellent barrier. Does well as a hedge plant.

YELLOW LEAF JAPANESE BARBERRY - *Berberis thunbergii 'Aurea'* - Slow growing vase-like shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or partial shade. Blooms small orangish flowers in early spring and small bright red berries in fall, and has bright yellow leaves. A little shade is advised in hot areas. Great for small hedges. No thorns make trimming very easy.

CRIMSON PYGMY BARBERRY - *Berberis thunbergii 'Crimson Pygmy'* - Slow growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Has good fall colors and deep yellow flowers in the spring. Attractive small hedge that does well as a hedge plant. Has small thorns and grows the brightest colored leaves in full sun.

ROSY GLOW BARBERRY - *Berberis thunbergii 'Rosy Glow'* - Medium growing vase-like shrub. Grows to a height of 3 to 4 feet and a spread of 2 to 3 feet. Has good fall colors; its' red-orange spring flowers turn to bright red berries in the fall with striking red, white and pink new leaves. Colors fade to red with age. Best colored leaves in full sun. Does well as a hedge plant.

WARTY BARBERRY - *Berberis verruculosa* - Slow growing rounded evergreen shrub. Grows to a height of 3 to 4 feet and a spread of 2 to 3 feet. Likes sun or shade, and acid soil. Has good fall colors; its' purple spring flowers and green leaves turn to black berries and red leaves in the fall. Leaves are very attractive. Good for use as a foundational shrub, and as an informal hedge.

BLACK KNIGHT BUTTERFLY BUSH - *Buddleia davidii 'Black Knight'* - Rapid growing vase-like shrub. Grows to a height of 6 to 10 feet and a spread of 6 to 10 feet. Likes sun. Blooms fragrant deep pink flowers in the summer. Attracts butterflies. Prune heavily in early spring to 1' to 2' tall to help maintain as a dense shrub.

CHARMING BUTTERFLY BUSH - *Buddleia davidii* 'Charming' - Rapid growing vase-like shrub. Grows to a height of 6 to 10 feet and a spread of 6 to 10 feet. Likes sun. Blooms fragrant deep pink flowers in the summer and has 6-12" flower spikes. Attracts butterflies. Requires good drainage. Prune heavily in spring to keep shrub dense.

DEBONNET BUTTERFLY BUSH - *Buddleia davidii* 'Dubonnet' - Rapid growing vase-like shrub. Grows to a height of 6 to 10 feet and a spread of 6 to 10 feet. Likes sun. Blooms fragrant reddish-purple flowers in the summer and has long flower spikes. Attracts butterflies. Requires good drainage. Prune heavily before leaves form.

PETITE PLUM BUTTERFLY BUSH - *Buddleia davidii* 'Petite Plum' - Medium growing spreading shrub. Grows to a height of 4 to 6 feet and a spread of 3 to 5 feet. Likes sun. Is long arching and blooms purplish flower spikes mid-summer. Attracts butterflies. Prune heavily in spring. Nice dwarf shrub for hot sunny areas.

PINK DELIGHT BUTTERFLY BUSH - *Buddleia davidii* 'Pink Delight' - Medium growing spreading shrub. Grows to a height of 4 to 6 feet and a spread of 3 to 5 feet. Likes sun. Blooms long, arching, pink flower spikes mid-summer. Attracts butterflies. Prune heavily. Nice dwarf butterfly bush for hot areas.

WHITE BUTTERFLY BUSH - *Buddleia davidii* 'White' - Medium growing spreading shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 6 feet. Likes sun. Blooms white flower spikes in mid-summer. Attracts butterflies. Has long arching branches; prune heavily in early spring. Drought resistant.

BLUE MIST BLUEBEARD SPIREA - *Caryopteris clandonensis* - Slow growing rounded shrub. Grows to a height of 2 to 4 feet and a spread of 2 to 4 feet. Likes sun. Blooms powder blue flowers in mid-summer and stays in bloom for a long time. Shear for compact habit. Nice blue foliage. Excellent shrub for later summer color.

DARK KNIGHT BLUEBEARD SPIREA - *Caryopteris clandonensis* 'Dark Knight' - Medium growing mounding shrub. Grows to a height of 2 to 4 feet and a spread of 2 to 4 feet. Likes sun. Blooms deep blue flowers in mid-summer and is compact with bluish-green leaves. Cut back after bloom for repeat blossoms. Drought tolerant.

LONGWOOD BLUE - BLUEMIST SPIREA - *Caryopteris clandonensis* 'Longwood Blue' - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Likes sun. Blooms dark blue flowers in mid-summer. Trim after blooming. Attracts bumble bees. Nice small informal hedge or showy small border plant.

CAMEO FLOWERING QUINCE - *Chaenomeles japonica* 'Cameo' - Medium growing spreading shrub. Grows to a height of 2 to 4 feet and a spread of 3 to 4 feet. Likes sun. Blooms cameo-pink flowers in early spring, right after forsythia, and small greenish apple-like fruit in fall. Low compact grower - very colorful early spring.

JET TRAIL FLOWERING QUINCE - *Chaenomeles japonica* 'Jet Trail' - Medium growing spreading shrub. Grows to a height of 2 to 3 feet and a spread of 3 to 4 feet. Sun or part shade. Blooms pure white clusters of flowers in early spring, and small greenish apple-like fruit in fall. Very colorful when blooming.

LOW & WHITE FLOWERING QUINCE - *Chaenomeles japonica* 'Low & White' - Slow growing rounded shrub. Grows to a height of 2 to 4 feet and a spread of 3 to 4 feet. Likes sun. Blooms white flowers in early spring, and small greenish apple-like fruit in fall. Trim when blooms fade. Excellent compact shrub for sunny areas.

