

Whiting Construction Ltd

Health, Safety & Compliance Statement

At **Whiting Construction Ltd**, we are fully committed to maintaining the highest standards of **Health, Safety and Environmental compliance** across all our projects throughout **Stoke-on-Trent, Staffordshire, Shropshire and the Midlands**. Our goal is to ensure a safe and sustainable working environment for all employees, contractors, clients, and the public. We take pride in our proactive approach to **training, risk management, and environmental responsibility**.

Training & Competence:

All site operatives are trained and certified to perform their duties safely and efficiently. Our workforce holds valid **CSCS** and **CPCS** cards, and supervisors are **SMSTS** or **SSSTS** qualified. Regular toolbox talks, safety briefings, and refresher courses ensure ongoing competence and awareness across all operations.

Risk Assessments & Method Statements (RAMS):

Comprehensive **Risk Assessments and Method Statements** are prepared for every project. These documents identify potential hazards and outline safe systems of work in accordance with **CDM Regulations 2015** and **HSE guidance**. All RAMS are reviewed regularly and communicated to every team member on site.

Environmental & Sustainability Commitment:

Whiting Construction Ltd is dedicated to **environmental protection and sustainable construction**. We promote **concrete crushing and recycling** to reduce waste and carbon footprint. All materials are responsibly sourced, and waste is segregated, recycled, or disposed of through licensed carriers in accordance with **Environmental Agency standards**.

Waste Management:

We operate a strict **Duty of Care** policy for all construction waste. Our aim is to minimise landfill waste and promote **zero avoidable waste** through efficient site management, recycling, and reuse of materials.

Integrated Service Delivery – WBW Drainage:

Working alongside our sister company **WBW Drainage**, we provide complete drainage and maintenance solutions including **drain jetting, CCTV surveys, repairs, and maintenance**. This collaboration allows us to deliver a full end-to-end service for clients requiring **groundworks, drainage, and civil engineering** expertise.

Our Commitment:

Health and Safety is central to everything we do. We continuously review and improve our systems to meet and exceed industry standards. Clients can be confident that Whiting Construction Ltd operates safely, responsibly, and in full compliance with all relevant legislation and best practices.
