

#MyGoodSchool

Open School

Does your school empower every individual?

- Choice of activities - Service, Skill, Sport & Study
- Find your own Coach/Mentor
- Work with your Peers
- At your own pace
- With your resources

My Good School works for an individual's personal and social development by offering an environment where experiential learning is made possible through activities beyond just study; this brings to life learning that would otherwise be theoretical and uncoordinated.

- Encouraging students to become involved in activities in the community outside the confines of the school curriculum will help develop their confidence, knowledge and networks.
- Teachers encouraging young people can benefit fully from what both the school and outside interests can offer; this can be a critical factor in progressing successfully through adolescence into a fulfilling and rewarding adult life.

Our prime focus is experiential learning for all:

- We assist young people in following their passion in Service, Skill, Sport and Study.
- The four disciplines form the critical elements for delivering quality education.
- The school may focus on one as their speciality. A good school works to deliver a balance of all.
- The My Good School App showcases the best of our OPEN SCHOOL; get the App www.MyGoodSchool.IN.

My Good School standard core curriculum or the Life Skills Program empowers every individual: Focus is on the 6 C's: 1 Critical thinking; 2 Creativity; 3 Collaboration; 4 Communication; 5 Character; and 6 Citizenship.

The "My Good School" designation shows the school's value on professional learning and student achievement.
