## **Do you know how vital a proper toner is for your skin?**

Are you looking to simplify your skincare routine? Let's talk about the purpose of toner.

Skin EssentiA's Moisturising Toner **prepares your skin for product penetration** which allows your clinical formulas to absorb even deeper where your skin needs the nutrition the most.

Lactic acid in this toner **removes dull dead cells** as it **exfoliates AND hydrates** your skin.

Paired with your Vitamin A, C & E formulas, you'll find that you'll use far less product, and your skin will be radiant and healthy. We call this the Environ Glow.

**Multitask with this incredible 3-in-1.**

*Reserve your toner for \$65 during the month of March.*

**Check out how Carlie uses it!**
