

Ireland to Enter Nations Tournament in Scotland

IHSL male and female teams representing Ireland to enter International Street Soccer Nations Cup in Dundee, Scotland 8/12 Sept.

With nine participating nations coming together, the Street Soccer Nations Cup will offer a life-changing experience for players who are suffering from social isolation.

The Venue

With the support of Dundee City Council and the Scottish Government, Street Soccer Scotland will be hosting this tournament at Caird Hall, City Square.

training session with male squad

This venue will allow all to engage with people right in the centre of the city, with two grand-stands, entertainment, food stalls and more available for players and spectators.

An occasion to connect, an opportunity to play, a chance to celebrate.

Street Soccer Scotland are bringing eight nations together hosting the first Street Soccer Nations Cup, this September in Dundee.

This event will provide an opportunity for players from Ireland and Street Football projects across the globe to represent their country in this inaugural tournament.

For many, these experiences can be life-changing; highlighting the power that sport has to influence positive change.

The problems that our players face are shared by many across the world and we believe that coming together at this tournament in Scotland and sharing these experiences, can offer hope, happiness and self-belief and inspire.

The Format

There will be 16 competing teams, eight male and eight female. The format will follow traditional Homeless World Cup play, with team squads consisting of eight players interchanging in four a side games played across 14 minutes. Fast, furious and skilful, anyone who hasn't seen one of these games live is in for a treat.

There will be a group stage and two separate knockout rounds for all teams.
