July Spa Delights

Revive Your Eyes!

Escape and relax at the spa with
US.

Hoping for that 'glazed donut'
GLOW? Well, here you go.

**Book an Oxygenic Sparkling
Facial and receive a FREE
Hyalogy Eye Treatment (\$40
value).**

Why You'll Love It

- Brightens and hydrates
- A global winning clinical
Japanese line

- It's designed to stimulate new cells through a clinical term called 'micro-stimulation'.
- Through cell stimulation it promotes detoxification and blood flow to our matrix
- Stimulates collagen production with tiny bubbles
- Minimizes the appearance of fine lines

Beautiful skin = confidence. It's a WIN WIN! Fab for any special event. **Get your glow on!**

Product Of The Month

SEBU- ACE OIL & LOTION

Are you or someone you care about struggling with
active skin?

We're a clinical Skin Centre that is passionate about nipping
triggers and rebalancing the skin to HEAL through nano nutrition.

In this specific case, this beauty used the SEBU line (Sebu-Lac
lotion & ACE oil) for daily home care. She also booked monthly
extraction facials to help speed up the process.

Mention "Rebalance" and get \$15 OFF the set of two.

MINERAL

S

VS

CHEMICAL

Mineral sunscreen sits on TOP of the skin and acts as a shield. It reflects UV rays away.

Pregnancy safe

Mineral sunscreens contain zinc oxide / titanium dioxide which physically block UV rays from hitting the skin.

Chemical sunscreen absorbs into the skin and then absorbs UV rays, converts the rays into heat, and releases them from the body.

The ingredients in chemical sunscreens include avobenzene, octinoxate and oxybenzone.

let's chat sunscreen

Do you know the difference between Physical & Chemical sunscreen? Come by any time for a custom sunscreen match and multitask with our award winning SPF!

May we ask you for a review?

Your feedback allows others who may have never given us an opportunity a little taste of what their experience will be like. If able, we thank you in advance.
