November 11, 2011 Sewage Report

1. During November we had a meeting with DEP and Penn Vest about financing for the EQ Tank and I&I Projects.
2. The Borough met the Penn Vest deadline for paperwork for a loan and Grant money.
3. DEP and DCNR did not meet their deadline for grant money paperwork and permit it was due November 16, 2011.
4. As of December 5, 2011 no permit has been received from DEP. A trip to DEP will need to be scheduled.
5. At this point we do not know what the problems are but we hope the Borough does not loose the money and Grant.
6. We have started the work with Bob Koch and the Catholic Church concerning money owed and Storm Water Management situations.
7. The Bus Garage project is in progress.
8. Bob Hixson is trying to make the EQ Tank operate as best as possible with the existing pump. In order to finish the project and operate the Tank properly we need the money and grant.
9. St Christopher letter review.
10. Review Loan Documents from FNB.