MINERVA FLOWERING QUINCE - *Chaenomeles japonica* 'Minerva' - Slow growing spreading shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Likes sun. Blooms clusters of cherry-red flowers in early spring, and small greenish apple-like fruit in fall. Medium plant spreading growth habit - excellent foundation shrub.

ORANGE DELIGHT FLOWERING QUINCE - *Chaenomeles japonica* 'Orange Delight' - Slow growing spreading shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Likes sun. Blooms soft-orange flowers in early spring, and small greenish apple-like fruit in fall. Very colorful, and good screening plant.

SUPER RED FLOWERING QUINCE - *Chaenomeles japonica* 'Super Red' - Medium growing upright shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Likes sun. Blooms bright-red flowers in early spring, and small greenish apple-like fruit in fall. Prune after blooms fade. Compact shrub which is good for foundations.

TEXAS SCARLET FLOWERING QUINCE - *Chaenomeles japonica* 'Texas Scarlet' - Slow growing spreading shrub. Grows to a height of 2 to 4 feet and a spread of 3 to 4 feet. Likes sun. Blooms scarlet flowers in early spring, and small greenish apple-like fruit in fall. Spreading plant - great for foundation plantings.

VARIEGATED RED TWIG DOGWOOD - *Cornus alba* 'Elegantissima' - Medium growing spreading shrub. Grows to a height of 6 to 8 feet and a spread of 4 to 6 feet. Likes sun. Blooms white flowers in spring, has red stems in winter and has green leaves with white edges. Adds color to the landscape year round. Spreads by suckers.

MOTTLED DOGWOOD - *Cornus alba* 'Gouchaulti' - Medium growing spreading shrub. Grows to a height of 6 to 8 feet and a spread of 4 to 8 feet. Likes sun or part shade, and acid soil. Has red stems and mottled green and white, very striking colored leaves.

ISANTI RED TWIG DOGWOOD - *Cornus sericea* 'Isanti' - Slow growing rounded shrub. Grows to a height of 4 to 5 feet and a spread of 4 to 6 feet. Sun or part shade. Has good fall colors; its' cream-white summer flowers turn to white berries in the fall, and has bright red branches in the fall and winter. Compact grower.

KELSEY DWARF DOGWOOD - *Cornus sericea* 'Kelseyi' - Slow growing mounding shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or part shade. Has good fall colors and brilliant red upright branches in winter. Plant for the winter color. Compact grower - good shrub for small spaces.

RED TWIG OR RED OSIER DOGWOOD - *Cornus stolonifera* - Rapid growing spreading shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 10 feet. Sun or part shade. Has good fall colors; white flowers in late spring -suckers freely, and colorful red branches in winter. Tolerates wet areas but does not like alkaline soils.

RED OSIER DOGWOOD - *Cornus stolonifera* 'Baileyi' - Medium growing upright shrub. Grows to a height of 5 to 7 feet and a spread of 4 to 6 feet. Sun or part shade. Has good fall colors; blooms cream cluster flowers in spring, white to bluish berries in late summer with deep green foliage, and brilliant red twigs glow in winter. Suckers freely. Tolerates wet areas but doesn't like alkaline soil conditions. Most common variety of Red Twig Dogwood.

YELLOW TWIG DOGWOOD - *Cornus stolonifera* 'Flaviramea' - Rapid growing spreading shrub. Grows to a height of 6 to 10 feet and a spread of 5 to 8 feet. Sun or part shade. Has good fall colors; blooms white flowers in late spring, white berry clusters in late summer, and has brilliant yellow bark in winter. Brightens the yard. Nice plant for screening and informal hedges.

CONTORTED FILBERT - *Corylus contorta* - Slow growing upright shrub or tree. Grows to a height of 6 to 10 feet and a spread of 6 to 10 feet. Likes sun. Does well in containers. Unusual ornamental plant that is most attractive without leaves; very decorative twisted branches and limbs. The branches are great for flower arrangements.

GREEN SMOKE TREE - *Cotinus coggygia* - Medium growing rounded shrub or tree. Grows to a height of 15 to 25 feet and a spread of 15 to 25 feet. Sun or part shade. Has green leaves and good fall colors. Purple wispy flowers in summer give a smoke-like effect. Water well when young.

ROYAL PURPLE SMOKE TREE - *Cotinus coggygia* 'Royal Purple' - Medium growing rounded shrub or tree. Grows to a height of 10 to 20 feet and a spread of 8 to 12 feet. Has good fall colors; its' pinkish-gray flowers that bloom in summer give an appearance of smoke. Its' purple leaves are edged with red. Easily pruned into shrub or tree.

COTONEASTER LOWFAST - *Cotoneaster* 'Lowfast' - Rapid growing spreading evergreen shrub. Grows to a height of 12 to 15 inches and a spread of 6 to 10 feet. Sun or part shade. Has white flowers in spring that turn to reddish-orange berries in fall. Small leaves give an informal appearance. Good groundcover for large areas.

PEKING COTONEASTER - *Cotoneaster acutifolius* - Medium growing spreading shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 8 feet. Likes sun. Has small white flowers in spring that turn to large black berries in fall. Berries are very colorful in winter. Attracts birds. Excellent for an informal hedge or fenceline.

CRANBERRY COTONEASTER - *Cotoneaster apiculatus* - Slow growing spreading shrub. Grows to a height of 2 to 4 feet and a spread of 6 to 10 feet. Sun or part shade. Has good fall colors; white flowers in spring turn to large red berries in fall. Very hardy, colorful groundcover. Best for large unconfined areas.

