

AUGUST NEWSLETTER

Ripley's Aquarium

Post21 had their first ever field trip! The participants and staff visited Ripley's Aquarium on August 14, and everyone had a blast! There was so much to take in, it was a sensory, visual and auditory experience for everyone. Lots of photos and videos were taken to document the first of many!

Our World- India

This month Post21 learned about India. The participants enjoy making play dough mandalas, a cultural activity done for Diwali. The participants also had the chance to try samosas and a delightful treat called jalebi.

Did you know that floor hockey is the national sport in India?
