Who is Grant Propane

We come from the North

Grant Propane (**Grant Energy**) is part of a 3rd generation family of businesses based out of New Liskeard, Ontario. In operation for over 65 years, the Grant family is involved in trucking, fuel services, pulp and paper and mining. If you have travelled Hwy 11 or the TransCanada, you have seen the silver trucks with the big “G” or “GRW.” As a **Suncor Partner**, we currently supply all the Petro-Canada in Ontario with fuel. And much of the pulp for your toilet paper!!

We have two large propane plants, one in North Bay, one in New Liskeard with over a million litres of storage combined. Planned for 2023 (delayed 18+ months since 2020 due to COVID) is to build a plant in Bracebridge. Grant owns, as well, a sizeable railhead outside of New Liskeard. We are the only company in Central and Northern Ontario that buys direct from the refinery -- we are not a middleman like all the other Muskoka suppliers. This is why we can keep our pricing and supply -- depending on any market upheaval, of course -- consistent year over year.

Can I depend on Grant Propane?

We are Polar Bears with Husky Blood

We are open 24/7, 365 days a year for fuel and technical issues. Using our logistical expertise, routing, and simply, sound drivers, we run routes that keep you full and warm, not worried and wondering. With hundreds of installs in the Muskoka area, we have yet – knock on wood -- run a customer out

We have been in Muskoka for ten years and have grown exponentially with hundreds of installs. Locally, we are the preferred independent propane supplier for many Assc, including **Lake of Bays Association**.

You are so far away – how will you supply BRL Association?

Well, at Grant, moving fuel, efficiently and quickly, is what we do best. As a northern business, in all weather – ALL conditions -- 24/7, 365 days a year, we supply the fuel that heats your homes and fuels your cars throughout Ontario, including all Petro-Canada and affiliates in all the major Ontario cities. We will keep BRLA well looked after – ***our drivers do require cookies and coffee in squall/cold weather, haha.*** We are a well-managed, organized and rock-solid formidable northern company.

BRLA Program

What we offer & “What’s the catch?”

- Free Competitor Switch over — Let’s discuss this when we talk.
- Free Installation, always
- 1st Year Free Rental on tank
- Locked-In Pricing — KNOW what you are paying. Always Free Delivery with no Add-ons
- Volume: Best In-Market Value Pricing - Always Competitive — Fair!!
- Twenty years, not just for today — What is this?? Building a Longterm Relationship.

Commitment to you Busy Bee's and your Confidence!

- Did you know that honeybees are the largest pollinators of our fruits, nuts, seeds and vegetables? Honeybees pollinate one third of the plants we eat and over half of the world's diet of fat and oil.
- As part of Grant Propane's sustainability efforts, over 200,000 bees have called our propane yard their home. They have been working hard this past summer pollinating the property and surrounding area.
- We are committed to the finest service and longterm relationship. Please contact me below anytime to discuss your propane needs:
