Residential Commercial

Your Estimated Savings: 15% monthly / \$180 per year

Congratulations TEST, you can save 15% with community solar.

\$180

of Estimated Savings per year!

Your electric bill is needed for us to verify the details of your utility account and assure that we are allocating the appropriate share of production to your account.

CONTINUE

*Savings are estimated based on the average electric bill you entered and the state community solar rules in your area (**maximizing** your bill credits and **savings**). We only bill you for 85% of the solar credits you receive – saving you **15%** – you **only pay for what you save**. Example: if your monthly credits received from RooflessSolar on your electric bill are \$100, you only pay back \$85 of that solar credit, → saving \$15 (15%) – every month! Detailed savings will be outlined in your program document.*

Your Estimated Savings: 15% monthly / \$180 per year

Step 2: For residential customers, no Company Name is required. In Service Address, start typing and your address will auto populate. If your Service Address and Billing Address are the same, click the little green box. Enter your utility account # as found on your electric bill. Click That's It to proceed to next page.

Cancellation Right (Copy 1)

Right to Cancel. You may cancel the Agreement, without penalty or obligation, by sending us a written cancellation notice within three business days of the date you signed the Agreement. To cancel the Agreement, deliver a signed and dated copy of the below Notice of Cancellation (or any other written cancellation notice identifying you and this Agreement) to us at: Community Solar Platform Holdings PO Box 411213, St. Louis, MO 63141-1213 postmarked no later than midnight of the date that is three business days from the date you signed the Agreement. If you do not provide us a written cancellation notice within that three-day period, you will no longer have a right to cancel this Agreement and you will remain liable for performance of all your obligations under the Agreement.

Note: The following form is made available for the purpose of cancelling the Agreement pursuant to the FTC Cooling Off Rule within the three-day cancellation period described above. If you are not choosing to cancel this Agreement within the three-day period described above, you should not sign this form.

Two copies of this form are included so that if you do choose to cancel the Agreement by delivering this form to us within that time, you will still have a copy of this form.

Notice of Cancellation

Date of Transaction: 11/25/2021

If possible, please upload your electric bill to save time, or you can complete this step later.

Step 3: Review each document, if you accept, then click Accept. A confirmation box will appear confirming your selection, click ok. Then browse your computer, tablet or phone for a pdf or image of your electric bill. Once the file is in the field, click Upload Electric Bill. A little confirmation box pops up, click ok. Choose Here We Go to proceed.

Your electric bill is needed for us to verify the details of your utility account and assure that we are allocating the appropriate share of production to you.

Step 4:

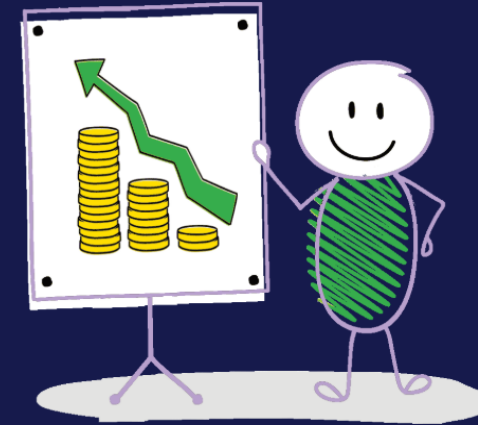

On this page choose how you wish to pay your solar invoice. Credit Card or ACH. If you choose to set this up later you can come back to this page to fill out the information, but you will not be subscribed until this step is complete.

Once one of those is entered you will click Done and Done. You will receive a Welcome email immediately following your completion.

Checkout:

Each month, you will receive a community solar credit on your electric bill. You will be charged for this credit less your contracted discount percentage.

Please note: you will receive a statement via e-mail 15 days before your account is debited.

SUBMIT CREDIT CARD INFO

I will set this up later.

SUBMIT ACH INFO

Before Community Solar

After Community Solar

Step 5:

Start Saving!

Once the project is live you will receive your normal utility bill as well as a bill from Eastport Community Solar. You will receive credits on your utility bill for your share of the production of the facility. Your community solar bill will be 85% of the credits you received from your utility leaving you with a 15% savings each month
