U.S. Partnership to Combat Antimicrobial Resistance (AMR)

AMR Strategic Coalition

The **AMR Strategic Coalition (ASC)** unites leading **U.S. experts across One Health sectors** to **build policy consensus, amplify voices, and deliver solutions** to combat antimicrobial resistance (AMR).

Led by trusted independent **leaders with 10+ years of deep federal policy, diplomacy, and scientific experience** coordinating AMR efforts.

ASC assembles stakeholders to develop critical evidence-based and holistic policy postures that are synergistic and reflective of the interdisciplinary AMR community.

Unifying U.S. Experts with a Single Voice

Amplify stakeholder voices though **sustained collaboration** to safeguard hard-won gains and influence future U.S. and global AMR efforts
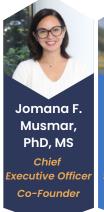

Support the **U.S. and international policymakers** with **open and transparent discussions and policy solutions** developed by stakeholders in human, animal, and agricultural sciences

Coordinate discussions that **generate consensus-based policy and actionable priorities** across sectors for **informed and effective action**
