CARB2 certification: formaldehyde and panel treatment

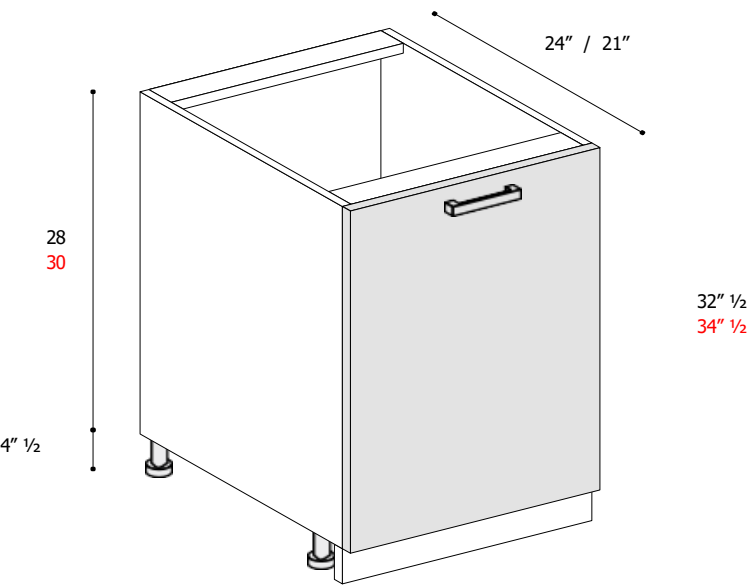

We exclusively use panels that are TSCA Title VI and CARB Phase 2 compliant, ensuring the highest standards of safety, quality, and sustainability for multifamily projects

