[Katelyn.Freeman@moorecenter.org](mailto:Katelyn.Freeman@moorecenter.org)

As a Board Certified Behavior Analyst (BCBA), I currently serve adults with a range of disabilities. I have been in the field for over 7 years and have expertise in working with severe aggression, self-injurious behavior, hygiene, refusals among many other maladaptive behaviors. My background comes from the science of Applied Behavior Analysis and I continue to practice it by incorporating a Trauma Informed Care approach with clientele which range from Developmental Disabilities, Mental Illnesses and Addiction. My passion is utilizing reinforcement and finding ways to incorporate the use of it when teaching replacement behaviors while working with the adult population. I currently conduct agency wide trainings for Direct Support Professionals, Home Care Providers at the Moore Center, along with providing supervision for future Registered Behavior Technicians (RBT), Board Certified Assistant Behavior Analysts (BCABA) and Board Certified Behavior Analysts (BCBA). I also have a current LABA in the state of Massachusetts.

**"It's All Your Fault! 12 Tips for Managing People Who Blame Others for Everything**

By Bill Eddy, LCSW, Esq." It is a non-clinician look at people with high conflict personalities derived from personality disorders such as borderline personality, narcissistic personality, histrionic personality and anti-social personality. It was written for use by the general public but I found it had approaches and strategies that were very helpful when dealing with the people we support who have these types of personality disorders.
