

I had the pleasure of meeting Conor as the project manager for Reidy Construction Group where he managed Nitehawk's movie theater renovation. Conor joined the project team during the close out phase which happened to be the most critical, as it required a new Certificate of Occupancy and various Place of Assembly permits prior to opening. I was particularly impressed by his ability to quickly catch on and lead the team towards our goals. Conor had a thorough and detailed understanding of the issues at hand and his knowledge of the Municipal procedures was instrumental in securing the TCO and PA permits expeditiously and on schedule. Conor is smart, driven and one of the most valuable assets I have worked with.
