# **Armor Protection We Stand Behind, So You Can Too**

## **Mission. Passion. Commitment.**

Established in 2020, Marrero Armor LLC is the continuation of a driven determination shared by the founders to provide the best lifesaving ballistic equipment possible. Leveraging our experience in ballistic performance, feature design and material sciences, Marrero Armor continues to follow a passion to protect our warriors, both civilian and military, through the development of industry leading ballistic products.

# Industry Leading Shield Attributes

## What sets our shields apart from, and above, the rest?

Marrero Armor's manufacturing formula is a trade secret and is what differentiates our armor from all others. It is how we achieve industry leading stopping power combined with light weight.

### Our shields...

...are constructed of 100% Ultra High Molecular Weight Polyethylene (UHMWPE). Our material delivers an armor solution with unmatched ballistic stopping power.

...go far beyond the NIJ minimum requirements to defeat the 7.62x51mm (M80) NATO round.

...provide multiple hit protection against the 7.62x39mm MSC and 5.56mm M193 up to 77gr. Our "Tactical" series Level III shield also defeats the following special threats:

- 300 Win Mag (LC)
- 6.5 Creedmoor (LC)
- .30-06 Springfield (LC)

...offer a unique Double Cutout (DCO) design that allows for simultaneous use of the viewport, protection for the officer and tactical employment of either a handgun or rifle weapon system;

...have an optional 4"x6" clear, NO TINT viewport that has a V50 rating of 3220 fps;

- Uniquely designed by us and has a lifetime guarantee against delamination;

...have an optional Tactical Cover that facilitates mission success in multiple ways:

- First, it protects the valuable viewport from scratches when the shield is not in use;
- Secondly, it affords the operator an opportunity to "kit up" the shield with mission critical items on both the front and back of the shield so operational pauses can be avoided.

...our handles are positioned to ensure the viewport is centered on the eye of the operator from the normal carry position;

- This allows for skeletal vice muscular load bearing, thus reducing muscle fatigue and allowing the operator to stay in the fight longer;
- Our standard handle is 11" horizontal or an optional "Tri-Grip" handle.

...in sizes larger than 34" high, have an additional 2" inches of head protection above the viewport;

...only utilize hardened steel and ballistically tested washers and bolts.

Level III Tactical Shield  
#T20302

**POLICE**

**BALLISTIC SHIELDS**

**We know tapered cuts look cool.  
What isn't cool is a bullet in the  
femoral artery!**

**NO TAPERED CUTS AND EDGE-TO-EDGE  
PROTECTION HELP KEEP YOU ALIVE !!**

**MORE PROTECTION  
AT A LIGHTER WEIGHT  
FOR LESS MONEY**

**WHY SETTLE FOR LESS ?!?**

# LEVEL HG2 / IIIA

## PATROL SHIELD

**MARRERO**  
ARMOR

**Exceeds NIJ Standards**

**NO TAPERED CUTS!**

We don't taper the cuts on our shields to save weight. The added surface area we provide maximizes YOUR protection.

Our Patrol Shield series is **the lightest in the industry at 7.4 lbs.** Either our standard straight bar or optional Tri-Grip handle give perfect balance, and a clear viewport lets you see threats as they are.

## SPECIFICATIONS

<b>MODEL:</b>	<b>MA3A (Patrol Series)</b>
<b>SIZES:</b>	20x30   20x34   24x36
<b>WEIGHT:</b>	7.4 lbs / 3.36 kg (20x30) 9.9 lbs w/ viewport (20x30)

# DOUBLE CUTOUT SHIELD WEIGHTS

The industry standard for the testing of ballistic panels (shields), is an antiquated NIJ Standard from 1985, 0108.01 - it tests only to the .308 / M80 ball.

We hold our shields to a higher standard and design them to exceed the performance requirements of the new standards for hard body armor, NIJ Standards 0101.07 (Ballistic Resistance) & 0123.00 (Test Threats).

Not only do we exceed these standards, we have the lightest pounds per square foot (psf) pairings of features and performance in the industry today.

In the below chart, choose your Level of protection, the size shield, and go across to the appropriate weight in lbs. for either a Viewport or not.

Double Cutout (DCO)		
	No Viewport (lbs)	w/ Viewport (lbs)
<b>Level HG2 / IIIA</b>	<b>Model LWMA3A</b>	<b>Patrol Series</b>
20 x 30	7.4	9.9
20 x 34	7.7	10.2
24 x 36	8.2	10.7
<b>Level RF1 / III</b>	<b>Model LWMA3</b>	<b>Lightweight Series</b>
20 x 30	12.5	15.8
20 x 34	14.3	17.6
<b>Level RF1 / III</b>	<b>Model TMA3</b>	<b>Tactical Series</b>
20 x 30	15.0	18.3
20 x 34	17.2	20.5
20 x 40	20.5	23.8
24 x 36	22.0	25.3
22 x 48	27.5	30.8

Note: All weights in lbs, all sizes in inches. Manufacturing weight tolerance  $\pm$  5%

# RECTANGLE SHIELD WEIGHTS

The industry standard for the testing of ballistic panels (shields), is an antiquated NIJ Standard from 1985, 0108.01 - it tests only to the .308 / M80 ball.