PYRENEES COTONEASTER - *Cotoneaster congestus* - Slow growing rounded evergreen shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or part shade. Has pinkish flowers in spring that turn to red berries in fall. Good low growing shrub that is great for use in rock gardens and as a small hedge plant.

PYRENEES COTONEASTER - *Cotoneaster congestus* 'Laiking' - Slow growing spreading evergreen shrub. Grows to a height of 2 to 3 feet. Sun or part shade. Has pinkish flowers in spring that turn to red berries in late summer. Arching, mounding plant. Good hanging over walls or as ground cover.

CORAL BEAUTY COTONEASTER - *Cotoneaster dammeri* 'Coral Beauty' - Rapid growing spreading evergreen shrub. Grows to a height of 18 to 24 inches and a spread of 4 to 8 feet. Sun or part shade. Has small white flowers in spring that turn to small coral colored berries in late summer and has small rich-green leaves. Good groundcover or bank cover.

LOWFAST COTONEASTER - *Cotoneaster dammeri* 'Lowfast' - Medium growing spreading evergreen shrub. Grows to a height of 1 to 2 feet and a spread of 8 to 12 feet. Likes sun. Has small white flowers in spring that turn to red berries in late summer. Low growing groundcover. Great for large areas.

SPREADING COTONEASTER - *Cotoneaster divaricatus* - Medium growing upright shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 6 feet. Likes sun. Has good fall colors; its' small pinkish flowers in spring turn to showy, small red berries in fall. Very showy in fall. Good as an informal screen, hedge or border plant.

ROCK COTONEASTER - *Cotoneaster horizontalis* - Medium growing spreading shrub. Grows to a height of 2 to 3 feet and a spread of 10 to 15 feet. Sun or part shade. Has good fall colors; its' white flowers in spring turn to red berries in late summer. Stiff horizontal branching, attractive in or out of leaf. Best in large areas.

VARIEGATED ROCK COTONEASTER - *Cotoneaster horizontalis* 'Variegatus' - Slow growing spreading ground cover. Grows to a height of 2 to 3 feet and a spread of 5 to 8 feet. Likes sun. Has good fall colors; its' white flowers in spring turn to red berries in fall. Very colorful leaves. Good ground cover for slopes, large areas and rock gardens.

SPREADING WILLOWLEAF COTONEASTER - *Cotoneaster salicifolius* 'Repens' - Medium growing spreading evergreen ground cover. Grows to a height of 12 to 15 feet and a spread of 6 to 8 feet. Sun or part shade. Has white spring flowers that turn to red berries in fall. Good ground cover, outstanding in mass plantings. Best left untrimmed.

LENA SCOTCH BROOM - *Cytisus* 'Lena' - Medium growing mounding shrub. Grows to a height of 4 to 8 feet and a spread of 4 to 8 feet. Likes sun. Has fragrant red flowers with yellow centers and small, insignificant leaves in spring. Unusual appearance for yard. Prune after bloom for compact plant.

MOONLIGHT BROOM - *Cytisus* 'praecox' - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 4 to 6 feet. Sun or part shade. Has fragrant bright-yellow flowers in spring. Shear after bloom for compact growth habit.

PROVENCE BROOM - *Cytisus purgans* - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 3 to 4 feet. Likes sun. Has yellow flowers with little or no fragrance in late spring. Compact growth with little or no shearing needed.

BURKWOOD BROOM - *Cytisus scoparius 'Burkwoodii'* - Medium growing rounded shrub. Grows to a height of 4 to 8 feet and a spread of 4 to 8 feet. Sun or part shade. Has maroon red flowers in spring that are very pretty in bloom with small, insignificant leaves. Seeds freely - may become a pest. Prune after blooming.

LILAC TIME BROOM - *Cytisus scoparius 'Lilac Time'* - Medium growing rounded shrub. Grows to a height of 4 to 8 feet and a spread of 3 to 5 feet. Sun or part shade. Has deep redish-purple flowers in spring. Showy in bloom - shear after bloom for compact habit. More dwarf growth than other varieties.

SLENDER DEUTZIA - *Deutzia gracillis* - Slow growing vase-like shrub. Grows to a height of 2 to 3 feet and a spread of 3 to 4 feet. Sun or part shade. Blooms clusters of fragrant white flowers in late spring that profusely cover the branches. Prune after blooming. Good next to a house or along a fence.

PINK-A-BOO DEUTZIA - *Deutzia hybrida 'Pink-a-Boo'* - Medium growing upright shrub. Grows to a height of 5 to 8 feet and a spread of 5 to 8 feet. Likes sun. Blooms pink flowers in mid-spring - great for fence lines or as a border shrub. Very attractive and showy in spring. Prune after blooming.

RED VEINED ENKIANTHUS - *Enkianthus campanulatus* - Slow growing rounded shrub. Grows to a height of 3 to 6 feet and a spread of 2 to 5 feet. Likes partial shade and acid soil. Has good fall colors; blooms creamy-yellow, bell-shaped flowers in spring with leaves that turn red in fall. Needs winter protection.

COMPACT BURNING BUSH - *Euonymus alata 'Compacta'* - Medium growing vase-like shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Likes sun. Has a brilliant red fall color. Excellent as a specimen plant or as a hedge. One of the most popular, most showy plants with red colored leaves in the fall. The frost date determines how bright the leaves will be.

LYNWOOD GOLD FORSYTHIA - *Forsythia intermedia 'Lynwood Gold'* - Medium growing upright shrub. Grows to a height of 5 to 7 feet and a spread of 4 to 6 feet. Likes sun. Has bright yellow flowers in early spring and is a heavy bloomer with stiff, upright growth. Trim after blossoms drop. The first shrub to bloom in the spring.

