Meg's Message

Dear Members,

Just a quick reminder that our **Thursday, May 14** RFWTV Meeting will be at **Colony Cottage Recreation Center.** Our Meeting will begin promptly at **9:30 AM** with adjournment at 11:20 AM. We will Celebrating National Police Week with our great Sumter County Sheriff's Department K-9 Unit!

Please be aware The Villages District Property Management are upgrading the Recreation Centers HVAC system. Meeting rooms are going to be set at 71-74 degrees. Some of our Members may feel this to be chilly so please be sure to bring a scarf, sweater and/or jacket. We want you to be comfortable at our meetings and not a shivering ice pop!

From DPS:

"You may notice changes to the meeting room temperature but be assured DPM and the HVAC representatives will be providing in-service training for all recreation staff in operation of the new HVAC systems. These trainings are designed to protect the HVAC system from unnecessary stress. We must avoid making frequent adjustments throughout each day for every individual's temperature preference - we won't be able

to accommodate everyone's preference. No HVAC system is built for constant changes, we will be limiting adjustments to two times per day.

The Recreation & Parks Best Practice for Room Temperatures are:

- Recreation Center and room temperatures will be set between a range of 71-74 degrees.
- Only approved recreation staff may adjust the temperatures in a meeting room.
- Dependent on activity or event type, the temperature may be adjusted 3 degrees above or below the pre-established range.
- RLVG Leaders (only the individual on the facility use contract) may request from recreation center staff to adjust the temperature during their scheduled meeting time.

Temperatures may take up to an hour to regulate depending on the temperature change request, amount of individuals in the room, opening of room doors, and other factors."

Keep Florida Red.

Meg
