

Recap Mrs. Emilys – March 14-2026

We are constantly amazed at what happens on any given Second Saturday. Mrs. Emily's was no exception. This is what is striking – everywhere you looked you saw people working, helping, and talking to other people. We saw teams of 2-3 and they were all perfect teams. We don't know how it always happens this way but God has His hand in it for sure. We were blessed to have two young married couple with us who have chosen to make service a part of their marriage. Here is a pic of Sadie and Mason as well as a pic of Patrick and Marie which is from January. They were with us at Mrs. Emily's we just didn't have a pic of them together. Anyone want to come take photos for us? 😊

Please sign me up to serve on Second Saturday April 11th 2026<-Click to sign up and serve!

Back at Mrs. Emilys the work was also exceptional. We always try to make sure we get that one thing done that the beneficiary is concerned about. This time it was poor ventilation from the master bathroom causing mildew on the walls. Kerry and Michael replaced the bathroom fan and motor but guess what – there was never ventilation to the outside. So Michael put on his monkey suit and climbed in the attic to install a vent hose from the fan over to the gable vent. Here is a pic of Michael in the attic. Thanks my friend!

The teams also installed a front door and a back door. Thanks to the door crews. Alex was glad that James made this his first time serving with Second Saturday installing the front door. Team Logan and David D were the biggest part of the landscape crew that stacked yard debris by the road that was 10'W x 10'L x 4'H ! And then there was the crew that resurrected raised beds and spread and bunch of wildflower seeds. This is truly going to be thing Mrs. Emily wanted that wasn't a need. We hope she likes watering flowers! Then there was the team that painted the shutters and took grinders to the front step rails then painted them. Folks, this was just an awesome day of blessings on blessings for everyone involved. Y'all should come serve with us and if that's not possible come have lunch with us! We would love to see you. Here is a pic of the folks that had a bit more work to do so we got a pic praying out with Mrs. Emily.

After all the work as always we went back to the shop for lunch and fellowship. Chuck and his sons Blake and Oliver, as well as wife Mrs. Vicki, made some of the best Smoked and Deep Fried wings. Yeah. That's a real thing y'all. Nommy, Nommy. I think there were side dishes but...Chicken wings. Here is a couple pics of Oliver and Blake and Team Logan having lunch with Luis. And no this is not all the logans that were there. This is just the most we could fit in a single pic!! Lol!

Its that time of year again for Midlands Gives Spring Edition – This year we are going to see if we can raise money to extend our reach. Last year was Hurricanes and Roofing grants. Who knows what this year will bring. Y'all pray about it and if you want to donate please do.

In His Service,

Jason Hill