SPRING GLORY FORSYTHIA - *Forsythia intermedia 'Spring Glory'* - Medium growing upright shrub. Grows to a height of 5 to 7 feet and a spread of 3 to 5 feet. Likes sun. Has light yellow flowers in early spring and is a profuse bloomer -easily forced indoors. Prune after blossoms drop. The "first" shrub to bloom in the spring.

ARNOLD'S DWARF FORSYTHIA - *Forsythia intermedia 'Arnold's Dwarf'* - Medium growing spreading ground cover. Grows to a height of 2 to 4 feet and a spread of 4 to 6 feet. Likes hot sun. Has small yellow flowers in early spring, and is not as striking as common forsythia. Easy to care for. Good ground cover for informal areas and slopes.

TETRAGOLD FORSYTHIA - *Forsythia ovata 'Tetragold'* - Medium growing spreading shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Likes sun. Has golden-yellow flowers that bloom in very early spring. Prune after blooming.

APHRODITE ROSE OF SHARON - *Hibiscus syriacus 'Aphrodite'* - Medium growing upright shrub. Grows to a height of 8 to 10 feet and a spread of 5 to 8 feet. Likes sun. Has pink flowers with red eye in mid summer; very colorful in late summer. Trim to desired shape and size. Does well as a small tree or a large shrub.

BLUE BIRD ROSE OF SHARON - *Hibiscus syriacus 'Blue Bird'* - Medium growing upright shrub. Grows to a height of 10 to 12 feet and a spread of 6 to 10 feet. Likes sun. Has single bluish flowers in mid summer. Prune to desired shape; may be pruned to small tree. Somewhat drought tolerant.

BLUSHING BRIDE ROSE OF SHARON - *Hibiscus syriacus 'Blushing Bride'* - Medium growing upright shrub. Grows to a height of 10 to 12 feet and a spread of 6 to 10 feet. Sun or part shade. Has double pink flowers in mid summer. Prune to desired shape; may be pruned to small tree. Somewhat drought tolerant.

COLLIE MULLENS ROSE OF SHARON - *Hibiscus syriacus 'Collie Mullens'* - Medium growing upright shrub. Grows to a height of 10 to 15 feet and a spread of 5 to 10 feet. Sun or part shade. Has double rosy-purple flowers in mid summer; attractive, dependable bloomer. Does well as a small tree or a large shrub.

DIANA ROSE OF SHARON - *Hibiscus syriacus 'Diana'* - Medium growing upright shrub. Grows to a height of 10 to 12 feet and a spread of 6 to 10 inches. Likes sun. Has single white flowers in mid summer. Prune to desired shape; may be pruned to small tree. Somewhat drought tolerant.

HELENE ROSE OF SHARON - *Hibiscus syriacus 'Helene'* - Medium growing spreading shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 6 feet. Likes sun. Has white flowers with a purple center in mid summer; very colorful in late summer. Prune to desired shape and size. Does well as a small tree or a large shrub.

MINERVA ROSE OF SHARON - *Hibiscus syriacus 'Minerva'* - Medium growing upright shrub. Grows to a height of 8 to 10 feet and a spread of 3 to 6 feet. Likes sun. Has lavender-pink flowers with a red center in mid summer. Does well as a shrub or pruned to a small tree or screen.

RED HEART ROSE OF SHARON - *Hibiscus syriacus 'Red Heart'* - Medium growing upright shrub. Grows to a height of 6 to 12 feet and a spread of 4 to 8 feet. Sun or part shade. Has white flowers with a red eye in mid summer. Does well as a small tree or large shrub. Attractive, dependable bloomer.

WOODBRIIDGE ROSE OF SHARON - *Hibiscus syriacus 'Woodbridge'* - Medium growing upright shrub. Grows to a height of 6 to 12 feet and a spread of 4 to 6 feet. Sun or part shade. Has single, rosy purple flowers with a red eye in mid summer. Does well as a shrub or a small tree. Attractive, dependable bloomer.

BLUE HYDRANGEA - *Hydrangea macrophylla 'Blue'* - Slow growing rounded shrub. Grows to a height of 4 to 5 feet and a spread of 3 to 4 feet. Sun or part shade. Likes acid soil, and needs it to stay blue or else they can often turn pink. Has blue flowers in summer. Add aluminum sulphate. Trim early spring.

PINK HYDRANGEA - *Hydrangea macrophylla* "Pink" - Slow growing rounded shrub. Grows to a height of 4 to 5 feet and a spread of 3 to 4 feet. Sun or part shade. Likes neutral soil, and turns blue in acid soil. Has pink flowers in summer. Add superphosphate or lime for best pink color. Trim stems before leaves appear.

RED HYDRANGEA - *Hydrangea macrophylla* "Red" - Slow growing rounded shrub. Grows to a height of 4 to 5 feet and a spread of 3 to 4 feet. Sun or part shade. Likes acid soil, and turns pink or blue when in acid soil. Has pinkish-red flowers in summer that often fade to pink. Use superphosphate or lime for best color.

WHITE HYDRANGEA - *Hydrangea macrophylla* "White" - Medium growing rounded shrub. Grows to a height of 4 to 10 feet and a spread of 4 to 10 feet. Likes partial shade. Has white flowers in summer. Lime application will help maintain good color. Stems often die back to the ground in winter, prune before leaves appear. Mulch well in the fall.

