

**Helping Schools Deliver Better**

Our focus is on school transformation with an emphasis on culture as a service.

We'll design a plan that meets your unique needs and improves teaching and learning in your system.

## **Building Innovative Schools**

We are working to build the quality of the education workforce. This is achieved through the delivery of excellence in school operations by involving the community, the school staff and the school management. A good school should offer facilities for retraining teachers and good salaries at par with related spheres. A well-designed school should have modern aids and teaching devices. The school should encourage a concern for environment and cleanliness. Above all, it should be managed by a dynamic Principal and competent, humane teachers.

## **Our Programs**

We'll design a plan that meets your unique needs and improves teaching and learning in your system:

**Happy Teachers** - The Learning Forward India Professional Learning Program focuses on building professional learning communities. The program leverages the best in adult learning, research on organisational change, and practical experience to create capacity for sustained improvements in educators. #HappyTeachers

- o Joy Of Learning (JOL)
- o Diversity Inclusion Belonging at School (DIBS)
- o Born To Lead (BOL)
- o Youth Engaging Society (YES)
- o Video Powered Professional Learning

**My Good School** - standard core curriculum helps empower every individual, we invite schools to join the global community of Good Schools. #MyGoodSchool

**Schools Can Change** - school culture transformation involving all the stakeholders.