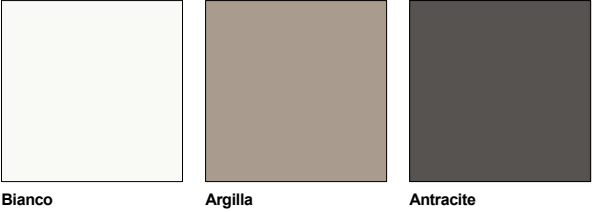

Overall dimensions of base units H.35" 11/16 with groove

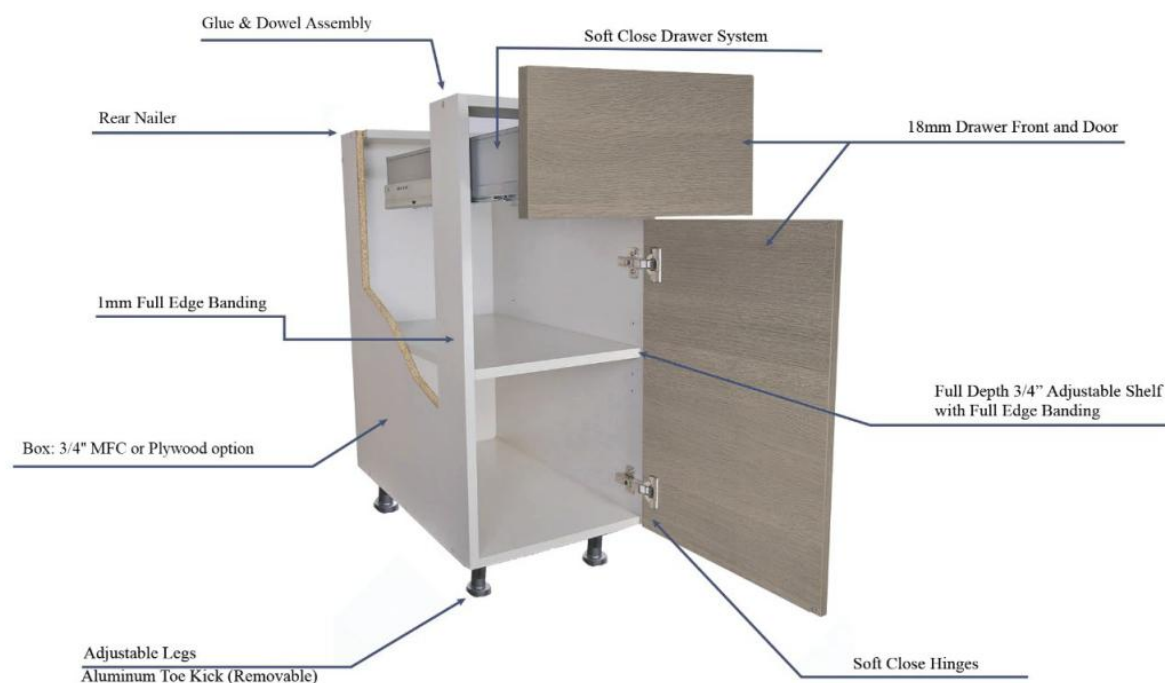

Overall dimensions of base units H.34" 1/2 with handle

FINISHES FOR STRUCTURE

GENERAL TECHNICAL INFORMATION

- **END PANELS** 3/4" white melamine faced chipboard edge banded all sides /plywood option cam & dowel option available as an upcharge 8mm glue and dowel for added strength grooved rear for 5mm MDF panel / plywood option
- **TOP/BOTTOM PANELS :** 3/4" white melamine faced chipboard - plywood option 10% upcharge
- **HANG RAILS :** 3/4" white melamine faced chipboard / plywood option
- **BACK PANEL** 4 mm MDF panel in white / plywood option
- **SHELVES** shelf pin 3/4" white melamine face chipboard edge banded all sides / plywood option 5 mm steel barrel
- **LEG SYSTEM** 4 1/2" heavy duty adjustable plastic leg system with easy mount clip
- **TOE KICK** aluminum pvc or matching MFC toe matching door finish
- **BASE STRETCHERS** 3/4" white melamine faced chipboard
- **DRAWER** double walled tandembox with soft closing runners metabox with nylon glide runner option slim box double wall with soft closing runners option
- **HINGE** standard soft closing hinge with 6 way adjustment
- **DOORS** refer to door chart and color options available with 3D textured melamine , and lacquer finishes

CARCASS

3/4" MFC (Melamine Faced Chipboard) boxes, **CARB ATCM Phase II compliant**, available in **White** or **Anthracite** finishes.

For large-scale projects, any **Kronospan matching board** is available upon request.

0.8 mm ABS edge banding applied with polyurethane glue, featuring **rounded anti-cut edges** for safety and durability.

Paper-backed edges on non-visible parts.

SHELVES

3/4" MFC shelves with **matching ABS edge banding**.

Secured with **spring-loaded safety shelf supports**, ensuring shelves remain firmly anchored to the cabinet in compliance with safety standards.

Optional **reinforcing aluminum profile** (anodized or painted) available for shelves with a standard width of 120 cm (47-1/4").

BACK PANELS

4 mm MDF back panels, available in **White** or **Anthracite** finishes.

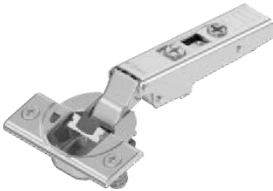

Care & Maintenance: Clean with a soft damp cloth using water or a mild neutral detergent, then dry thoroughly.

SUPPORT FEET – 12 cm (4-1/2") and 15 cm (6")

Base and tall units are equipped with **high-resistance plastic support feet**, available in two heights: **12 cm** and **15 cm**.

Featuring a **quick-mount flap system with millimetric adjustment**, ensuring precise and effortless leveling of the units.

42

HINGES

Doors are equipped with **110° quick-mount hinges** offering **six-way adjustment**.

Hinges feature a **galvanic finish** for enhanced durability and resistance against moisture, vapors, and chemical agents.

Corner wall units, dish drainer units, and cabinets with interior fittings are equipped with **180° hinges** for maximum accessibility, making loading and unloading operations more convenient.

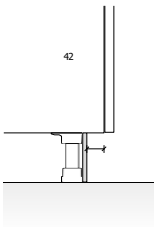

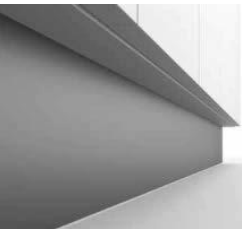

SHELVES

Manufactured from the same high-quality panels as the carcass (**18 mm / 3/4" thickness**) with finishes that match the cabinet interior.

Edged with **0.8 mm ABS** in matching colors, including the front edge for a seamless look.

Secured with **spring-loaded safety shelf supports**, color-matched to the carcass, ensuring that shelves remain firmly anchored in compliance with safety standards.

Optional **reinforcing aluminum profile** (anodized or anthracite painted) available as standard for shelves with a width of **120 cm (47-1/4")**.

42

TOE KICK

Made of **thermoplastic material** coated with aluminum-finish melamine paper.

Available with **front profiles in 12 cm and 15 cm heights**.

Also available in **extruded aluminum versions** with heights of **12 cm (4-1/2")**, and **15 cm (6")**.

Easily attached to cabinet feet with **hook systems**, allowing for quick installation and effortless removal during cleaning or maintenance.

TECHNICAL CHARACTERISTICS

DRAWERS AND DEEP DRAWERS – 500 mm (19-3/4")

Equipped with the **Slimbox system**, a slim metal drawer design with **full-extension synchronized runners** that ensure smooth, flawless sliding.

The **reduced side thickness** maximizes internal storage space, making the entire drawer volume fully usable.

Features an **integrated side handle** for faster assembly and easy handling.

Adjustment mechanisms are located directly on the side for convenient installation and fine-tuning.

Available with either **soft-closing system** or **push-to-open** functionality.

Performance & Capacity

Load capacity: 30 kg (66 lbs).

Durability: Tested for **50,000 cycles** of use.

Available widths: from 270 mm (10-5/8") up to 550 mm (21-5/8").