PEEGEE HYDRANGEA - *Hydrangea paniculata* 'Grandiflora' - Rapid growing upright shrub. Grows to a height of 6 to 12 feet and a spread of 8 to 10 feet. Sun or part shade. Has good fall colors and large white flowers in late summer. Large shrub with large conical flowers, can be trained into a small tree.

SUNBURST HYDRANGEA - *Hydrangea frondosum* 'Sunburst' - Slow growing mounding shrub. Grows to a height of 10 to 12 inches and a spread of 18 to 24 inches. Likes sun or shade. Has bright yellow flowers in summer. Nice ground cover. Drought tolerant plant. Evergreen in warmer climates, often dies to ground in cold.

HENRY, ST. JOHN'S WORT - *Hypericum patulum* "Henryi" - Medium growing mounding shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Sun or part shade. Has golden yellow flowers in mid-summer. Evergreen in warmer climates, often dies to ground in cold area. Light green foliage on graceful branches.

BEAUTY BUSH - *Kolkwitzia amabilis* - Medium growing vase-like shrub. Grows to a height of 8 to 12 feet and a spread of 6 to 8 feet. Sun or part shade. Has good fall colors; Pinkish flowers in early summer that are yellow throated, gray-green leaves and flaky bark. Has pinkish-brown bristly fruit in summer.

CRAPE MYRTLE - *Lagerstroemia indica* - Slow growing upright shrub. Grows to a height of 5 to 12 feet and a spread of 4 to 8 feet. Likes sun, and acid soil. Flowers in late summer. Mulch well the first winter, needs winter protection. Available in white, pink or red.

VICARY GOLDEN PRIVET - *Ligustrum* 'Vicaryi' - Medium growing rounded shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Likes sun. Has golden foliage that looks best untrimmed, but is great for hedges or foundation plants. Very fragrant, small whitish flower clusters in spring.

CHEYENNE ENGLISH PRIVET - *Ligustrum vulgare* "Cheyenne" - Rapid growing shrub. Grows to a height of 6 to 15 feet and a spread of 4 to 6 feet. Likes sun. Has narrow leaves, variety of english privet. Great for tall growing hedge or screen. Trim often while young to form dense structure. Trim a little wider at base than at top.

LODENSE PRIVET - *Ligustrum vulgare 'Lodense'* - Slow growing rounded shrub. Grows to a height of 1 to 4 feet and a spread of 3 to 4 feet. Likes sun. Has fragrant, cream-colored flowers in late spring with blue-black berries in summer and dark green leaves. Excellent as a low screen or border -not much shearing required. One of the most popular hedge plants.

HEAVENLY BAMBOO - *Nandina domestica* - Slow growing upright semi-evergreen shrub. Grows to a height of 3 to 8 feet and a spread of 18 to 36 inches. Sun or part shade. Has good red fall colors; its' white flowers in summer turn to red berries in fall. Despite the name, it's not bamboo. Great substitution for the common burning bush. Does not drop leaves in mild winter. Leaves stay red until new, green leaves grow in spring.

HARBOUR DWARF NANDINA - *Nandina domestica 'Harbour Dwarf'* - Slow growing semi-evergreen shrub. Grows to a height of 1.5 to 2 feet and a spread of 1 to 2 feet. Sun or part shade. Has good red fall colors, and will keep leaves during mild winter. Colorful new growth. Densely branched plant - good taller ground cover.

RUSSIAN SAGE - *Perovskia atriplicifolia* - Medium growing upright perennial shrub. Grows to a height of 3 to 4 feet and a spread of 18 to 24 inches. Likes sun, and prefers well-drained soil. Has bluish flower spikes; blooms beginning in late summer. Silvery aromatic foliage. Cut back hard in spring.

DWARF SNOWFLAKE MOCK ORANGE - *Philadelphus virginialis 'Dwarf Snowflake'* - Medium growing rounded shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Likes sun. Has fragrant, double white flowers in late spring. Nice garden addition for small garden areas.

MINNESOTA SNOWFLAKE MOCK ORANGE - *Philadelphus virfinalis 'Minnesota Snowflake'* - Medium growing vase-like shrub. Grows to a height of 6 to 8 feet and a spread of 3 to 5 feet. Likes sun. Has fragrant, large, double white flowers in late spring and smells like orange blossoms.

NATCHEZ MOCK ORANGE - *Philadelphus virfinalis 'Natchez'* - Medium growing vase-like shrub. Grows to a height of 6 to 8 feet and a spread of 3 to 5 feet. Likes sun. Has fragrant, large, single white flowers in late spring and smells like orange blossoms. Wonderful in bloom, easy to maintain.

VIRGINAL MOCK ORANGE - *Philadelphus virfinalis 'Virginal'* - Medium growing vase-like shrub. Grows to a height of 6 to 8 feet and a spread of 3 to 5 feet. Likes sun. Has fragrant, large, double white flowers in late spring and smells like orange blossoms. Good screen or border plant.

ABBOTSWOOD POTENTILLA - *Potentilla fruticosa 'Abbotswood'* - Medium growing rounded shrub. Grows to a height of 24 to 30 inches and a spread of 24 to 30 inches. Likes sun. Has white flowers in spring and summer. Potentilla bloom all summer -few plants do.

GOLD DROP POTENTILLA - *Potentilla fruticosa 'Gold Drop'* - Medium growing rounded shrub. Grows to a height of 18 to 24 inches and a spread of 2 to 3 feet. Sun or part shade. Has gold flowers that bloom all summer -few plants do. Trim to maintain dense shape. Nice shrub next to junipers.

