

**Good Schools
Alliance**

Record Book

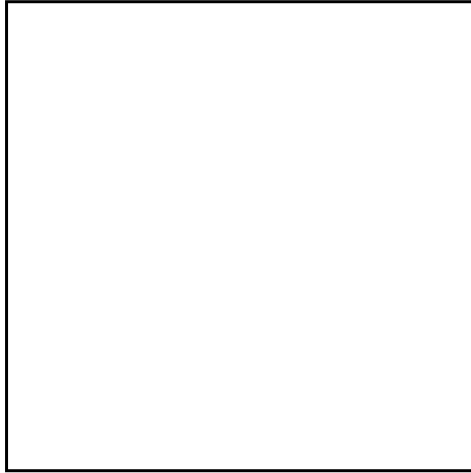

Good Schools Alliance helps young people follow their passion in Service, Skill, Sport, and Study. The four disciplines form the key elements for delivering quality in education. The school may focus on one as their specialty, a good school must provide an environment conducive to deliver a balance of all the four key elements

GOOD SCHOOLS ALLIANCE

Our educational philosophy

Good Schools Alliance works for the personal and social development of an individual by offering an environment where experiential learning is made possible through activities beyond just study; this brings to life learning that would otherwise be theoretical and uncoordinated.

Education = Service+Skill+Sport+Study (4S)

The logo on the cover, depicts how the school works to deliver quality in education, by providing equal opportunity to all the students to excel in what they find most interesting

The collaborative magenta for Service

Is used to symbolize “anti-racist”, young people bring the world together and do not like being differentiated by colour, caste, creed... other divisive ways. Communities must be built.

The serene green for Skill

The word green is closely related to the Old English verb grown, “to grow”. Individual must develop skills for life.

The electric cyan is for Sport

Without Cyan we cannot make any colour, this portrays the need for a “basic” understanding of the needs of the young people.

The prestigious blue for Study

All pervading and dominant colour, enhances vision, we need to think “beyond the blue”. Intellectual development is a necessity

Education should help each individual attain a perfect score of 10/10. What matters is the emphasis we as individual give to each of the four S's. For some ‘Study’ could be full 10, for some ‘Sport’ could be 10, yet the most complete individual will value each of the four S's and find themselves

Sunday School -(Join Us Every Sunday Online)

The 3Rs—reading, reflection, and building solid relationships —are the core of our pedagogy at My Good School. Together, we cherish and follow the Guru's footsteps. We celebrate #Oneness and cherish #JoyOfGiving, focusing on the 6Cs: Critical Thinking, Creativity, Collaboration, Communication, Character and Citizenship.

The YES Way (Youth Engaging Society)

A heartfelt initiative designed to empower schools in their mission to nurture our students. We aim to inspire young minds, helping them navigate while embracing their dreams and aspirations. It's all about fostering the spirit of Youth Engaging Society (YES)

My Good School Retreat

Students from different schools meet twice a year to participate in hands-on service activities. These Retreats go beyond typical educational excursions by focusing on building character and citizenship through shared projects that address societal needs.

Entrepreneur Internships - (Apply now)

A well-chosen internship program at school can help an individual with their chosen career path, giving them a clearer idea of what exactly working in that field entails and adds value to the school curriculum.

The **Record Book** is a record of the participation of the student, for one year at the school. In the 'My Achievement' pages the student will showcase the key learning or the work done. At the end of the year the Class Teacher will write a brief report and the Parent will give their comment
