

COME TO THE TREE
STAY BY THE TREE

PRINCIPLES & PROMISES I FOUND

- **Scriptures:** Paper or Digital it doesn't matter, BUT it is important to get them out and open. Be consistent.
- **Journal:** A journal is ESSENTIAL to scripture study. This is where your thoughts and impressions will be recorded.
- **Scripture Markers:** If you are using paper scriptures, crayola twistable crayons work FANTASTIC. Digital scriptures have all colors available. Download the marking system.

[illegible]

IN YOUR JOURNAL

When Lehi was lost in a dreary waste he prayed. In your journals consider how prayer has blessed your life as you have made your way toward the tree of life? What could you do better to improve your personal, or family prayer?

The Iron Rod is the Word of God. How have the scriptures been an anchor to your life as you have journeyed toward the tree of life? Are there any things you could do to make your personal scripture study better?

Are there any distractions in your life right now that are keeping you from feeling the joy that comes from staying beside the tree of life? What is one thing you could do this week to reduce a distraction in your life?

What can you do to "heed not" the distractions of the Great and Spacious building?