GOLD STAR POTENTILLA - *Potentilla fruticosa* 'Gold Star' - Medium growing rounded shrub. Grows to a height of 1 to 3 feet and a spread of 1 to 3 feet. Likes sun. Has large, yellow flowers that bloom all summer -leaves out early in spring. Tough and drought tolerant. Prune to keep compact.

GOLDFINGER POTENTILLA - *Potentilla fruticosa* 'Goldfinger' - Medium growing rounded shrub. Grows to a height of 24 to 30 inches and a spread of 24 to 30 inches. Likes sun. Has large, deep, yellow flowers in spring and summer with fairly compact growth. Prune severely early spring to keep compact plant.

JACKMANII POTENTILLA - *Potentilla fruticosa* 'Jackmanii' - Medium growing rounded shrub. Grows to a height of 3 to 4 feet. Likes sun. Has 1 & 1/2 inch deep, yellow flowers that bloom all spring and summer. Prune severely early spring.

KATHERINE DYKES POTENTILLA - *Potentilla fruticosa* 'Katherine Dykes' - Medium growing rounded shrub. Grows to a height of 2 to 4 feet and a spread of 2 to 4 feet. Likes sun. Has pale, yellow flowers that bloom all spring and summer -few plants do. Prune severely.

MCKAY WHITE POTENTILLA - *Potentilla fruticosa* 'McKay White' - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or part shade. Has white flowers that bloom several times in summer. Water often the first summer. Prune to keep size and shape.

RED ACE POTENTILLA - *Potentilla fruticosa* 'Red Ace' - Slow growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or part shade. Has reddish-orange flowers in spring. Flowers fade to yellow during heat of summer.

RED SUNSET POTENTILLA - *Potentilla fruticosa* 'Red Sunset' - Medium growing rounded shrub. Grows to a height of 24 to 30 inches and a spread of 3 to 4 feet. Likes sun. Has reddish-orange flowers that bloom all summer -flowers fade to yellow.

SUTTERS GOLD POTENTILLA - *Potentilla fruticosa* 'Sutters Gold' - Medium growing rounded shrub. Grows to a height of 12 to 18 inches and a spread of 3 to 4 feet. Likes sun. Has large, yellow flowers that bloom all summer. Nice compact plant but tolerates pruning well to keep even smaller.

TANGERINE POTENTILLA - *Potentilla fruticosa* 'Tangerine' - Medium growing rounded shrub. Grows to a height of 24 to 30 inches and a spread of 2 to 3 feet. Likes sun. Has yellowish-orange flowers in summer. Shear potentilla for neat compact growth.

CISTENA FLOWERING PLUM - *Prunus cistena* - Medium growing upright shrub or tree. Grows to a height of 4 to 10 feet and a spread of 4 to 8 feet. Likes sun. Has pink flowers in spring, and colorful red leaves all summer. No fruit. Very colorful in yard as a specimen plant or trimmed into a hedge.

PINK FLOWERING ALMOND - *Prunus glandulosa* 'Rosea' - Medium growing rounded shrub or tree. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Sun or part shade. Has double, pink flowers in early spring. Likes the heat, not the cold. Loose, open growth habit unless trimmed. Nice specimen plant.

TALLHEDGE - *Rhamnus frangula 'Columnaris'* - Medium growing columnar shrub. Grows to a height of 12 to 15 feet and a spread of 3 to 4 feet. Likes sun. Needs little, if any, pruning - but may be kept to 4' to 5' if pruned. Tends to be bare near the ground if not trimmed when young to keep compact. Excellent hedge for narrow areas without much trimming required.

SMOOTH SUMAC - *Rhus glabra* - Medium growing upright shrub or tree. Grows to a height of 8 to 12 feet and a spread of 8 to 12 feet. Likes sun. Has good fall colors and insignificant flowers in mid-summer. Roots spread rapidly by suckers - tolerates heat, drought & poor soil. Great tree for dry slopes.

DWARF SMOOTH SUMAC - *Rhus glabra 'cismontana'* - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 6 feet. Likes sun. Has good orange and red fall colors. Spreads rapidly from suckers, but is a small shrub. Drought tolerant. Native to Utah. Good shrub for dry hillsides.

SQUAWBUSH - *Rhus trilobata* - Medium growing rounded shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Likes sun. Very colorful shrub in the fall. Heat and drought tolerant. Native shrub to Utah.

STAGHORN SUMAC - *Rhus typhina* - Medium growing upright shrub or tree. Grows to a height of 6 to 10 feet and a spread of 8 to 15 feet. Likes sun. Has good red and orange fall colors and insignificant flowers in mid-summer. Roots spread fast. Fuzzy new branches look like deer's antlers. Drought tolerant, does not like wet soils.

CUTLEAF STAGHORN SUMAC - *Rhus typhina 'Laciniata'* - Medium growing upright shrub or tree. Grows to a height of 6 to 10 feet and a spread of 8 to 15 feet. Likes sun. Has good red and orange fall colors and insignificant flowers in mid-summer. Reddish brown fuzzy fruit. Similar to Staghorn Sumac but has very serrated leaves. Tolerates poor conditions.

DWARF BLUE ARCTIC WILLOW - *Salix purpurea 'nana'* - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Likes sun. Has small, narrow blue-gray leaves. Good hedge or foundation shrub in areas other shrubs won't survive. Tolerates wet soil conditions. Very cold hardy.

ANTHONY WATERER SPIREA - *Spiraea bumalda 'Anthony Waterer'* - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Sun or part shade. Has rose-red flowers in spring and summer, and good red fall colors. Prune severely late winter or early spring. Will bloom repeatedly during summer if trimmed lightly all summer. Makes a nice border plant.

