

Flamingos Coffee House Leeds

Accessibility

Getting here

Local transport

We are well situated for local transport: approximately 4 minutes/ 0.1 mile from the central bus station, 10 minutes/ 0.5 mile from Leeds train station and within easy reach of bus stops for several routes.

By car

There are a small number of blue badge holder car parking spaces on Central Road, which is about 30metres away from Flamingos Coffee House. You can use these from 10.30am-4pm. There are numerous pay and display car parking spaces in Leeds City Centre which are close by.

Entrances

We have one entrance via the front door within Central Arcade, This is step free, although it has a very slight lip (less than 0.5cm). The door is wide enough for any wheelchair or mobility scooter. There is also a second connected door so if you need us to open the second door, please ask a member of staff who can very easily arrange this for you.

The Coffee House – inside

Floor - hard wearing laminate, which can be slippery when wet. There are no uneven areas.

Layout and seating - the furniture, apart from the main coffee bar, is not fixed down and can be moved around if needed.

There are wooden and metal chairs which are 45cm high. The seats themselves are wooden, however we have a couple of cushions if you need these - please ask staff. You are of course welcome to bring your own cushion. The tables are approximately 80cm high.

There are also a number of stools which are approximately 75cm high. The coffee bars (which the stools sit at) is at two heights – either 93 or 99cm high.

Flamingos Coffee House Leeds

Lighting

Lighting is primarily from soft white filament bulbs. There is some natural light from the front window during daylight. There are also coloured LED lights underneath the coffee bar. Please advise if you require the LED lighting to be turned off.

Walls

Walls are dominantly white with some sections which are pink, blue and green.

Noise

It the Coffee House is within a small Arcade which is a public thoroughfare, so some noise is to be expected. We normally play music but can turn it down or off if needed.

Fire exit

The fire escape route at the rear of the Coffee House is, at the narrowest point, 90cm wide. There are no steps in the fire escape route.

Toilets

The toilet is gender neutral.

There is a white LED light in the toilet, and the toilet is one cubicle. Walls are painted white.

The entrance to the toilet is 88cm wide, with the internal dimensions 2.2m by 1.5m, so there should be adequate space to allow for a wheelchair. The light is automatic.

The toilet is 47cm high. There is lever flush 72cm from the floor, on the right of the cistern as you are sitting down.

Toilet rolls are on a holder attached to the wall, but there will be spares on the floor if needed.

The basin is 90cm high. The tap is a left-right lever type, combined hot and cold. There is soap in a pump bottle on the basin, with a towel dispenser in the cubicle on the right hand side.

Baby changing

There is a baby changing matt in the cubicle if required and, if on the rare occasion you run out of nappes, we should (hopefully) have a couple available. You are free to breastfeed anywhere in Flamingos Coffee House.