We hold our shields to a higher standard and design them to exceed the performance requirements of the new standards for hard body armor, NIJ Standards 0101.07 (Ballistic Resistance) & 0123.00 (Test Threats).

Not only do we exceed these standards, we have the lightest pounds per square foot (psf) pairings of features and performance in the industry today.

In the below chart, choose your Level of protection, the size shield, and go across to the appropriate weight in lbs. for either a Viewport or not.

Rectangle (R)			
No Viewport (lbs)		w/ Viewport (lbs)	
<b>Level HG2 / IIIA</b>	<b>Model LWMA3A</b>	<b>Patrol Series</b>	
20 x 30	8.2		10.7
20 x 34	8.5		11.0
24 x 36	9.2		11.5
<b>Level RF1 / III</b>	<b>Model LWMA3</b>	<b>Lightweight Series</b>	
20 x 30	13.9		17.2
20 x 34	15.7		19.0
<b>Level RF1 / III</b>	<b>Model TMA3</b>	<b>Tactical Series</b>	
20 x 30	16.7		20.0
20 x 34	18.9		22.2
20 x 40	22.2		25.6
24 x 36	24.0		27.3
22 x 48	29.3		32.6

Note: All weights in lbs, all sizes in inches. Manufacturing weight tolerance  $\pm$  5%

**Customize the carry of mission essential equipment** with the Tactical Shield Cover and our Patent Pending mounting rail:

*Body Cam | Light | Magazine | Holster | Smoke | Flashbang | Med kit | FLEX-Cuffs | Taser® | etc.*

**Avoid critical delays** and have peace of mind knowing the tools of the trade you need are with you.

**Protect the Viewport** and accessorize the front and back of your shield with lifesaving tools.

## SPECS

<b>MODEL:</b>	<b>MAC</b>
<b>SIZES:</b>	20x30   20x34   20x40   24x36   22x48
<b>WEIGHT:</b>	1.5 lbs (20x30)
<b>MATERIAL:</b>	1000 Denier Cordura Nylon with PALS webbing
<b>OPTIONS:</b>	Embroidering: "POLICE"   "SHERIFF"   Custom Double Cutout (DCO) or full Rectangle (R) Color: Black or Ranger Green

## FEATURES

- PALS webbing on the front and back to customize the carry of tactical accessories
- Form fitting design to ensure a secure fit
- Detachable embroidered viewport covers for storage and protection of shield and viewport
- Heavy-duty material with reinforced stitching
- Fits both LEVEL III and IIIA shields of any size

# SHIELD HANDLES

**MARRERO**  
ARMOR

**Our Shields are perfectly balanced!**

**Our Handles offer you a choice for your preferred carry method.**

All Marrero Armor handles are positioned to give the shield perfect balance. The shield wants to stay vertical when held, which is critical. It doesn't lean either into or away from the operator.

Our custom handles are positioned so the optional Viewport is in a tactical ready position at the carry, without a need to manipulate the shield position first. This reduces fatigue and keeps you in the fight longer.

Our standard issue **"Horizontal" Handle** measures 11" across, allowing for either a single hand or dual hand carry.

Our optional **"Tri Grip" Handle** offers ambidextrous grip options. Whether you prefer the Horizontal grip, angled grip, or if you prefer to switch between the two depending on the tactics needed, the "Tri Grip" Handle gives you those tactical options.

## HANDLE SPECS

### HORIZONTAL (Standard)

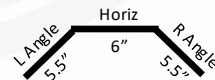

SIZE: 11" wide

MATERIAL: Aluminum / Polyurea coating / Rubber grip

### "Tri Grip" (Optional)

SIZE:

MATERIAL: Aluminum / Polyurea coating / Rubber grip / End Caps  
Note: Angled Handle adds .75 lbs to advertised shield weights

**Adaptive. Reliable. Innovative.**

Marrero Armor proudly offers FoxFury® lighting solutions to compliment all our ballistic shields.

**When mounted with our Tactical Cover:**

- Wires are concealed
- Custom pouch houses the battery pack
- Location of light is operator determined (Left, Middle, Right)
- Light operation switch is integrated onto the Handle

Put things where YOU think they make tactical sense!

Don't settle for a light in the middle of your shield that acts as a bullet magnet!

Affix a FoxFury® TAKER B10 or B30 light to our Tactical Shield Cover or directly to the shield. Avoid critical delays and have peace of mind knowing the tools of the trade you need are with you.