FROEBEL SPIREA - *Spiraea bumalda 'Froebelii'* - Medium growing rounded shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Sun or part shade. Has good red fall colors. Large 3" rose-red flower clusters in summer. Long bloom period.

GOLDFLAME SPIREA - *Spiraea bumalda 'Goldflame'* - Medium growing rounded shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Sun or part shade. Has rose-red flowers in summer. New leaves emerge reddish and turn yellow as they mature; then fade to green in summer and turn red in fall. Very colorful plant entire summer. Trim severely early spring to control size and to help make look more natural.

LIMEMOUND SPIREA - *Spiraea bumalda 'Limemound'* - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Likes sun or partial shade. Has light pink flowers in summer, and colorful yellow leaves that turn reddish in fall. One of the prettiest yellow plants for the garden. Good in rock gardens or next to the house.

DOLCHICA SPIREA - *Spiraea dolchica* - Slow growing mounding shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Likes sun. Has purplish-pink flowers in summer and new growth is bronze-red; serrated leaves on graceful branches add a different texture to your yard. Dwarf plant.

LITTLE PRINCESS SPIREA - *Spiraea japonica 'Little Princess'* - Medium growing spreading shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 4 feet. Likes sun. Has rose-red flowers in early summer and small bright green leaves. Trim often to maintain shape. Excellent small shrub for borders or foundations. Very showy.

SHIROBANA SPIREA - *Spiraea japonica 'Shirobana'* - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 3 to 4 feet. Sun or part shade. Has white, pink and red flowers all in the same cluster that bloom in mid-summer. Trim often to maintain size and shape or let grow natural.

SNOWMOUND SPIREA - *Spiraea nipponica 'Snowmound'* - Medium growing spreading shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 5 feet. Sun or part shade. Has small white flowers in late spring and small, narrow leaves. Nice informal hedge plant. Very dense. Flowers emerge on the tips of the upright branches.

BRIDLEWREATH - VANHOUTTE SPIREA - *Spiraea vanhouttei* - Medium growing vase-like shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Sun or part shade. Has white clusters of flower blossoms that cover the graceful long, arching branches in early summer. Small blue-gray leaves. Trim after blossoms fade to maintain drooping shape, not as attractive if trimmed into formal hedge.

COMMON SNOWBERRY - *Symphoricarpos alba* - Slow growing upright shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Likes sun. Has pink flowers in summer and small, round, white berries often remain on shrub after leaves drop in fall. Attracts birds. Drought tolerant plant.

CHENAULT CORALBERRY - *Symphoricarpos chenaultii* - Medium growing upright shrub. Grows to a height of 4 to 6 feet and a spread of 3 to 5 feet. Likes sun. Has pinkish flowers in early summer with red berries in winter. Attracts birds. Drought tolerant plant.

CHINESE LILAC - *Syringa chinensis* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 4 to 6 feet. Likes sun. Has fragrant rosy-purple flowers in late spring. Performs well in mild winters as well as hot summers. Prune after blossoms drop to maintain shape.

KOREAN LILAC - *Syringa patula* - Slow growing upright shrub. Grows to a height of 3 to 6 feet and a spread of 2 to 4 feet. Likes sun. Has lavender-pink flowers in late spring. Prune to size and shape after blossoms fall. Dense and twiggy.

MISS KIMM LILAC - *Syringa chinensis* - Medium growing rounded shrub. Grows to a height of 2 to 3 feet and a spread of 3 to 4 feet. Likes sun. Has deep-purple flowers in mid-spring; blooms turn icy blue in May. Nice dwarf hedge plant.

PERSIAN LILAC - *Syringa persica* - Medium growing vase-like shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Likes sun. Has fragrant pale-lilac flowers in late spring with small leaves. Profuse bloomer. Good screening plant.

JAMES MCFARLAND PRESTON LILAC - *Syringa prestonia 'James McFarland'* - Rapid growing upright shrub. Grows to a height of 8 to 12 feet and a spread of 5 to 8 feet. Likes sun. Has fragrant rosy-pink flowers in late spring. Does well in mild climates. Vigorous grower, dependable bloomer, and quite showy.

COMMON LILAC - *Syringa vulgaris* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant lilac-purple flowers in late spring that are on everyone's 'favorite' list. Remove older branches to help maintain vigor.

ANGEL WHITE LILAC - *Syringa vulgaris 'Angel White'* - Medium growing spreading shrub. Grows to a height of 6 to 8 feet and a spread of 4 to 6 feet. Likes sun. Has fragrant white flowers in spring. Nice screening plant. Remove older branches to help shape plant.

BELLE DE NANCY LILAC - *Syringa vulgaris 'Belle de Nancy'* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, double pinkish-purple flowers in cone-shaped clusters that bloom in late spring.

CHARLES JOLY LILAC - *Syringa vulgaris 'Charles Joly'* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, double reddish-purple flowers in cone-shaped clusters that bloom in mid-spring. Prune after flowers fade. Remove older branches to help plant bloom and grow vigorously.

ELLEN WILMOTT LILAC - *Syringa vulgaris 'Ellen Wilmott'* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, double white flowers in late spring. Trim after flowers drop in spring.

KATHERINE HAVEMEYER LILAC - *Syringa vulgaris 'Katherine Havemeyer'* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, double pink flowers in late spring. A little lime is helpful to maintain its color.

LAVENDAR LADY LILAC - *Syringa vulgaris 'Lavendar Lady'* - Medium growing spreading shrub. Grows to a height of 6 to 8 feet and a spread of 4 to 6 feet. Likes sun. Has fragrant, lavender flowers in spring. Nice screening plant.

LUDWIG SPAETH LILAC - *Syringa vulgaris 'Ludwig Spaeth'* - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, single purple flowers in cone-shaped clusters that bloom in late spring. All lilacs may take several years to darken to true color.

MME. LEMOINE LILAC - *Syringa vulgaris* 'Mme. Lemoine' - Medium growing vase-like shrub. Grows to a height of 6 to 12 feet and a spread of 6 to 12 feet. Likes sun. Has fragrant, double white flowers in late spring.

SENSATION LILAC - *Syringa vulgaris* 'Sensation' - Medium growing vase-like shrub. Grows to a height of 6 to 8 feet and a spread of 5 to 8 feet. Likes sun. Has fragrant, single purple & white flower florets that have white borders in spring; striking when in bloom.

PINK DAWN VIBURNUM - *Viburnum bodnantense* 'Pink Dawn' - Medium growing upright shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 8 feet. Sun or part shade. Has pink flowers in early spring that are very fragrant before leaves emerge; red berries in summer and leathery looking leaves.

BURKWOOD VIBURNUM - *Viburnum burkwoodii* - Medium growing upright, semi-evergreen shrub. Grows to a height of 6 to 10 feet and a spread of 4 to 5 feet. Sun or part shade. Has fragrant, white flowers in early spring and blue-black berries in summer. Glossy leaves drop in cold areas-remain in mild winters.

KOREAN SPICE VIBURNUM - *Viburnum carlesii* - Medium growing upright shrub. Grows to a height of 4 to 8 feet and a spread of 3 to 5 feet. Sun or part shade. Has fragrant, pink in bud-open white flowers in mid-spring and blue-black berries in summer. Open growth habit.

COMMON SNOWBALL - *Viburnum opulus* 'Roseum' - Fast growing upright shrub. Grows to a height of 10 to 15 feet and a spread of 4 to 6 feet. Sun or part shade. Has good fall colors and large, 'snowball', white flower clusters. Yields no fruit - watch for aphids.

DOUBLEFILE VIBURNUM - *Viburnum plicatum* 'Tomentosum' - Medium growing rounded shrub. Grows to a height of 8 to 15 feet and a spread of 10 to 15 feet. Sun or part shade. Has good red fall colors, white flowers in spring, and red berries in late summer. Very showy shrub, unusual layering effect while blooming.

DWARF CRANBERRY VIBURNUM - *Viburnum trilobum* 'Compactum' - Medium growing rounded shrub. Grows to a height of 4 to 5 feet and a spread of 3 to 6 feet. Likes sun. Has flat-headed snowball-like white flower clusters instead of the round flower clusters in spring. Red berries in late summer.

BRISTOL RUBY WEIGELA - *Weigela* 'Bristol Ruby' - Medium growing upright shrub. Grows to a height of 5 to 7 feet and a spread of 4 to 6 feet. Sun or part shade. Has ruby-red flowers in late spring; flowering sometimes repeats in late summer or early fall if trimmed after blossoms drop.

JAVA RED WEIGELA - *Weigela* 'Java Red' - Medium growing rounded shrub. Grows to a height of 4 to 6 feet and a spread of 4 to 6 feet. Sun or part shade. Has deep, rose-pink flowers -red in bud and open to pink- in late spring and purplish-green foliage.

MINUET WEIGELA - *Weigela* 'Minuet' - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Sun or part shade. Has pink flowers in early summer; very colorful when blooming. Trim to desired shape & size. Great next to house or fence line.

PINK PRINCESS WEIGELA - *Weigela florida* 'Pink Princess' - Medium growing upright shrub. Grows to a height of 5 to 6 feet and a spread of 3 to 5 feet. Likes sun. Has bright pink flowers in late spring; profuse bloomer and hardier than most weigela. Easily maintained. New introduction.

RED PRINCE WEIGELA - *Weigela florida* 'Red Prince' - Medium growing spreading shrub. Grows to a height of 5 to 8 feet and a spread of 4 to 6 feet. Likes sun. Has showy, rich, red flowers that bloom mid-spring and don't fade with time as well as rich, green leaves. Small plant as wide as tall.

DWARF VARIEGATED WEIGELA - *Weigela florida* 'Variegata Nana' - Medium growing rounded shrub. Grows to a height of 3 to 5 feet and a spread of 3 to 4 feet. Likes sun or shade. Has soft, pink flowers in late spring and soft, green foliage with creamy white edges. Attractive, compact plant.

DAYTIL YUCCA - *Yucca baccata* 'Daytil' - Slow growing, irregular evergreen shrub. Grows to a height of 2 to 3 feet and a spread of 2 to 3 feet. Likes sun. Has white flowers in summer, although it doesn't bloom every year. Unusually drought tolerant plant; great for hot dry areas. Long, thick, curled leaves are very interesting for dry, desert gardens. Does not tolerate wet soils. Sharp tips on leaves.

GOLDEN SWORD YUCCA - *Yucca filamentosa* 'Golden Sword' - Slow growing evergreen shrub. Has white spike flowers in summer that may not bloom every year and striking yellow leaves with green margins. Does beautiful as an accent plant. A very rugged and easy to grow plant. Does not like wet areas, like to be hot and dry.

IVORY TOWER YUCCA - *Yucca filamentosa* 'Ivory Tower' - Slow growing evergreen shrub. Grows to a height of 3 to 4 feet and a spread of 3 to 4 feet. Likes sun. Has white spike flowers in late spring, although it doesn't bloom every year. Tolerates heat and drought. Rugged easily grown plant - will form mounding clumps with age. Long green leaves with sharp tips.
