"WE USE NALLEN GUR TO MAKE OUR SWEETS"

Why Nalen Gur is special ?

- 'Nalen Gur' is Date Palm Jaggery that is unique to Bengal with an unmatched fragrance and flavour.
- Nalen Gur gradually sinks into your taste buds to give you a heavenly experience.
- A cut is made into the Date Palm Tree and an earthen pot is attached just below it to collect the sap that oozes out from it.
- It is completely organic with no chemicals or preservatives added.

It is much healthier than sugar and recommended for diabetics.

- Nalen Gur has an unrefined and complex structure which ensures slower release of sugar into the bloodstream as compared to refined and processed sugar.
- Bengali Sweets offers maximum varieties from the Rich Nalen Gur Family like Gur Rasogolla, Kachagolla, JolBhara, Talshash (Sandesh with juicy center), Chap Sandesh, Rabri, Dudh Puli to name a few...

"WE USE A2 COW MILK TO MAKE OUR SWEETS"

Why A2 Milk is Premium ?

- A2 is cow's milk that contains only the A2 type of beta-casein protein rather than the more common A1 protein found in regular milk.
- A2 milk is high in protein and calcium, yet easier to digest and healthier than any other milk
- Compared to regular milk it wins in taste as well, as it typically comes from local farms with great attentiveness toward dairy products.
- This premium quality milk is considered to be the best input for making Bengali sweets.