FoxFury® lights use premium materials and are engineered to thrive in worst case scenarios, including all weather and under water conditions.

# HARD ARMOR PLATES

◀ Tactical Plate Carrier  
#MA-TC

# Industry Leading Plate Attributes

## What sets our plates apart from, and above, the rest?

Marrero Armor's manufacturing formula is a trade secret and is what differentiates our armor from all others. It is how we achieve industry leading stopping power combined with light weight.

### Our Rifle Rated Hard Armor Plates (HAP)...

...far exceed the multi-hit ballistic requirements for both NIJ Standards 0101.06 and the upcoming 0101.07 which changes armor classifications, test methods and test threats;

...are constructed of 100% Ultra High Molecular Weight Polyethylene (UHMWPE). Our material delivers an armor solution with unmatched ballistic stopping power.

...go far beyond the compliance requirements for both the 0101.06 and the newly released 0101.07 NIJ Standards as noted here:

- |                                       |                          |
|---------------------------------------|--------------------------|
| • M855 "Green Tip" 62gr               | (Model RF2001 only)      |
| • 300 Win Mag (LC)                    | (Models 300HAP & RF2001) |
| • 6.5 Creedmoor (LC)                  | (Models 300HAP & RF2001) |
| • .30-06 Springfield (LC)             | (All Models)             |
| • 7.62x39mm (AK-47 MSC Ball, Type 56) | (All Models)             |
| • 5.56x45mm (M193 up to 77gr)         | (All Models)             |
| • 5.45x39mm (AK-74 MSC)               | (All Models)             |

...are available in sizes:

- |                                  |                             |
|----------------------------------|-----------------------------|
| • 10"x12"                        | (All Models)                |
| • 8"x10"                         | (Models 300HAP & 300LW)     |
| • SAPI: XS, S, M, L, XL          | (Model 300LW only)          |
| • Side: 6"x6", single curve      | (All Models)                |
| • Speed plate: 5"x7", 5"x8" flat | (Model 300LW only, no foam) |

...have industry leading V50 threat velocities:

- During NIJ certification testing, armor panels are subjected to "V50" testing. This is a velocity whereby a given threat type will fully penetrate the armor panel 50% of the time. The higher the V50 velocity, the better engineered and more protective is the plate.
- Our M80 V50 velocities are above 3200 fps;

...are pressed in an ergonomic multi-curve shape that conforms to the torso for maximum comfort;

...utilize proprietary ballistic foam for ultimate protection, backface reduction and comfort;

# LEVEL HG2 / IIIA

## HARD ARMOR PLATE (HAP)

**MARRERO**  
ARMOR

Our Type HG2 / IIIA plate exceeds NIJ standards for soft body armor and provides protection from handgun and shotgun rounds in a hard armor form. This ultralight standalone plate is multi-curve for a comfortable fit. Type IIIA plates are not intended to defeat a rifle threat.

# TACTICAL PLATE CARRIER

## 2 or 4 Plates - All in One – You Decide

**MARRERO**  
**ARMOR**

Our mission has always been to provide warriors with the best protection possible in a versatile platform.

Why invest in a limited option carrier? Your missions change and your gear should be able to change with them.

Our plate carrier system comes standard with a cummerbund vest for integration of side plates. Need to lighten the load? Simply remove the cummerbund and you have a lightweight and versatile tactical solution for your gear.

### PLATE CARRIER SPECS

- **MODEL:** MA-TC
- **P/N:** TPC
- **Size:** 32" – 54" waist size  
Adjustable shoulder
- **Plate capacity:** Four (4)
  - 2 – front/back, up to 10.25" x 13.25" (SAPI Lg)
  - 2 – side plates, up to 6" x 8"
- **Available in:** Ranger Green, Coyote Tan, Black

### FEATURES

- PALS webbing for modular attachments
- Removeable cummerbund with pockets for side plates
- Heavy duty quick release buckles
- Emergency drag handle
- Adjustable padded shoulder straps with PALS guides
- Wire routing loops
- Breathable padded mesh liner
- Easy access plate pockets

# SOFT ARMOR

Model : VINTAC ▶  
#V-INTAC

# SOFT ARMOR

Our NIJ certified soft armor comes in everything from a concealed solution to a tactical outer carrier - complete with accessories like throat, groin and bicep protection. We also offer soft armor backpack inserts.

There are two styles of soft armor, FUSION and IMPEDOR. Each of these styles are available in either HG1 / II or HG2 / IIIA.

The IMPEDOR SERIES HG2 / IIIA has passed structured FEMALE NIJ compliance testing.

**Don't see what you exactly need? No problem!**

Get in touch with us at [info@marreroarmor.com](mailto:info@marreroarmor.com) to customize your perfect solution.

# SOFT ARMOR

## CARRIER FEATURES

- 5-year manufacturer warranty on soft armor
  - Standard or Laser cut MOLLE / PALS webbing
