to all, by offering
the ultimate value
in design, quality
and price.

Palazzani Home Cabinetry®

We've been providing kitchen and bath dealers, and the customers they serve, with the ultimate value in kitchen cabinets, and bathroom vanities.

Rather than tossing about meaningless boardroom phrases, we refined exactly what, "value" means.

Providing value means being able to offer a vast, ever-expanding selection of progressively-designed door styles. Providing value means offering industry-leading turnaround times.

Providing value means giving you the ability to talk to a real person who understands your style and your needs. Providing value means offering the most comprehensive range of products including framed domestic-style and frameless European-style cabinets, standard post-form and self-edge custom countertops - without ever sacrificing on quality.

Providing value means delivering a product that our customers can be proud of, at a price that they want.

The bottom line is, an inviting kitchen is what makes a house a home.

Let Palazzani Design Team inspire your next design with the design, durability, and, most of all, value to suit your taste.
