technology that respects the planet

nanotechnology

Ohmyshower manufactures its products combining composite mineral and nanotechnology, in addition to the use of materials that favor the sustainability of the planet. It combines elastic resins with mineral fillers and a layer of the latest generation gel coat that result in products with greater durability and impact resistance, as well as significantly reducing their weight.

Shower trays

-  EASY TO CLEAN

Standard and DEKOR wall panels characteristics

The **POLYCARBONATE** wall panels are 0.237" thick.

They are the ideal solution to replace a bathtub for a shower tray and no building work is required.

Flat finish with a slightly sandy granulated effect. They are waterproof and water-repellent, so they improve insulation and guarantee protection against moisture and dampness. They can be easily cut, if their size has to be adjusted to fit them on the walls. They are practically unbreakable because they are quite flexible and extremely light, which means that a large panel can be held up and fit by just one person. As they are so light they are perfect to fit on drywall surfaces that do not support heavy loads.

The colour tones of all DEKOR designs can vary caused by many reasons.

REPAIR KIT

PAINT KIT

SHOWERBAND SEALING BAND

The Showerband Kit is a 118" long, multiaxial and sealing band flexible to ensure the seal of the joint with walls and floors in the installation of shower trays, bathtubs and other sanitary ware. It has high adhesion and good bonding in a wide range of substrates. It remains flexible throughout its useful life. In addition to water, it is an effective barrier against gases such as methane and radon.

GENERAL INFORMATION

FAQS

Can the products be custom made?

Our products can be ordered with a margin of ±0.7%.

How should the product be stored once it has been received?

It should be stored horizontally on a flat surface.

How can the products be repaired?

Although they are very strong and impact resistant, we have repair kits available for our customers.

Can the product be cut?

Yes , with a diamond cutting disc.

How do you clean the product?

Neutral soap and water applied with a sponge should be used. Never use abrasive products or tools.

What material should be used to install the products?

To stick and/or seal the products use MS flexible polyurethane sealant and/or neutral silicone.

WARRANTY

All our products come with a three year warranty according to the existing European regulations.

The following circumstances shall void the warranty:

- Damage caused by misuse
- Unsuitable storage and handling of the product
- Incorrect use of cleaning products
- Inappropriate installation of the product

IMPORTANT

Our warranty covers only and exclusively the exchange of the product.

The colour tones of all DEKOR designs can vary caused by many reasons.

PACKAGING AND TRANSPORTATION

The products are packed and delivered in separate protected cardboard boxes.
