Cellular Health is The Key to Wellness

THE PULSE BAND & BODY WEB CM2 TECHNOLOGY

Creating a healthy happy and whole
lifestyle from the cellular level up

The CM2 Pulse Band

The advanced technology within the cm2™ Pulse Band is designed to energize the 33 trillion oxygen carrying red blood cells in the body. It takes pulsed electromagnetic field therapy to the next level.

Cell activity and overall energy is improved with increased oxygen uptake and increased bioavailability of nutrition. Combine Pulse Band with a healthy and active lifestyle to supercharge the cells.

Properly energized cells can boost the body's natural ability for:

- Increase Aerobic Performance*
- Improve Circulation*
- Maximize Oxygen Uptake*
- Deliver Natural & Real Energy*

8 Years of Research

Eight years of research and testing CM2 continues to uncover exciting benefits.

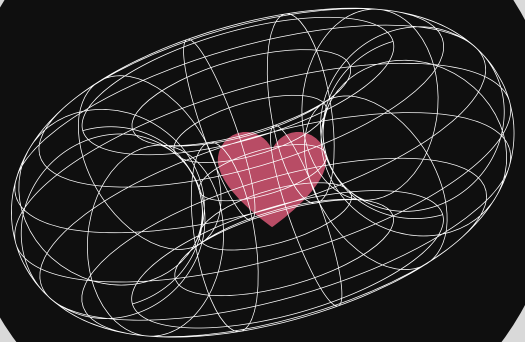

Everything can be broken down to atoms. Every atom is surrounded by its own energy field. This field is known as a toroidal field. It is a self-sustaining, dynamic flow of energy that aligns to powerful energy areas of the body. It promotes coherence, perfect balance. It is known to create a harmonic resonance which promotes wellbeing.

The toroidal vortex of energy is one of the most efficient means of energy transfer. It is infinite, alive, and pulsing with life. It can supply power in magnificent ways. Tesla was working with this toroidal technology throughout his life.

Torodial Field

A Toroidal Field creates self sustaining energy that aligns with the energy of the heart, and increases the human potential. It creates harmonic resonance.

Cellular health is the key to good health

The cm2 technology found in the Body WEB and the Pulse Band (shown above) plays crucial roles in the body's natural ability to uptake and deliver maximum oxygen, which in turn can affect both the recovery process and athletic performance. Our technology is not just PEMFT, it has been modified and enhanced via toroidal fields.

Creating a healthy, happy and whole lifestyle from the cellular level up is the key to great health.

HOW? *It's just science*, just like your mobile phone can wirelessly absorb a charge, so can your trillions of cells. Every cell in the body has a charge. The cells process, use, and store energy. Cell charge dictates the health of the cell.

The CM2 Body Web

The body web targets deep cell support in bone, muscle, ligament, tendon, and nerves. When cells have the proper energy, oxygen and nutrition, (the essential components of healthy cell metabolism), the body's natural ability to heal itself and fight pain increases.

Get on the fast-track today. A healthy lifestyle combined with proper cell metabolism can lead to natural:

- Faster Recovery*
- Pain Management*
- Improved Circulation*
- Reduction in Swelling and Inflammation*
- Deeper Detoxification*
- Improved Nutrient Absorption
- General Overall Wellness*

CM2 Therapy

Bring your body back to optimum health by re-energizing damaged cells.

What is Pulsed Electromagnetic Frequency (PEMF) ?

Pulsed Electromagnetic Therapy is a revolutionary, drug-free technology which uses gentle pulsing electromagnetic fields to recharge cells and their ability to function effectively - small millivolts of electricity are delivered to the body in a safe and effective way. Again, our technology is unique and specialized; designed to take this technology to the next level by modifying the energy delivery into toroidal fields. This is CM2 or PEMFT+.

You can think of PEMF+ as exercise for the cells. It's known to boost energy and support higher states of wellness. PEMF+ can mimic the same cellular benefits we get when exercising. The body produces microcurrents during physical activity and this stimulates pathways for cell communication. This sends messages to the body, making it believe it is engaged in exercise. This can increase general stamina and endurance.

It's just great science!

WHY PEMF+ ?

- Optimize Wellness, Non-Invasively
- Enhance the Body's Natural Recovery Process
- Assist with Muscle Fatigue & Discomfort After Exercise
- Support General Relaxation
- Experience More Energy, Naturally
- Amplify Athletic Performance

Think of PEMF as "Magnetically Induced Cellular Exercise"

Over 3,000 studies on the benefits of PEMF

"My cm2 Pulse Band makes all the difference. I refuse to go a day without it. It makes all the difference!"

ENERGIZE YOUR CELLS

The most common benefit from PEMF users is higher energy levels and reduction and or elimination of pain

(CM2)-Toroidal PEMFT and The Cells

Did you know >
CM2 mimics the
the Earth's natural
magnetic field?

PEMF Raises Cell Membrane Potential

This is the difference in voltage between inside and outside the cell. It's over 70mV in healthy cells and 30mV or below in chronically sick cells.

PEMF Boosts Permeability of Cell Membranes

Permeability is essential to prevent toxins backing up and to ensure full absorption of nutrients and oxygen. Healthy food and supplements are of little use if poorly absorbed.

PEMF Improves Cellular Communication

This is vital for health. Receptors on cell membranes are triggered by both neuropeptides (chemical messengers) and electro-magnetic pulses (when using the right frequencies).

PEMF Increases Your ATP Levels

Produced in the mitochondria inside every cell, levels of the ATP energy molecule determine whether you feel exhausted all the time, or full of life.