Finishes

Anthracite (Code 32)

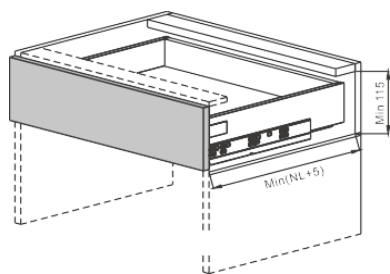

White (Code 012)

Certification

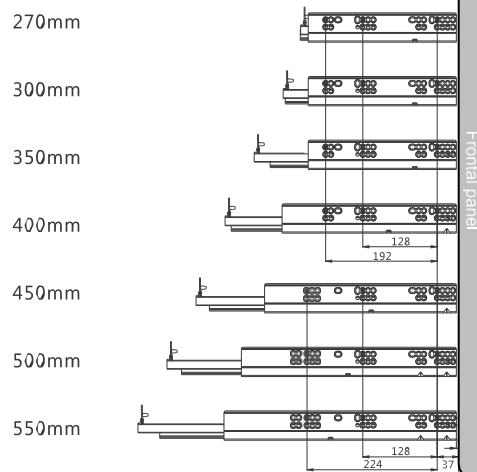

CATAS Certified: 341855 – 341399

Product breakdown

Components

1. Concealed slide, left and right
2. Drawer side, left and right
3. Plastic cover (set)
4. Front fixing (set)
5. Back fixing for wooden panel (set)

CARB2 certification: formaldehyde and panel treatment

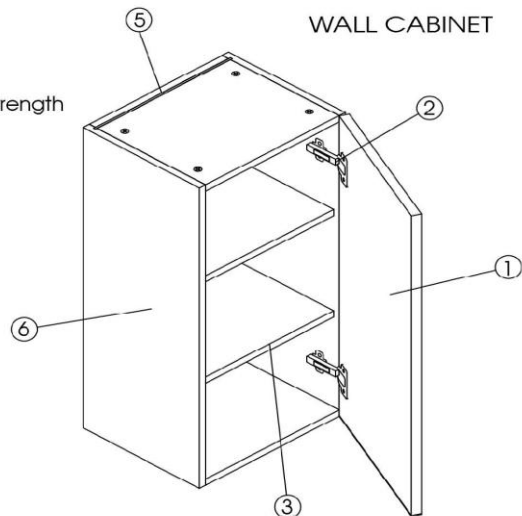

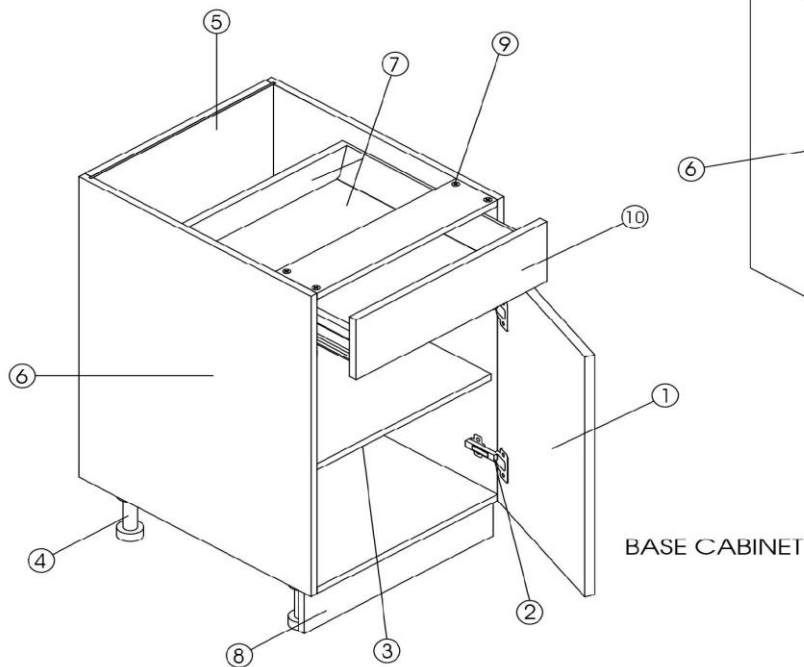

We exclusively use panels that are TSCA Title VI and CARB Phase 2 compliant, ensuring the highest standards of safety, quality, and sustainability for multifamily projects

Standard Cabinet Construction

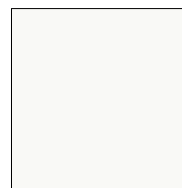

Eucucina products are built to last. Our products are manufactured to exacting standards using all plywood construction. All hinges and drawer glides are fully adjustable and feature soft-close technology providing a high-end luxury look and feel.

Cabinet Structure

- ① Door Panel
- ② Six way adjustable soft close Hinge
- ③ ¾" Plywood shelf with Laminate on both sides
- ④ Adjustable Legs on base cabinets (4)
- ⑤ Back Panel with 5/8" plywood frame
- ⑥ ¾" Plywood Side Panels
- ⑦ 5/8" Plywood Bottom Panel with Melamine covered sides
- ⑧ Toe-kick aluminum or door matching
- ⑨ Easy to Install Euro Cam-Lock system with Dowels for added strength
- ⑩ Full Access Soft Close Adjustable Drawer System
