

## Wild as Well - Risk Assessments

### RISK ASSESSMENT MATRIX

<b>HARM (SEVERITY) □</b>  <b>PROBABILITY (likelihood) □</b>			
	<b>Slightly harmful</b>	<b>Harmful</b>	<b>Very harmful</b>
<b>Rarely</b>	<b>Low Risk</b>	<b>Tolerable Risk</b>	<b>Moderate Risk</b>
<b>Sometimes</b>	<b>Tolerable Risk</b>	<b>Moderate Risk</b>	<b>Substantial Risk</b>
<b>Often</b>	<b>Moderate Risk</b>	<b>Substantial Risk</b>	<b>High Risk</b>

## Appendix 1: Risk Management

### Example Risk Assessment for outdoor location (private woodland hire)

Risk assessment for Cavendish Blackwoods, 479 Hucknall Rd, Nottingham NG5 1FW	Facilitator: Kate Whyatt (trading as Wild as Well)	Session Dates:
Nearest A&E: QMC, Derby Road Nottingham NG7 2UH Tel: 0115 924 9924	What3words: //await.frogs.waits	
Emergency contact No's: 999/111	Grid Ref: SK 56518 43492 52°59'09"N , 001°09'34"W	Description of event:

## Site and weather risk assessment

Hazard	Possible Harm	To Whom	Probability	Severity	Risk Rating	Mitigation for this	Risk Rating after mitigation	Who will manage?
Slip and trip	Broken limbs Twists	all	Rarely	Harmful	Tolerable Risk	Pre-session site visit to check muddy areas, animal holes, any slip and trip hazards Share information with client group of any known hazards Ongoing dynamic risk assessment of area and of participants ability to manage risk First aid kit	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022)
Fire	Burns	all	Rarely	Harmful	Tolerable Risk	Clear agreement between Facilitator & PPTs on fire safety <ul style="list-style-type: none"> <li>- Fire only for warmth and focal point.</li> <li>- No fire building or tending activities offered to attendees.</li> <li>- Fire not to be left unattended by Kate Whyatt trading as <i>Wild as Well</i> (or other insured co-facilitator if working with large group)</li> </ul>	Low Risk	Kate Whyatt trading as <i>Wild as Well</i>

						<p>Dynamic risk assessment throughout time PPTs are on site while fire is lit - reminders of agreement as and when required</p> <p>Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022)</p> <p>First aid kit</p> <p>Depending on severity of burn (partial thickness burns over 1% body area, all full thickness burns or burns to face, hands, feet, genitals or that extend around the limb) emergency 999 assistance will be called immediately.</p>		
Animal Faeces	Ingestion and sickness	all	Rarely	Harmful	Tolerable Risk	<p>Private woodland - no pets or livestock</p> <p>Pre-session site visit to check area and update risk assessment to share with client groups</p> <p>Dynamic risk assessment</p> <p>Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022)</p> <p>First Aid Kit</p>	Low risk	Kate Whyatt trading as <i>Wild as Well</i>
Branches falling	Cuts and scrapes, broken limbs, head injuries, concussion, death	all	Rarely	Very Harmful	Moderate Risk	<p>Woodland management by site.</p> <p>Pre-session site visit - check area for diseased or hanging branches and share with PPTs</p> <p>Awareness of recent weather conditions (electrical storms and high winds) - if the site is not currently suitable or safe, sessions to be cancelled while work is carried out by site maintenance.</p> <p>Alternative site to be found if possible.</p> <p>Dynamic risk assessment which includes sharing risk to PPT and advice to avoid certain areas</p> <p>First aid kit</p>	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i> in conjunction with site

						Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022)		
Fungi and berries	Ingestion leading to poisoning causing sickness, diarrhoea, vomiting or death	all	Rarely	Very Harmful	Moderate Risk	Facilitators to learn what potential risks on site by doing full reconnaissance Clear explanation by facilitators of risk and advise PPT not to pick berries for creative work or to eat PPTs reminded to wash hands before eating (indoors bathroom with soap and hot water) Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022) First aid kit	Low Risk	Kate Whyatt trading as <i>Wild as Well</i>
Thorn bushes	Torn clothes, scratches, infected wounds	all	Sometimes	Slightly Harmful	Moderate Risk	Pre-site visit to assess risk and share info with PPT regarding what areas and types of bushes to be aware of or avoid Advise PPT to wash with soap and water before applying antiseptic and dressing Kate Whyatt trading as <i>Wild as Well</i> is a certified Outdoor First Aider (trained November 2022) First Aid Kit	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i>
Kitchen area	Burns from boiling water for hot drinks	all	Rarely	Slightly Harmful	Low Risk	Indoor kitchen with standard kettle (PAT tested by site management) PPT to bring own hot drinks as part of agreement First Aid Kit Advise PPT to hold under cold running water for approx 10 mins (on repeat) Depending on severity of burn (partial thickness burns over 1% body area, all full thickness burns or burns to face, hands, feet, genitals or that extend around the	Low Risk	Facilitators/ PPT

						limb) emergency 999 assistance will be called immediately.		
Weather	Discomfort, too cold, too hot, sunburn, heavy rain	all	Sometimes	Harmful	Moderate risk	<p>Advise PPT on initial marketing to dress appropriately for the weather</p> <p>Advise wearing of suntan cream, hats and long sleeves in hot sunny weather</p> <p>Awareness of forecast weather conditions - and use shady areas if too hot/sunny and use of indoor space if needed to do circle and sharing work, continue to use outdoor space for practice sessions if possible</p> <p>Dynamic risk assessment to determine whether weather is too extreme for all parties to continue (or for session to take place).</p> <p>Awareness of possibility for dehydration, heat exhaustion and heat stroke if extreme heat forecast or risk of hypothermia if too cold - session to be cancelled if deemed too high risk to PPTs and facilitator.</p> <p>Session cancelled if electrical storms or winds over maximum 30 miles per hour forecast (however dynamic risk assessment to determine risk of outdoor work in lower but still powerful winds)</p>	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i>
Specific Activities	Using apple corers	cuts to hand from slipping	rarely	Slightly harmful	Tolerable risk	<p>Demonstrate safe usage</p> <p>First aid kit</p> <p>Kate Whyatt trading as <i>Wild as Well</i> is certified Outdoor First Aider</p>	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i>

### Ecological damage Risk

Hazard	Possible Harm	To What	Probability	Severity	Rating	Mitigation for this	Who will manage?
Damage	Breaking something	Indoors facilities, gate	Rarely	Slightly Harmful	Low Risk	Reconnaissance of site prior to session and report any signs of damage to site management Advise PPTs to take care of property and notify Facilitators of any damage	Facilitators/PPT/ Site management
Rubbish	Ingestion or getting caught in plastic	Wildlife	Sometimes	Slightly Harmful	Moderate Risk	Remind PPTs to take rubbish home with them Check site after participants leave and take rubbish home	Facilitators/PPT
Wildlife	Nests/sets/ pond damaged or disturbed	Wildlife	Rarely	Slightly Harmful	Moderate Risk	Remind PPTs to be careful of nesting birds etc and treat environment with respect	Facilitators

### Psychological, emotional and social risk from interventions.

Hazard	Possible Harm	To whom	Probability	Severity	Rating	Mitigation for this	Risk Rating after Mitigation	Who will manage?
Psychological	Recurrence/ retriggering of any psychological trauma or illness	all	Sometimes	Harmful	Moderate Risk	<p>Initial chat/risk assessment for each PPT to determine any underlying health needs and any medication taken to support this health need, and discuss with PPT if they are managing symptoms/feeling well supported to attend course</p> <p>Activities and interventions to be designed around relaxation, resourcing and revitalising outcomes to be focused on.</p> <p>Dynamic risk assessment on PPTs psychological presentation. Kate Whyatt trading as <i>Wild as Well</i> is a skilled and experienced social work practitioner specialising in mental health, neurodiversity and learning disabilities.</p>	Tolerable Risk	Kate Whyatt trading as <i>Wild as Well</i> in partnership with PPT and other involved agencies

					<p>Kate Whyatt trading as <i>Wild as Well</i> has completed three years of eco-psychological and eco-therapeutic training; accesses regular monthly supervision and peer mentor support; participates in Continuing Professional Development and reflective practice.</p> <p>If referral from health and social care staff, a full risk assessment to be completed with the consent of the PPT. Acceptance of referrals will depend on risk management possibility based on a risk vs benefit assessment.</p> <p>PPT will be supported by Kate Whyatt trading as <i>Wild as Well</i> to stay safe and any early warning signs will be tracked and deescalation/regulating techniques to be introduced.</p> <p>If PPT experiences psychosis or deterioration of mental health illness regardless of mitigation practices implemented, assistance from next of kin, Crisis Team, local Crisis Sanctuary and AMPH teams will be called upon (dynamic risk assessment to determine the pathway needed). If PPT becomes a risk to self or others, AMPH team, police (requesting mental health street triage team) will be called to ensure the safety of others.</p>
