

# DOT MEDICAL EXAMINER TRAINING

*DC's*  
*I WANT*  
*YOU*

*TO DO DOT PHYSICALS, for the  
Government and  
Local Business*

The Numbers of providers doing DOT exams went from everyone (500,000 providers) to only a few thousand due to the Government requiring a "DOT Certification Course" and the MD's all quit because they did not have time. That means all the work now filters down to the providers who did AND Trucking all by itself is growing 6% a year due to demand. DC's can be the most economical providers of these services.
