Our Montclair with Grange Habermann

I want to take this opportunity to thank our volunteers who create a special kind of magic for residents of First Montclair House, namely me, however, I speak for my friend Patty and our dearest "mother superior" - Esther.

Three cheers for Rich who has the most generous wife who wraps exquisite presents for us when we play and win at bingo, and another three cheers for Roberta when she brings her grandchild to read trivia loud and clear as we keep our brains "snappy."

But I save the best for last.

When I had the unique opportunity of seeing the most adorable, athletic and charming Shana, when we came down for exercise class on Thursday, I flipped. To think that in this day and age, someone is so mature and benevolent, that, in her busy day, she finds the time and will find a time, to be with us for a half hour, every Thursday - to get the blood flowing - is beyond caring for another generation. Now that's maturity.

It was fascinating to learn that she only 14 - is a resident of Montclair, attends Kimberly and has been going to Montclair Dance Works since the time she was three - and is a part of a dance team that will be appearing in New York, I was impressed. She personified health and was dressed to inspire everyone to want to contribute and participate in her little dance routine. We all found her charming.
